Being the Memoirs of the Nameless Mother of the Cardinal Ippolito De' Medici* Susan Emily CHRISTIAN (afterwards BEACH (Susan Emily Hicks)), 1937 **Niccolò Ridolfi and the Cardinal's Court** Lucinda Byatt, 2022-08-29 Niccol Ridolfi 1501-50 was a Florentine cardinal nephew and cousin to the Medici popes Leo X and Clement VII and he owed his status and wealth to their patronage. He remained actively engaged in Florentine politics above all during the years of crisis that saw the Florentine state change from republic to duchy. A widely respected patron and scholar throughout his life, his sudden death during the conclave of 1549-50 led to allegations of poison that an autopsy appears to confirm. This book examines Cardinal Ridolfi and his court in order to understand the extent to which cardinalate courts played a key part in Rome's resurgence and acted as hubs of knowledge located on the fault lines of politics and reform in church and state, hospitable spaces that can be analysed in the context of entanglements in Florentine and Roman cultural and political patronage and intersections between the princely court and a more professional and complex knowledge and practice of household management in the consumer and service economy of early modern Rome. Based on an array of archival sources and on three treatises whose authors were closely linked to Ridolfi's court, this monograph explores these multidisciplinary intersections to allow the more traditional fields of church and political history to be approached from different angles. Niccol Ridolfi and the Cardinal's Court will appeal to all those interested in the organisation of these elite establishments and their place in sixteenth-century Roman society, the life and patronage of Niccol Ridolfi in the context of the Florentine exiles who desired a return to republicanism and the history of the Roman Catholic Church. *The Medicis* Heather Lehr Wagner, 2005 Profiles the powerful financial dynasty of the House of Medici of Renaissance-era Italy *The Possessions of a Cardinal* Mary Hollingsworth, Carol M. Cardinals are best known as the pope's electors, but in the centuries from 1400 to 1800 they were so much more: pastors, inquisitors, diplomats, bureaucrats, statesmen, saints, entrepreneurs and investors, patrons of the arts of music, literature and science. Thirty-five essays explain their social background, positions and roles in Rome and beyond and what they meant for wider society. This volume shows the impact

which those men who took up the purple had in their respective fields and how their tenure of office shaped the entangled histories of Rome and the Catholic Church from a European and global perspective The Cardinal Protectors of England William E.
