revealing that art became the talk of the nation in the second half of the nineteenth century in the pages of mass circulation press At the heart of Dianina s study is a paradox how did culture become the national idea in a country where few were educated enough to appreciate it Dianina questions the traditional assumptions that culture in tsarist Russia was built primarily from the top down and classical literature alone was responsible for imagining the national community When *Art Makes News* will appeal to all those interested in Russian culture as well as scholars and students in museum and exhibition studies *A History Of Russia Volume 2* Walter G. Moss,2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world **History and Myth in Pictorial Narratives of the Russian**

'Patriotic War', 1812-1914 Andrew M. Nedd,2024-07-08 This book reveals that the visual narrative of the events of the Russian campaign of 1812 was inextricably linked to Russia s search for national identity and helped to form competing definitions of Russianness No pre revolutionary military event was more celebrated in Russian literature and art than the Patriotic War of 1812 during which Napoleon advanced his Grand Arm e into Russia only to retreat months later in defeat as his army faced starvation and capture during the brutal winter The works of art that retold the story of 1812 extolled virtues that were represented as inherently Russian courage resourcefulness and unity Furthermore these values were increasingly contrasted with those of the foreign invader from the west While the emphasis is largely on academic painting this book also explores popular media and memorialization in order to reveal the role that images played in the process of constructing identities in nineteenth century Russia *Russian Painting* Peter Leek,2012-05-08 From the 18th century to the 20th this book gives a panorama of Russian painting not equalled anywhere else Russian culture developed in contact with the wider European influence but retained strong native intonations It is a culture between East and West and both influences in together The book begins with Icons and it is precisely Icon painting which gave Russian artist their peculiar preoccupation with ethical questions and a certain kind of palette It goes on to expound the duality of their art and point out the originality of their contribution to world art The illustrations cover all genres and styles of painting in astonishing variety Such figures as Borovokovsky Rokotov Levitsky Brullov Fedatov Repin Shishkin and Levitan and many more are in these pages

Cultures of Forgery Judith Ryan,Alfred Thomas,2013-05-13 In *Cultures of Forgery* leading literary studies and cultural studies scholars examine the double meaning of the word forge to create or to form on the one hand and to make falsely on the other **Political Censorship of the Visual Arts in Nineteenth-Century Europe** Robert Justin Goldstein,Andrew M. Nedd,2015-09-01 In this comprehensive account of censorship of the visual arts in nineteenth century Europe when imagery was accessible to the illiterate in ways that print was not specialists in the history of the major European countries trace the
