Tomlinson, 1998-01-15 Every child is entranced by the magic of story regardless of national boundaries Many of the most memorable childhood stories have their origins in other countries Exposing children to this multi national body of literature introduces them to the great diversity of people and cultures that populate the world at a young age enabling them to become more thoughtful and generous individuals Children s Books from

Other Countries is a complete and current guide to international children's literature. The concept of a bibliography of international children's literature is not new. In the past many books have accomplished this task. The last two decades, however, have not yet produced a current reference source devoted to international children's books. *Children's Books from Other Countries* wonderfully rectifies this lack of attention. An introductory essay provides an overview of the field including a discussion on the rationale of sharing international books with children, a brief history of the children's literature movement, related books and awards, and basic information about the International Board on Books for Young People (IBBY) and its American branch, the United States Board on Books for Young People (USBBY). An annotated bibliography contains over 700 titles from 29 different countries printed between 1950 and 1996. All titles are available in English; many have been translated, and others have originated in other English-speaking countries. The titles are organized by genre and have been selected for their high quality. They are primarily targeted for children ages 0-14, although a few outstanding young adult titles are included. Winners of the Mildred Batchelder Award and the Hans Christian Andersen Medal are listed in the appendix. Indexes include Author, Title, Index Country of Origin, Index and Subject Index. Affordable and readable, this timely resource is certainly a must for librarians and teachers and other professionals working with children. Sponsored by the United States

Children's Literature in Social Studies DeAn M. Krey, 1998. Graded annotated bibliography of children's books organized according to the NCSS's ten thematic strands of social studies: culture, time, continuity and change, people, places, and environments, individual development and identity, individuals, groups, and institutions, power, authority, and governance, production, distribution, and consumption, science, technology, and society, global connections, civic ideals, and practices.

Essentials of Children's Literature Carol Lynch-Brown, Carl M. Tomlinson, 1993. Using a facts-only approach for students and their instructors, renowned authors Carol Lynch-Brown and Carl Tomlinson offer an abundance of examples to illustrate how to use children's literature in the classroom. Part One of the book covers current trends and the introductory material students need in order to begin selecting, reading, and evaluating children's trade books. Part Two defines and describes specific genres of literature and discusses the types of books that fall within the categories. Part Three presents curriculum and teaching strategies.
