Art Culture And Entertainment:

Art and Entertainment Andy Hamilton, 2024-02-29 Philosophers have discussed art or artistic practices such as poetry since ancient times But systems of art and entertainment appeared only in the modern era in the West during the 18th and 19th centuries And philosophers have largely neglected the concept of entertainment In this book Andy Hamilton explores art and entertainment from a philosophical standpoint He argues against modernist theory that art and entertainment are not opposites but form a loosely connected conceptual system Against postmodernism however he insists on their vital differences Hamilton begins by questioning the received modernist view examining artist entertainers including Jane Austen Charles Dickens Louis Armstrong and Billie Holiday Entertainment he argues is by nature audience centred but so is art in a different way Thus while art should pass the test of time entertainment must pass the test of its own time it has to entertain at the time it is produced Art and entertainment are inter dependent concepts and must be understood together with other aesthetic concepts including criticism genius canons and design These concepts form the subject of later chapters of this book where Hamilton develops a meritocratic position that is neither elitist nor populist He also addresses the contemporary charge of cultural appropriation and qualifies it An innovative feature of the book is the inclusion of dialogues with artists critics and academics that help to recast or reformulate the debate *Art and Entertainment A Philosophical Exploration* is essential reading for those working in art and aesthetics and will also be of interest to those in related disciplines such as cultural studies music and film studies with an interest in entertainment

Cultural Computing Ryohei Nakatsu,Naoko Tosa,Fazel Naghdy,Philippe Codognet,2010-08-06 Welcome to the Second International IFIP Entertainment Computing Symposium on st

Cultural Computing ECS 2010 which was part of the 21 IFIP World Computer Congress held in Brisbane Australia during September 21-23, 2010. On behalf of the people who made this conference happen, we wish to welcome you to this international event. The IFIP World Computer Congress has offered an opportunity for researchers and practitioners to present their findings and research results in several prominent areas of computer science and engineering. In the last World Computer Congress WCC 2008 held in Milan, Italy, in September 2008, IFIP launched a new initiative focused on all the relevant issues concerning computing and entertainment. As a result, the two-day technical program of the First Entertainment Computing Symposium ECS 2008 provided a forum to address, explore, and exchange information on the state of the art of computer-based entertainment and allied technologies, their design and use, and their impact on society. Based on the success of ECS 2008 at this Second IFIP Entertainment Computing Symposium ECS 2010, our challenge was to focus on a new area in entertainment computing: cultural computing.

A Research Agenda for Cultural Economics Samuel Cameron, 2019. A Research Agenda for Cultural Economics explores the degree of progress and future directions for the field. An international range of contributors examine thoroughly matters of data quality, statistical methodology, and the challenge of new developments in technology. This book is ideal for both emerging researchers in cultural economics and experienced practitioners. It is also relevant to workers in other fields such as cultural policy, public policy, media studies, and digital economics.

Advances of Immersive Entertainment Experience in Tourism 2024-03-08. This book studied the newly emerged business format of immersive entertainment experiences, mainly focusing on offline forms which have been proved to contribute a lot to the upgrading of modern culture and tourism industry development. With solid theoretical research on interactive digital narrative and immersive experience, etc., it defined the immersive entertainment. Based on comprehensive analysis of immersive entertainment industry development at home and abroad, the research team initiated a thorough investigation of status quo of immersive entertainment in Shanghai. By deep interviewing with professionals, operators, and consumers in the immersive entertainment industry, it aims to explore the reasons behind the popularity of immersive entertainment experience and the booming immersive industry, introduce typical formats and classification methods of immersive experiences, compare common development models in the immersive entertainment industry, identify development bottlenecks, and discuss future trends and suggestions in the immersive entertainment industry. This book is the collaborative effort of researchers led by Chen Liying's research team. Chen Liying established the research framework for the entire project and oversaw the final manuscript and revisions. Tao Tingfang contributed a lot to the original idea and framework of the book. Zhangjing was responsible for the initial draft of Chapter 4, 5, 6. Yin Weihua was responsible for the Shanghai immersive entertainment development. Guan Xu was responsible for international cases and experiences. Chen Liying was responsible for Chapter 1, 2, 3, 7, and the initial draft of Chapter 8, as well as supplementing some case studies. Ma Yingjie was responsible for the technological path of Chapter 7.
