A Collectors History Of Fans:

A Collector's History of Fans Nancy Armstrong, 1974 *Victorian Fashion Accessories* Ariel Beaujot, 2013-08-15 In Victorian England women's accessories were always much more than incidental finishing touches to their elaborate dress. Accessories helped women to fashion their identities. *Victorian Fashion Accessories* explores how women's use of gloves, parasols, fans, and vanity sets revealed their class, gender, and colonial aspirations. The colour and fit of a pair of gloves could help a middle class woman indicate her class aspirations. The sun filtering through a rose-colored parasol would provide a woman of a certain age with the glow of youth. The use of a fan was a socially acceptable means of attracting interest and flirting. Even the choice of vanity set on a woman's bedroom dresser reflected her complicity with colonial expansion. By paying attention to the particular details of women's accessories, we discover the beliefs embedded in these artefacts and enhance our understanding of the culture at large. Beaujot's engaging prose illuminates the complex identities of the women who used accessories in the Victorian culture that created and consumed them. *Victorian Fashion Accessories* is essential reading for students and scholars of history, gender studies, cultural studies, material culture, and fashion studies, as well as anyone interested in the history of dress.

[Centring the Periphery: New Perspectives on Collecting East Asian Objects](#), 2023-08-21 *Centring the Periphery: New Perspectives on Collecting East Asian Objects* edited by Nataša Vampelj Suhadolnik explores East Asian collections in peripheral areas of Europe and North America and their relationship with the East Asian collections in former imperial and colonial centres. The authors not only present the stories of a number of less well-known individual objects and collections but also discuss the evolution of fashions and tastes in East Asian objects in areas that were not centres of European colonial power and the socioeconomic conditions in which they were collected. To date, research on the collecting of East Asian objects in the Euro-American region has focused primarily on larger collections and collectors. The stories from the periphery, however, deserve to be told. They point to important departures from the dominant discourses and practices of East Asian collecting, thus raising questions about established taxonomies and knowledge systems. With contributions by Tina Berdajs, Chou Wei Chiang, Györgyi Fajcskó, Jin Han, Sarah Laursen, Beatrix Mecsi, Motoh Helena Stacey Pierson, Maria Sobotka, Filip Suchomel, Barbara Trnovec, Nataša Vampelj Suhadolnik, Brigid Vance, Maja Veseli, Nataša Visonić, Gerelj Bettina Zorn. *Collecting Cinema, Rewriting Film History* André Habib, Louis Pelletier, Jean-Pierre Sirois-Trahan, 2025-10-01 The writing of cinema history would not be possible without the contribution of collectors. Whether through their pioneering excavation work or their passionate defence of forgotten productions and artifacts, collectors have had a lasting influence on both the field and the methods of moving image history. Proceeding from a renewed dialogue between international film scholars, collectors, filmmakers, curators, and archivists, this book aims to reveal the extent to which collectors and collections have contributed to both the history and the epistemology of moving images. It showcases specific studies of collecting practices as well as in-depth interviews with collectors and artists, bringing to light the innumerable
