A Childhood In Prison

A Childhood In Prison:

Children with Parents in Prison Creasie Hairston, 2017-09-04 Adults are being incarcerated in the United States at an ever escalating rate and child welfare professionals are encountering growing numbers of children who have parents in prison. Current estimates indicate that as many as 15 million children have an incarcerated parent; many thousands of others have experienced the incarceration of a parent at some point in their lives. These vulnerable children face unique difficulties and their growing numbers and special needs demand attention. Existing literature indicates that children whose parents are incarcerated experience a variety of negative consequences, particularly in terms of their emotional health and well-being. They also may have difficult interactions or limited contact with their parents. There are also issues connected with their physical care and child custody. The many challenges facing the child welfare system as it attempts to work with this population are explored in *Children with Parents in Prison*. Topics covered include: Supporting Families and Children of Mothers in Jail; Meeting the Challenge of Permanency Planning for Children with Incarcerated Mothers; The Impact of Changing Public Policy on Relatives Caring for Children with Incarcerated Parents; Legal Issues and Recommendations Facilitating Parent-Child Contact in Correctional Settings; Earning Trust from Youths with None to Spare; Developing Quality Services for Offenders and Families; and in closing, Understanding the Forces that Influence Incarcerated Fathers. Relationships with Their Children. Children and families have long struggled with the difficulties created when a parent goes to prison. What is new is the magnitude of the problem. This volume calls for increased public awareness of the impact of parental incarceration on children. Its goal is to stimulate discussion about how to best meet the special needs of these children and families and how to provide a resource for the child welfare community as it responds to *Mothers in Prison*. Phyllis Jo Baunach, 1985-01-01 Several years ago Terry Moore, a young first offender at the Florida Correctional Institution for Women, gave birth to a baby whose father was a prison guard. Mrs. Moore won the right to have her baby stay with her in prison until she was released a few months later. Although this incarcerated mother was reunited with her child shortly after giving birth, many inmate mothers are not able to be with or see their children on a regular basis during incarceration. Little is known about this significant and emotionally traumatic problem that confronts nearly two thirds of incarcerated women. Building upon previous work, this extraordinarily insightful volume offers fresh perspective on issues which surround the separation of inmate mothers and their children, using questionnaire, standardized scales, and individual taped interviews. The author examines issues such as the impact of separation by race, the child's whereabouts at the time of the crime, the child's placement and legal custody during the mother's incarceration, inmate mothers' interest in resuming the parental role after release, child-rearing attitudes of inmate mothers, and the effects of the involvement of drugs on the mothers' relationship with their children. Through interviews with administrators, staff, and inmates, Dr. Baunach provides a detailed descriptive analysis of the development and operations of programs to retain mother-child bonds in women's prisons in a variety of states. Dr.

Baunach discusses day long overnight weekend visitations foster care placements and similar problems of the sort that mothers in prison uniquely must face The work also has a strong policy content providing unique and practical recommendations for policies and programs benefiting inmate mothers and children that at the same time can be implemented within the framework of current penological practices Incarcerated Parents and Their Children Christopher J. The Violence of Incarceration Phil Scraton, Jude McCulloch, 2023-04-21 Conceived in the immediate aftermath of the humiliations and killings of prisoners in Afghanistan and Iraq of the suicides and hunger strikes at Guantanamo Bay and of the disappearances of detainees through extraordinary rendition this book explores the connections between these shameful events and the inhumanity and degradation of domestic prisons within the allied states including the USA Canada Australia the UK and Ireland The central theme is that the revelations of extreme brutality perpetrated by allied soldiers represent the

inevitable end product of domestic incarceration predicated on the use of extreme violence including lethal force Exposing as fiction the claim to the political moral high ground made by western liberal democracies is critical because such claims animate and legitimate global actions such as the war on terror and the indefinite detention of tens of thousands of people by the United States which accompanies it The myth of moral virtue works to hide silence minimize and deny the brutal continuing history of violence and incarceration both within western countries and undertaken on behalf of western states beyond their national borders Minority Ethnic Prisoners and the COVID-19 Lockdown Brandon, Avril, Dingwall,
