Richard Parncutt, Gary McPherson, 2002-04-18 Music educators and practicing musicians have failed to benefit as much as they could from the past two decades of music psychology research. In this volume Parncutt and McPherson propose to improve the situation by describing new approaches informed by recent psychological research to teaching music learning music and making music at all educational levels. The volume's twenty-one articles cover the broad issues of the developing musician's subskills of musical performance and instruments and ensembles. *The Routledge Companion to Jazz and Gender*

James Reddan, Monika Herzig, Michael Kahr, 2022-08-19 *The Routledge Companion to Jazz and Gender* identifies, defines, and interrogates the construct of gender in all forms of jazz. Jazz culture and education are shaping and transforming the conversation in response to changing cultural and societal norms across the globe. Such interrogation requires consideration of gender from multiple viewpoints from scholars and artists at various points in their careers. This edited collection of 38 essays gathers the diverse perspectives of contributors from four continents exploring the nuanced and at times controversial construct of gender as it relates to jazz music in the past and present in four parts: Historical Perspectives, Identity and Culture, Society and Education, Policy and Advocacy. Acknowledging the art form's troubled relationship with gender, contributors seek to define the construct to include all possible definitions, not only female and male without binary limitations, contextualizing gender and jazz in both place and time. As gender identity becomes an increasingly important consideration in both education and scholarship, *The Routledge Companion to Jazz and Gender* provides a broad and inclusive resource of research for the academic community addressing an urgent need to reconcile the construct of gender in jazz in all its forms.

The Modern Brass Ensemble in Twentieth-century Britain John Miller, 2022 The first study of the performance practice repertoire and context of the modern brass ensemble in the musical world. Whereas the British brass band originated in the nineteenth century and rapidly developed into a nationwide working-class movement, the perceived modern brass ensemble has a less clear foundation and identity. This book is the first to focus exclusively on the performance practice repertoire and context of the brass ensemble in the musical world. Following World War II, the brass quintet and other orchestral groupings emerged in the United States and Europe with musical customs established by professional players playing orchestral instruments. These groups initially played a combination of the music of Gabrieli and his contemporaries as well as newly commissioned works. By the late twentieth century, however, repertory spanned works by Elliott Carter, Maxwell Davies, and Lutosławski together with music that integrated jazz commercial elements and landmark transcriptions. At the book's heart is the story of the London-based internationally acclaimed Philip Jones Brass Ensemble. But this is not a story of one ensemble as the brass ensemble can be defined in several forms. *The Modern Brass Ensemble in Twentieth Century Britain* offers a comprehensive account by an author and performer who was involved in many of the key developments of the modern brass ensemble. At the book's heart is the story of the London-based internationally acclaimed Philip Jones Brass Ensemble. But this is not a story of one ensemble as the brass ensemble can be defined in several forms.
