Big-(Wo)men, Tyrants, Chiefs, Dictators, Emperors and Presidents Francesco dell'Isola,2019-07-19 This book highlights mathematical ideas to help explain a number of important aspects of the dynamics of social groups These ideas are similar to those used to describe the behaviour of Lagrangian mechanical systems and as such this book appeals to anyone wanting to gain an understanding of the intrinsic unity of natural phenomena **Hearings Before the President's**

President (1933-1945 : Roosevelt),1944 **Presidents & Parties in the Public Mind** Gary C. Jacobson,2019-02-06 How is Donald Trump s

presidency likely to affect the reputation and popular standing of the Republican Party Profoundly according to Gary C Jacobson From Harry S Truman to Barack Obama every postwar president has powerfully shaped Americans feelings positive or negative about their party The effect is pervasive influencing the parties reputations for competence their perceived principles and their appeal as objects of personal identification It is also enduring as presidents successes and failures continue to influence how we see their parties well beyond their time in office With Presidents and Parties in the Public Mind Gary C Jacobson draws on survey data from the past seven administrations to show that the expansion of the executive branch in the twentieth century that gave presidents a greater role in national government also gave them an enlarged public presence magnifying their role as the parties public voice and face As American politics has become increasingly nationalized and president centered over the past few decades the president s responsibility for the party s image and status has continued to increase dramatically Jacobson concludes by looking at the most recent presidents effects on our growing partisan polarization analyzing Obama s contribution to this process and speculating about Trump s potential for amplifying the widening demographic and cultural divide **William Howard Taft and the First Motoring Presidency, 1909-1913**

Michael L. Bromley,2007-01-09 William Howard Taft declared I am sure the automobile coming in as a toy of the wealthier class is going to prove the most useful of them all to all classes rich and poor Unlike his predecessors who made public their disdain for the automobile Taft saw the automobile industry as a great source of wealth for this country The first president to acquire a car in office Congress granted him three automobiles Taft is responsible for there being a White House garage in 1909 This is a meticulously researched reappraisal of the oft maligned Taft presidency focusing particularly on his cars his relationship to the automobile and the role of the automobile in the politics of his day Appendices provide information on the White House garage and stable Taft s speech to the Automobile Club of America and a glossary of terms and names

Dan Wood, 2012-08-27 The founders of the American republic believed presidents should be wise and virtuous statesmen consistently advocating community interests when conducting American foreign policy Yet the most common theoretical model used today for explaining the behavior of politicians is grounded in self interest rather than community interest This book investigates whether past presidents acted as noble statesmen or were driven by such self interested motivations as re election passion partisanship media frenzy and increasing domestic support The book also examines the consequences for the nation of presidential behavior driven by self interest Between 1945 and 2008 presidents issued 4 269 threats to nineteen different countries Professor B Dan Wood evaluates the causes and consequences of these threats revealing the nature of presidential foreign policy representation and its consistency with the founding fathers intentions
