Art And Vision Of Aurangabad Caves:

Art and Vision of Aurangabad Caves Dulari Qureshi, 1998 The volume presents a detailed and exhaustive study of Aurangabad caves Each sculpture in every cave has been very meticulously documented including those ones so far remained neglected Each chapter deals with groundplan doorjambs window frames figures outside pillars and pillars of the verandah the details of the pillars and pilasters and he proceeds with the main hall antechamber and the shrine details The Buddhist Caves at Aurangabad: Transformations in Art and Religion Pia Brancaccio, 2010-12-17 This is a study that focuses on the art and architecture of a group of Buddhist rock cut monuments excavated on the western edge of the Deccan Plateau in India It analyses the various cultural historical and religious phenomena that shaped the caves at Aurangabad through the first seven centuries of the Common Era and it comments on the Buddhist tradition of the western Deccan as a whole The result is a comprehensive work that does not address exclusively iconography and chronology but looks beyond Aurangabad to the larger artistic and religious traditions of the Indian Subcontinent *Buddhist Architecture* Huu Phuoc Le, 2010 The volume thoroughly examines the origins and principal types of Buddhist architecture in Asia primarily between the third century BCE twelfth century CE with an emphasis on India It aims to construct shared architectural traits and patterns along with the derivative relationships between Indian and Asian Buddhist monuments It also discusses the historical antecedents in the Indus Civilization and the religious and philosophical foundations of the three schools of Buddhism and its founder Buddha Previously obscure topics such as Aniconic and Vajrayana Tantric architecture and the four holiest sites of Buddhism will also be covered in this comprehensive volume The author further investigates the influences of Buddhist architecture upon Islamic Christian and Hindu architecture that have been overlooked by past scholars **Chāchāji**, 2000 **ABIA South and Southeast Asian Art and Archaeology Index** Ellen M. Raven, Helga I. Lasschuijt, 2002 Supplies annotated and indexed entries on publications in Asian and European languages relating to prehistory historical archaeology art history including modern art material culture epigraphy paleography numismatics and sigillography **Art of India** Frederick M. Asher, 2003 A superbly illustrated volume From 3000 BC to the present a comprehensive history of the visual arts in India as they developed through time Ellora, Concept and Style Carmel Berkson, 1992 **The Art of Ajanta and Sopoćani** Om Datt Upadhyaya, 1994-01-01 Pauranic Prana aesthetics a finer shade different from that of vitalistic aesthetics the earlier having breathing rhythm of Kṣaya Vṛddhi diminution and augmentation other than the latter's emphasis only on the rhythm of augmentation has been delineated in this study with examples from the world's two of the best art monuments Ajanta India now not remaining unknown even to the most casual connoisseur and Sopoćani Yugoslavia the most significant and monumentally beautiful work of Byzantine art Tracing Prana aesthetics as the aesthetics of inner light coded in the creeper motif by the artists of Ajanta this work emphasises decoding of the creeper motif by Byzantine artists culminating into the frescoes of Sopoćani done in Hellenistic Byzantine aesthetics beatified by Hesychast meditation to which that of Buddhists

was not unknown Comparisons of various determinant aspects aesthetics and artistic denominators and constraints not allowing similar consummation are properly investigated to substantiate the thesis that Prana aesthetics transfigures at Ajanta but transubstantiates at Sopocani The significance of the anabolic aspects of this aesthetics is highlighted especially as a way out from the reductivistic tendencies of the present day visual arts straining them upto the stage of catabolic dissolution

Caves has not been published after James Burgess and James Fergusson Modern view points and deeper understanding of the caves was essential The study required huge travel around the caves it was difficult to access some caves Since there are no facilities around photography was extremely perplexing However the book was completed within a span of three and a half years Focus of the book is on the evolution of the chaitya and the vihara caves as well as an comprehensive documentation of all the caves Each cave was carefully studied and their architectural cultural details were documented A comparative study too has been included as similarities and dissimilarities establish a more authentic dating in case of absence of inscriptions The book also throws light on many unidentified sculptures The special contribution of the book is the inclusion of practically all caves even some caves that were not included by James Burgess and Fergusson like the unknown caves of Kol Yerphal Pohale Nadsur and Nenavali Some of these caves are simply inaccessible Besides all the documentation the book has also taken special pains to assess and evaluate the present conditions of all these monuments as after a gap of many years many cave groups are in an extremely bad condition Those caves under ASI are in fairly good condition though of course caves like Ajanta where the painting despite commendable development and conservation work being done are in a bad condition due to climatic and other geographical and man made reasons In the study major scholars work has been referred to as their contribution is significant
