A Call In The Midst Of The Crowd:

Kaleidophonic Modernity Brett Brehm, 2023-02-21 What stories remain hidden behind one of the most significant inventions of the nineteenth century Kaleidophonic Modernity reexamines the development of mechanical sound recording technology by charting the orbits of writers scientists and artists in France and the United States Working between comparative literature the history of science and urban studies Brehm builds a bridge between visual culture and sound studies Kaleidophonic Modernity places the poet and inventor Charles Cros and his lover the celebrated concert pianist and salonni re Nina de Villard at the heart of modern aesthetic and scientific vanguards Cros s scientific endeavors ranged from color photography to telecommunications to mechanical sound reproducibility In his poetry the Surrealists found an ancestor and inspiration His literary and scientific works prove startling and relevant to predicaments of technological media in his own time and ours For nearly twenty years Nina de Villard presided over a supremely daring intellectual salon There she welcomed manifold literary artistic and musical luminaries into a veritable crucible of the artistic avant garde and precursor to the famous Chat Noir cabaret Together these two forgotten but pivotal figures Cros and Villard help reframe our thinking on Edgar Allan Poe Charles Baudelaire and Walt Whitman icons of urban modernity who can now be seen and heard in a kaleidophonic light one that offers a compelling new perspective on modern mediascapes In elaborating this transatlantic phenomenon Kaleidophonic Modernity illuminates the prehistory of the phonograph as it intersects with the aesthetics of sound reproducibility Franco American literary exchange Poe s aesthetic and intellectual legacy the sounds of modern cities and technologies and the genealogy of audiovisual experimentation found in such movements as Dada Futurism and the sound art of today

A Mirror in the Roadway Morris Dickstein, 2021-08-10 In a famous passage in *The Red and the Black* the French writer Stendhal described the novel as a mirror being carried along a roadway In the twentieth century this was derided as a na ve notion of realism Instead modern writers experimented with creative forms of invention and dislocation Deconstructive theorists went even further questioning whether literature had any real reference to a world outside its own language while traditional historians challenged whether novels gave a trustworthy representation of history and society In this book Morris Dickstein reinterprets Stendhal s metaphor and tracks the different worlds of a wide array of twentieth century writers from realists like Theodore Dreiser Sinclair Lewis Edith Wharton and Willa Cather through modernists like Franz Kafka and Samuel Beckett to wildly inventive postwar writers like Saul Bellow G nter Grass Mary McCarthy George Orwell Philip Roth and Gabriel Garc a M rquez Dickstein argues that fiction will always yield rich insight into its subject and that literature can also be a form of historical understanding Writers refract the world through their forms and sensibilities He shows how the work of these writers recaptures yet also transforms the life around them the world inside them and the universe of language and feeling they share with their readers Through lively and incisive essays directed to general readers as well as students of literature Dickstein redefines the literary landscape a landscape in which reading has for decades been

devalued by society and distorted by theory Having begun with a reconsideration of realism the book concludes with several essays probing the strengths and limitations of a historical approach to literature and criticism New York-Paris Laure Katsaros,2012-10-15 A comparison of the mid 19th century city in the poetry of Walt Whitman and Charles Baudelaire and their responses to the inescapable push of modernization *Flames of Faith* Rev. L. C. M. Ibeh,2023-10-24 Everything we need to live a peaceful and joyful life is in scripture yet people find it hard to take the time to meditate on it Through scripture the Lord sends us his Word to heal the sick to guide and direct His children who are lost and wandering to set free those in bondage and to comfort those who are grieving He implores us to give hope to our neighbors who are on the verge of despair and to renew those whose hearts are broken Finally He guides us to bring peace to those whose lives are filled with chaos fear and anxiety and to accompany those who feel lonely *Flames of Faith* offers daily inspiring scripture passages and reflections for your everyday life They will motivate and encourage faith and help Christians build a daily habit of meditating on scripture *A Call in the Midst of the Crowd* Alfred Corn,2016-10-08 Poems **The Nation** ,1978-07

The Girl In The Tinder App Jaykay Heart,2024-04-07 It s interesting how a man s passion can drive him to do things he wouldn t have done on a normal sunny day Meet Rahul a man with exceptional deductive and observational skills trying to live a simple life When faced with a domestic predicament Rahul finds himself thrust into a world of mysteries beyond his control Balancing his roles as a father and his unwavering passion for solving puzzles follow Rahul as he immerses himself in a realm of enigma In this journey he discovers that life s mysteries often mirror the intricate puzzles he loves to solve prompting him to contemplate the profound connection between the mysteries of the world and the mysteries of the heart

The Kenyon Review John Crowe Ransom,1993 Editor winter 1939 autumn 1941 J C Ransom *Walt Whitman's Native Representations* Ed Folsom,1997-05-28 Moving through Whitman s career four times from four different perspectives this 1994 book investigates several major American cultural developments that occurred during Whitman s lifetime the development of American dictionaries the growth of baseball the evolution of American Indian policy the development of photography became essential components of Whitman s innovative poetics Resisting the usual critical temptation to present a totalised one dimensional Whitman this study views him instead as multiple and contradictory a gatherer of discordant tones and clashing approaches from a variety of surprising cultural arenas In such cultural activities Whitman found not his poetic subject so much as his poetic tools and techniques These cultural actions taught him how to make native representations The Apprenticeship Writings of Frank Norris, 1896-1898 Frank Norris,1996 Frank Norris 1870 1902 has long been recognized by cultural historians as a touchstone figure clearly signaling in 1899 the emergence of an Amer school of Literary Naturalism McTeague A Story of San Francisco secured this honor for him that year as it registered more fully than any previous Amer novel the Darwinian view of life that is the essential characteristic of all subsequent Naturalistic fictions It thus marked as well the rejection of the Victorian Era s habitually idealistic representations of human nature and

its basically religious world view offering instead a post metaphysical portrait of the human condition that has remained popular in 20th cent literary and intellectual circles Includes all of the known writings of Norris published between 11 April 1896 and 1897 Illus I Call Him Lord, He Calls Me Son Michael Hobbs,2010-04-29 Sixteen sermons preached to those who are in need of hope Each sermon directs the reader toward Jesus Christ who is Christ in you the hope of glory *Lincoln's Smile and Other Enigmas* Alan Trachtenberg,2008-01-22 A new assemblage of masterly essays from a foremost scholar of American history and culture Alan Trachtenberg has always been interested in cultural artifacts that register meanings and feelings that Americans share even when they disagree about them Some of the most beloved ones like the famous last photograph of Abraham Lincoln taken at the time of his second inaugural are downright puzzling and it is their obscure riddlelike aspects that draw his attention in the scintillating essays of *Lincoln's Smile and Other Enigmas* With matchless authority Trachtenberg moves from the daguerreotypes that entranced Americans from the start and that Hawthorne made much of in *The House of Seven Gables* to literary texts of which he is a peerless interpreter Howell's novels Horatio Alger's stories Huckleberry Finn the cityscapes of Walt Whitman and Stephen Crane In his exploration of the ways that nineteenth and early twentieth century writers tried to make sense of the modern American city he also addresses subjects as diverse as Louis Sullivan's Auditorium Building the Brooklyn Bridge and the early works of Lewis Mumford The celebrated author of *Reading American Photographs* concludes his important new book with readings not only of the photographs of Walker Evans Wright Morris and Eugene Smith but of the city images of film noir Canto,1978 Contemporary Literary Criticism Daniel G. Marowski,1985-07 Entries include critical commentary brief biographical information a portrait when available a list of principal works and may also include a further reading section **Twentieth-century American Literature**,1986 **New York** Jesse Zuba,Harold Bloom,Sterling Professor of Humanities Harold Bloom,2004 Discusses New York City as a source of inspiration as well as a home to writers throughout history Henry Clay Frick and the Golden Age of Coal and Coke, 1870-1920 Cassandra Vivian,2020-04-23 Once the beehive coke oven was perfected in Fayette County Pennsylvania the coal and coke industry began to flourish and supply other fledgling industries with the fuel they needed to succeed The thrust of this growth came from Henry Clay Frick who opened his first coal mines in the Morgan Valley of Fayette County in 1871 There he helped lead the industry making it the major developmental force in industrial America This book traces the birth and growth of the early coal and coke industry from 1870 to 1920 primarily in Fayette and Westmoreland Counties Beyond Frick's importance to the industry other major topics covered in this history include the lives and struggles of the miners and immigrants who worked in the industry the growth of unions and the many strikes in the region and the attempts to clean the surrounding waterways from the horrific pollution that resulted from industrial development Perhaps the most significant fact is that this book uses primary sources contemporary with the golden age of the coal and coke industry That effort offers an alternative view and helps repair the common portrayal of Frick as corrupt by showing his work as that of an

A Public and Political Christ Bart B. Bruehler, 2011-08-05 Was Jesus a public figure A political figure Yes according to Luke's gospel Jesus was a Christ who was both public and political Recent developments in the theory and practice of the study of space have provided tools to classify ancient social spatial spheres with greater nuance and depth A broad survey of literary and archaeological resources in the ancient world as well as an in depth look at Plutarch's Political Precepts and Philostratus's Life of Apollonius reveals that the familiar dichotomy of public and private does not suffice to describe the Hellenistic Roman milieu that shaped the author and audience of the third gospel This study employs social spatial analysis to explore how Luke uses the power of place to portray Jesus frequently engaging the unofficial public sphere and local politics specifically in 18 35 19 43 the public healing of the blind beggar the unexpected impact of Zacchaeus's hospitality the political implications of the parable of the king and his subjects and the publicity and politics of Jesus entry into Jerusalem The result is an illuminating look at the overall spatial character of Luke's gospel the development of Christianity in the latter half of the first century and the role of place in contemporary Christianity Crowds of the Bible Wallace Raymond Harvey Jellie, 1873
