## **Arktos The Polar Myth In Science Symbolism And Nazi Survival:**

**Arktos: the Polar Myth in Science, Symbolism, and Nazi Survival** Joscelyn Godwin, 1993-02-22 Arktos is the first book ever written on the archetype of the Poles celestial and terrestrial North and South This engrossing and sometimes hair raising voyage through cosmology occultism and conspiracy theory leads to startling revelations about the secrets of the Poles The author investigates legends of a Golden Age which some claim ended in a prehistoric catastrophe a shift in the earth s axis This is examined in the light of the latest geological theories as are predictions of a coming pole shift The perennial fascination of these ideas is shown to be part of a polar tradition of hidden wisdom There are many recorded tales of an ancient race said to have lived in the Arctic regions which later spread through the Northern Hemisphere This supposedly Aryan Race entered the pantheon of Nazi Germany with dreadful consequences The author examines the origins of modern neo Nazi ideology its polar inspiration and its links with other arcana including the survival of Hitler German bases in Antarctica UFOS the Hollow Earth and the hidden kingdoms of Agartha and Shambhala However Arktos differs from most writings on these subjects in its responsible and scholarly treatment and its extensive use of foreign language sources Born in England Joscelyn Godwin teaches at Colgate University New York State His many publications include Athanasius Kircher 1979 Robert Fludd 1979 Mystery Religions in the Ancient World 1982 and Harmonies of Heaven and Earth 1988 all available from Thames and Hudson [On the Origin of Myths in Catastrophic Experience, vol. 1: Preliminaries](#) Marinus Anthony van der Sluijs, 2019-01-01 Creation myths around the world reveal an intricate network of recurrent motifs Many of these are counterintuitive and not widely known describing a time when the sky was low the stars did not yet shine multiple suns appeared the moon was brighter than the sun no land existed deities and mortals maintained frequent contact a world axis in the form of a tree ladder or giant man connected the earth with the sky a devastating flood or fire ended the old order and so forth The present work in multiple volumes aims to find an origin for this cross culturally and internally consistent body of traditions in a series of extraordinary natural events relating especially to the earth s transition from the last glacial period to the Holocene This first volume sets the stage for the interdisciplinary hypothesis Essential lines of research receive a historical introduction comparative mythology catastrophism and the study of the mythical world axis in relation to the earth s rotation Various astronomical and meteorological interpretations that are not strictly catastrophist are explored for several types of myths about the sun the moon and the world axis but leave many of the most intriguing traditions unexplained It is argued that a structural core of the worldwide mythology of creation and destruction in which the cosmic axis takes pride of place points to a specific period of dramatic natural circumstances in real prehistoric time A new synopsis is provided of this universal mythological substrate It emerges that the mythical world axis cannot have been based on a single object seen or imagined at one of the poles as has usually been supposed This surprising conclusion paves the way for the innovative geomagnetic theory proposed in volume 2 **German Exploration of the Polar World** David Thomas

Murphy,2002-01-01 German Exploration of the Polar World is the exciting story of the generations of German polar explorers who braved the perils of the Arctic and Antarctic for themselves and their country Such intrepid adventurers as Wilhelm Filchner Erich von Drygalski and Alfred Wegener are not as well known today as Robert Falcon Scott Roald Amundsen Ernest Shackleton Robert E Peary or Richard E Byrd but their bravery and the hardships they faced were equal to those of the more famous polar explorers In the half century prior to World War II the poles were the last blank spaces on the global map and they exerted a tremendous pull on national imaginations Under successive political regimes the Germans threw themselves into the race for polar glory with an ardor that matched their better known counterparts bearing English American and Norwegian flags German polar explorers were driven like their rivals by a complex web of interlocking motivations Personal fame the romance of the unknown and the advancement of science were important considerations but public pressure political and military concerns and visions of immense untapped wealth at the poles also spurred the explorers As historian David Thomas Murphy shows Germany s repeated encounters with the polar world left an indelible impression upon the German public government and scientific community Reports on the polar landscape flora and fauna enhanced Germany s appreciation of the global environment Accounts of the indigenous peoples of the Arctic accurate or fantastic permanently shaped German notions of culture and civilization The final failed attempt by the Nazis to extend German political power to the earth s ends revealed the limits of any country s ability to reshape the globe politically or militarily **Innovation in Esotericism from the Renaissance to the Present** Georgiana D. Hedesan,Tim

Rudbøg,2021-05-10 This collection explores the role of innovation in understanding the history of esotericism It illustrates how innovation is a mechanism of negotiation whereby an idea is either produced against or adapted from an older set of concepts in order to respond to a present context Featuring contributions from distinguished scholars of esotericism it covers many different fields and themes including magic alchemy Rosicrucianism Theosophy Tarot apocalypticism and eschatology Mesmerism occultism prophecy and mysticism **Otto Rahn and the Quest for the Grail** Otto Rahn,2010-04-20 Who was

the amazing Otto Rahn How come if Rahn was such an amazing man has hardly anyone outside specialist pre WW2 history circles ever heard of him But is he really such an unknown The story lines of Raiders of the Lost Ark to Indiana Jones and the Last Crusade mirror Rahn s incredible adventures in the South of France in the early 1930s **Mind Control, Oswald & JFK** Lincoln Lawrence,Kenn Thomas,1997 Rev ed of Were we controlled Lincoln Lawrence The Northern Enchantment

Margaret Jonas,2013 The idea of north suggests much more than wintry cold ice and snow To many it hints at something magical enchanting and mysterious This book explores the spiritual aspect of this attraction through a survey of ancient history Norse mythology and contemporary studies of Earth mysteries and sacred sites Through her detailed research Margaret Jonas traces the birth of Celtic Christianity in the British Isles Ireland Scandinavia and Germany to reveal a time when ancient prophecies related to the Sun and divine beings came to fulfillment A new spiritual wisdom gradually spread

across Europe not just northward from the south but also eastward from west The author describes how a paradisiacal element from the earliest stages of Earth's evolution was preserved and nurtured in hidden places associated with the northern mysteries This fascinating work of accessible scholarship features chapters on Hyperborea Thule and Apollo the Druids and Odinic Mysteries Norway and the Celtic Christian Legacy the Number Five and the Etheric Body the Externsteine and the God Vidar and Finland The book concludes with hints of a future when northern magic will be transformed and new clairvoyant faculties will be within the reach of all humanity

*The Jung Cult* Richard Noll, 1997-06-05 This revolutionary reassessment of Jung's research conclusions and character asserts that Jung falsified his key research in developing the theory of a collective unconsciousness Noll also reveals evidence that Jung founded a profascist religious cult in which he intended to be worshipped as an Aryan Christ propagated racist and anti-Semitic theories and practiced polygamy for much of his life

Transhumanism David Livingstone, 2015-09-02 Transhumanism is a recent movement that extols man's right to shape his own evolution by maximizing the use of scientific technologies to enhance human physical and intellectual potential While the name is new the idea has long been a popular theme of science fiction featured in such films as 2001 A Space Odyssey Blade Runner the Terminator series and more recently The Matrix Limitless Her and Transcendence However as its adherents hint at in their own publications transhumanism is an occult project rooted in Rosicrucianism and Freemasonry and derived from the Kabbalah which asserts that humanity is evolving intellectually towards a point in time when man will become God Modeled on the medieval legend of the Golem and Frankenstein they believe man will be able to create life itself in the form of living machines or artificial intelligence Spearheaded by the Cybernetics Group the project resulted in both the development of the modern computer and MK Ultra the CIA's mind control program MK Ultra promoted the mind expanding potential of psychedelic drugs to shape the counterculture of the 1960s based on the notion that the shamans of ancient times used psychoactive substances equated with the apple of the Tree of Knowledge And as revealed in the movie Lucy through the use of smart drugs and what transhumanists call mind uploading man will be able to merge with the Internet which is envisioned as the end point of Kabbalistic evolution the formation of a collective consciousness or Global Brain That awaited moment is what Ray Kurzweil a director of engineering at Google refers to as The Singularity By accumulating the total of human knowledge and providing access to every aspect of human activity the Internet will supposedly achieve omniscience becoming the God of occultism or the Masonic All Seeing Eye of the reverse side of the American dollar bill

**Germans in the Antarctic** Cornelia Lüdecke, 2021-02-08 While science was usually at the forefront of German Antarctic expeditions research into the Southern Polar region always had a political or economic component whether it was about resource use or securing areas of influence Cornelia Lüdecke presents the course of the three German Antarctic expeditions from 1901-03 1911-12 and 1938-39 with their partly dramatic turns and twists and provides insights into everyday life under extreme conditions She also evaluates unpublished material from the archives and private estates of the expedition members

She looks at the expeditions from a scientific and political point of view and also deals with the myths associated with the Schwabenland expedition during the National Socialist era Finally the author describes German south polar research after World War II which took different paths in the German Democratic Republic and in the Federal Republic of Germany and gives an outlook on future research For the first time this book presents the history of the Germans in Antarctica in a factual and informative way for the general public With numerous pictures some of which have never been published before

**William Dudley Pelley** Scott Beekman,2005-10-17 William Dudley Pelley was one of the most important figures of the anti Semitic radical right in the twentieth century Best remembered as the leader of the paramilitary Silver Shirts Pelley was also an award winning short story writer Hollywood screenwriter and religious leader During the Depression Pelley was a notorious presence in American politics he ran for president on a platform calling for the ghettoization of American Jews and was a defendant in a headlinegrabbing sedition trial thanks to his unwavering support for Nazi Germany Scott Beekman offers not only a political but also an intellectual and literary biography of Pelley greatly advancing our understanding of a figure often dismissed as a madman or charlatan His belief system composed of anti Semitism economic nostrums racialism neo Theosophical channeling and millenarian Christianity anticipates the eclecticism of later cult personalities such as Shoko Asahara leader of Aum Shinrikyo and the British conspiracy theorist David Icke By charting the course of Pelley s career Beekman does an admirable job of placing Pelley within the history of both the anti Semitic right and American occult movements This exhaustively researched book is a welcome addition to the growing body of scholarship on American extremism and esoteric religions Culture of Conspiracy Michael Barkun,2003-11-07 What do UFO believers Christian millennialists and right wing conspiracy theorists have in common According to Michael Barkun in this fascinating yet disturbing book quite a lot It is well known that some Americans are obsessed with conspiracies The Kennedy assassination the Oklahoma City bombing and the 2001 terrorist attacks have all generated elaborate stories of hidden plots What is far less known is the extent to which conspiracist worldviews have recently become linked in strange and unpredictable ways with other fringe notions such as a belief in UFOs Nostradamus and the Illuminati Unraveling the extraordinary genealogies and permutations of these increasingly widespread ideas Barkun shows how this web of urban legends has spread among subcultures on the Internet and through mass media how a new style of conspiracy thinking has recently arisen and how this phenomenon relates to larger changes in American culture This book written by a leading expert on the subject is the most comprehensive and authoritative examination of contemporary American conspiracism to date Barkun discusses a range of material involving inner earth caves government black helicopters alien abductions secret New World Order cabals and much more that few realize exists in our culture Looking closely at the manifestations of these ideas in a wide range of literature and source material from religious and political literature to New Age and UFO publications to popular culture phenomena such as The X Files and to websites radio programs and more Barkun finds that America is in the throes of an unrivaled period of

millennarian activity His book underscores the importance of understanding why this phenomenon is now spreading into more mainstream segments of American culture      **The Antarktos Cycle** Robert M. Price, 2006 Horror and Wonder at the Ends of the Earth Writers are drawn to the unreachable places of the Earth to the greatest mountains and depths of the sea the most barren deserts and to the white frozen deserts surrounding the north and south poles In our minds eyes the beauty and mystery of the ice descends from Poe to the present and into the future an infinite realm of wonder      **Paschal Beverly Randolph** John Patrick Deveney, 1997-01-01 His most enduring claim to fame is the crucial role he played in the transformation of spiritualism a medium s passive reception of messages from the spirits of the dead into occultism the active search for personal spiritual realization and inner vision      The Big Book of Canadian Hauntings John Robert Colombo, 2009-08-17 Watch out Here comes another mammoth book to thrill you and chill you and to frighten you to within an inch of your life It comes bumping out of the night from John Robert Colombo the master of the macabre This new compendium delivers excitement and delight to everyone who finds the unknown and the inexplicable fascinating baffling and frightening The Big Book of Canadian Hauntings offers readers true first person accounts of the appearances and the disappearances of ghosts and spirits as well as considerations and discussions of their effects on observers Some told as true tales are reprinted from newspapers and periodicals of the past but the majority of the stories which come from every region in Canada are based on eyewitness reports of the present that are appearing here for the first time and are based on the compiler s ongoing research So whether you believe in ghosts spirits spooks spectres or poltergeists or not after reading these narratives contributed by Canadians from all walks of life you definitely won t be indifferent to them      *Subterranean Worlds* Peter Fitting, 2004-12-15 Exploring the hollow earth from the 17th century to the present The bizarre idea that the earth s interior is hollow and perhaps even populated has been put to effective literary use by writers ranging from Edgar Allen Poe and Jules Verne to Rudy Rucker and Edgar Rice Burroughs This notion had respectability as a scientific hypothesis until the early 1800s and the theory that the earth is hollow and inhabitable within continues to find believers as an alternative description of the earth to this day The hollow earth is one of the most important settings in the literature of the imagination that fed into early science fiction Subterranean Worlds presents a fascinating look at the theme of the hollow earth and its history as well as the geological theories which produced many of these stories It excerpts key passages from the major subterranean world fictions some translated into English for the first time With helpful introductions to each selection and a comprehensive bibliography this book is the definitive treatment of this entertaining topic      A UFO Hunter's Guide Bret Lueder, 2025-09-12 Alien abductions Repeated UFO sightings Conspiracies and cover ups Whether you re a skeptic or a believer UFOs are part of our culture How to sort out fact from fiction A UFO Hunter s Guide has the answers the facts figures people places and events that make up the modern scope of UFO ology A UFO Hunter s Guide features Competing theories about UFOs Famous cases and hot spots around the world Field tips from investigators and

researchers An extensive list of international UFO research societies Lueder cites the contributions and findings of world renowned researchers Zecharia Sitchin William Bramley Jordan Maxwell Nancy Red Star Stanton Friedman Dr Carl Sagan Jacques Vallee Raymond Fowler and many others along with a vast array of case sightings alleged contacts and abductions Whether you re simply curious or a researcher with a serious interest in uncovering the truth about UFOs A UFO Hunter s Guide is a valuable resource

**Eranos** Hans Thomas Hakl, 2014-09-11 Every year since 1933 many of the world s leading intellectuals have met on Lake Maggiore to discuss the latest developments in philosophy history art and science and in particular to explore the mystical and symbolic in religion The Eranos Meetings named after the Greek word for a banquet where the guests bring the food constitute one of the most important gatherings of scholars in the twentieth century The book presents a set of portraits of some of the century s most influential thinkers all participants at Eranos Carl Jung Erich Neumann Mircea Eliade Martin Buber Walter Otto Paul Tillich Gershom Scholem Herbert Read Joseph Campbell Erwin Schrodinger Karl Kereyni D T Suzuki and Adolph Portmann The volume presents a critical appraisal of the views of these men how the exchange of ideas encouraged by Eranos influenced each and examines the attraction of these esotericists towards authoritarian politics
