A Century Of Chinese Revolution 1851 1949:

A Century of Chinese Revolution, 1851-1949 Wolfgang Franke, 1970 *Das Jahrhundert Der Chinesischen Revolution, 1851-1949. A Century of Chinese Revolution 1851-1949. (Translated by Stanley Rudman.).* Wolfgang FRANKE (Professor at the University of Hamburg.), 1970 *A History of Chinese Civilization* Jacques Gernet, 1996-05-31 When published in 1982 this translation of Professor Jacques Gernet's masterly survey of the history and culture of China was immediately welcomed by critics and readers This revised and updated edition makes it more useful for students and for the general reader concerned with the broad sweep of China's past *Origins of the Chinese Revolution, 1915-1949* Lucien Bianco, 1971 Analyzes the internal pressures and social crises that fostered the beginnings of the Chinese Revolution **The Global Bourgeoisie** Christof Dejung, David Motadel, Jürgen Osterhammel, 2019-11-26 This essay collection presents a global history of the middle class and its rise around the world during the age of empire It compares middle class formation in various regions highlighting differences and similarities and assesses the extent to which bourgeois growth was tied to the increasing exchange of ideas and goods and was a result of international connections and entanglements Grouped by theme the book shows how bourgeois values can shape the liberal world order *The India-China Opium Trade in the Nineteenth Century* Hunt Janin, 1999-01-01 From 1823 to 1860 a fleet of small fast brigs and schooners carried chests of opium from India to China often facing the challenges of pirates and typhoons along the way This shadowy trade conducted by American British and Indian firms thrived despite its moral and legal consequences Drawing largely on primary sources the story of the opium trade comes through in the voices of those who saw it firsthand Appendices describe a favorite shipboard recipe two of the ships involved in the trade and their crews excerpts from accounts of the Opium War and language equivalents for proper and place names A bibliography is included and maps and photographs help illumine this important and unusual period of history **The Zhangs from Nanxun** Nanchen Zhang, Laurence Chang, 2010 **States and Social Revolutions** Theda Skocpol, 2015-09-29 State structures international forces and class relations Theda Skocpol shows how all three combine to explain the origins and accomplishments of social revolutionary transformations Social revolutions have been rare but undeniably of enormous importance in modern world history States and Social Revolutions provides a new frame of reference for analyzing the causes the conflicts and the outcomes of such revolutions It develops a rigorous comparative historical analysis of three major cases the French Revolution of 1787 through the early 1800s the Russian Revolution of 1917 through the 1930s and the Chinese Revolution of 1911 through the 1960s Believing that existing theories of revolution both Marxist and non Marxist are inadequate to explain the actual historical patterns of revolutions Skocpol urges us to adopt fresh perspectives Above all she maintains that states conceived as administrative and coercive organizations potentially autonomous from class controls and interests must be made central to explanations of revolutions **Thermidor** Leslie Herzberger, 2006-12-27 The history of the United States in the last thirty years its preoccupation with the Vietnam War

and the devastating affects of that war on the psyche of this nation is evidence of a foreign policy tragedy Foreign policy tragedy brings domestic tragedy in its wake The purpose of this study is to work out why the approaches to social revolution and that is what the Vietnam War was about have been wrong on both sides of the ideological spectrum the last thirty years in the U S point out why they were wrong point to where they were wrong and point to the consequences of acting in a society when the perceptions are in certain respects wrong Let me sum up my perception on what went wrong in Vietnam It was a Right wing war fought on Left wing premises It was a war that could not have been won because those who designed it would not or could not win it but were also afraid of losing it It was a war that was wrongly perceived by both sides of the ideological spectrum The Liberal argument was that America tried everything and still lost it The Conservative argument was that it could have been won if the opposition had not tied their hands keeping them from an all out effort that would have been required to win it The war was started in earnest by the Liberals under Kennedy The strategy was to roll up the enemy by hitting on the peasant and through it cut off the leaders Pacification education re education indoctrination and the introduction of self defense techniques to the South Vietnamese peasants was meant to stop the revolution exported from the North in its tracks The U S policy was predicated on the assumption that the peasants really had something to do with the ruling functions of the North Vietnamese revolution after Thermidor that after the onset of Thermidor after the institutionalization of the revolution in Hanoi the revolution was still revolution The Liberal approach has believed that revolution is tantamount to Mao s view of it in China peasants all immersed in the revolutionary process as fish in the sea And so you would have to drain the very ocean itself to stop it Our approach to the post revolutionary process is that after the onset of Thermidor in a society revolution is a bunch of terror informed super bureaucrats at the center of a society increasingly cut off from the periphery In a post revolutionary society it is the leaders that matter not the fish in the sea So bombing the small fish into fish soup hell in response as did the West in Vietnam in that war every tree every outhouse every shack and every village until they drop so much ordinance that the entire region is brain dead from defoliants and pockmarks and natural calamities while leaving the center untouched would seem insane Yet that was the policy in Vietnam of America And then nothing happened Nothing happened week after week year after year except that America itself was being driven mad doing the same thing and expecting it to come out different That as the President elect said in 1993 was and is insanity But what choice did they all have The pro war liberal American leadership that designed the war in Vietnam did not dare bomb Hanoi the capitol of North Vietnam for fear of triggering World War III with Red China and with Soviet Russia both of whose client North Vietnam was So they tied their own hands figuring that by coming through the back door fish in the sea style piece by piece nobody will notice in China and Russia ergo no World War III So they took a strategy that was insane and made a virtue out of its necessity They tied their own hand And then they blamed the opposition for forcing them to fight with their hands tied behind their backs On the other h

China: From Permanent Revolution to Counter-Revolution John

Peter Roberts,2018-11-12 This book is a comprehensive analysis of the revolutionary history of China from the early 20th century to the present era of crisis aided by a wealth of research which cuts across the many historical distortions both of bourgeois academia and of the Chinese Communist Party This book answers the questions What was the class composition and class nature of the Chinese Communist Party when it took power in 1949 What forces pushed the Mao regime despite its explicitly class collaborationist strategy to take measures which were objectively socialist and to establish the Chinese workers state The Chinese Revolution was a practical test of both Trotsky s theory of permanent revolution and Mao s theory of uninterrupted revolution by stages Which theory matched reality The degeneration of the Chinese People s Republic to capitalism has been a second rigorous practical test of Trotsky s analyses Has his prognosis that without a political revolution to overthrow the regime a Stalinist bureaucratic state would return to capitalism been proved correct The Many Dimensions of Chinese Feminism Y. Chen,2011-05-23 In the current English language publication market this book is one of the earliest academic monographs to comparatively investigate different feminist scholars and academic feminism across the Taiwan Strait It problematizes recent scholarly understanding of feminist complexity in various Chinese speaking areas This book addresses sociocultural backgrounds of how Mainland Chinese Taiwanese and Hong Kong feminist scholars strategize their transfers localization and acculturation of Western feminist literary theories It emphasizes how Chinese literary theorists filter gate keep select import latest Western feminist theories and then match them with local socio cultural trends by exerting comparative researchers cross cultural and cross lingual academic power in order to tackle Mainland China s Taiwan s and Hong Kong s own gender problems The Road to Chinese Exclusion Liping Zhu,2013-10-15 Denver in the Gilded Age may have been an economic boomtown but it was also a powder keg waiting to explode When that inevitable eruption occurred in the Anti Chinese Riot of 1880 it was sparked by white resentment at the growing encroachment of Chinese immigrants who had crossed the Pacific Ocean and journeyed overland in response to an expanding labor market Liping Zhu s book provides the first detailed account of this momentous conflagration and carefully delineates the story of how anti Chinese nativism in the nineteenth century grew from a regional political concern to a full fledged national issue Zhu tells a complex tale about race class and politics He reconstructs the drama of the riot with Denver s Rocky Mountain News fanning the flames by labeling the Chinese the pest of the Pacific and relates how white mobs ransacked Chinatown while other citizens took pains to protect their Asian neighbors Occurring two days before the national election it had a decisive impact on sectional political alignments that would undercut the nation s promise of equal rights for all peoples made after the Civil War and would have repercussions lasting well into the next century By examining the relationship between the anti Chinese movement and the rise of the West this work sheds new light on our understanding of racial politics and sectionalism in the post Reconstruction era As the West s newfound political muscle threatened Republican hegemony in national politics many Republican legislators compromised their commitment to equal rights and unfettered immigration by

joining Democrats to pass the noxious 1882 Chinese Exclusion Act which was not repealed until 1943 and only earned congressional apologies in 2011 and 2012 The Denver Anti Chinese Riot strikes at the core of the national debate over race and region in the late nineteenth century as it demonstrates a correlation between the national retreat from the campaign for racial equality and the rise of the American West to national political prominence Thanks to Zhu s powerful narrative this once overlooked event now has a place in the saga of American history and serves as a potent reminder that in the real world of bare knuckle politics competing for votes often trumps fidelity to principle

Historical Dictionary of the Chinese Civil War Edwin Pak-wah Leung, 2002-10-16 The Chinese Civil War has been regarded by many as an important subject in the study of modern Chinese history as this protracted struggle ultimately led to the Communist

victory on the Mainland and the Nationalist government's retreat to the island of Taiwan in 1949. Considered an extremely important turning point in modern Chinese history, the Civil War is also of great international significance. This resource, the first of its kind written in English, details the microscopic and macroscopic views of the Chinese Civil War: people, events, places, and institutions.
