Adventures of a Baby-Boomer David Birkett, 2021-11-04 This book is the story of the first fifty years of my life covering the period from my birth in Scunthorpe Lincolnshire at the end of World War Two to my return to England following the failure of my business in France in the 1990s I was part of the huge increase in the UK birth rate after the war ended which has led to us being described as Baby Boomers My parents were from humble origins My father worked as a blacksmith at the local steelworks whilst my mother found employment as a bus conductress and seamstress until she gave birth to my elder sister I was fortunate to possess above average intelligence enabling me to gain entry to the local Grammar School and eventually to two Universities My career path began at the steelworks then took me to a major car manufacturer followed by stints at an international bank and a management consultancy after which I ran my own business for twelve years The story is not intended to be simply a chronological summary of significant events It tells of countless incidents some humorous some serious in a packed and varied life that could so easily have been cut short when I was diagnosed with Diphtheria at the age of three Travel is a recurring theme as is the variety of characters that I met along the way My aim has been to show that with single minded determination and a modicum of good luck it was possible for a working class Baby Boomer to achieve success in life without falling prey to society's unspoken wish that we all conform

Sex, Age & Menopause: a baby boomer's manifesto, **Ageing In the 'New Age': A Survival Guide for Baby Boomers** Drew Dwyer, 2017-07-12 Over the next 30 years we will be supporting huge numbers of people through the transition of life that is the journey of old age and the pathway to death The fact remains that death and taxes are a surety in life but the pathway doesn't have to be negative and fruitless The author asks all who read this book to be brave in the face of change as we all have the power to make change or decide to stay the same So take every opportunity to engage in the most important part of your life's journey *Reminiscences of the First Baby Boomer* Michael B White, 2024-06-20 Using his own experiences the author sets out to explode some myths perpetrated by later generations that Baby Boomers were an over privileged idle self indulgent generation that ruined the world If you remember the 60's you weren't really there Fact or fiction What role did they play in the transition of Australia from a White Australia to the multi cultural phenomenon of today What influence did they exert on the then colonial territories of Papua and New Guinea in their successful transition onto today's independent modern society Growing up in the Canberra region spending early years at boarding schools at Galong and Inverloch and much of his formative years in Papua New Guinea Michael White explores how the Baby Boomers became what they are today After retiring from careers in the public Service and then in Private Enterprise Michael lives in retirement in Ngunnawal with his wife Christine and dog Baxter He continues his interest in family and military history through his involvement with the Australian War Memorial **Post War Boy: Memoirs of a Baby Boomer** Trevor Cherrett, 2017-09-26

They say if you can remember the Sixties you could not have been there Well post war baby boomer Trevor Cherrett was there and he can remember them But his memories are more about what it was really like to grow up in one of the most rapidly changing periods in Britain s history as the country emerged from the destruction of the Second World War to a new world of peace prosperity and the Welfare State Born almost in sight of the red funnelled Cunarders in the port of Southampton and on the edge of the Luftwaffe s bombing run just a few years before the author evokes his early years of national health orange juice cod liver oil and school milk discovering the joys of exploring the then sleepy country town of Ringwood where you could get away with tri cycling halfway to Bournemouth and growing up by the harbours and beaches of Mudeford and the South Coast In frank detail he explores how he experienced the trials and tribulations of family life and girlfriends in a period which invented the teenager and witnessed the passing of much of the old order how school shaped his life in the days of the 11 Plus and the great divide between Grammar schools and Secondary Moderns and the new opportunities to go to University and how growing up on the South Coast and the New Forest opened the door to his passions for fishing boating and football Like many baby boomers Trevor acknowledges that they were and are a fortunate generation But he argues it wasn t just good luck or worse some kind of inter generational conspiracy Much of their good fortune was the result of far sighted post war policies aimed at creating a fairer as well as a more prosperous society And he believes those policies have lessons for us today This is not the autobiography of a Celebrity Rather it is the story of an Everyman living through an extraordinary period of history and making the links between his personal endeavours and the social economic and cultural changes that affected his life and the different places in which they were played out **U.S.**
