CANCEROUS TUMOR LIFE: BIOLOGICAL AND PHYSICAL ASPECTS MIROSŁAW

KOZŁOWSKI,SULTAN TARLACI,2023-06-18 What is Cancer In their seminal paper Davies and Lineweaver 2011 developed a new theory of cancerous tumors Until now most research has focused on cancer as a human disease but tumors are also widespread among animals and plants suggesting that they have deep evolutionary roots Indeed cancer is such a formidable adversary because it is a fundamental part of the story of life itself About 600 million years ago there appeared a riot of modern looking metazoan the multi celled creatures that make up the bulk of the animal kingdom with many specialized cell types and organisms But this explosion did not happen in a vacuum hundreds of millions of years before there were precursors clumps of semi organized cells forming robust tumor like forms As Davies and Lineweaver emphasized cancer like Aging must be accepted as a part of life In this monograph the mutual interactions between cancer and the host body are studied The point of view that these interactions are mediated by human consciousness is presented The monograph consists of six chapters Chapter 1 Overview of the research presents the contemporary status of the relationship between cancer and consciousness Chapter 2 Quantum mechanics and life explains how quantum mechanics helps in understanding life phenomena including cancer Chapter 3 Stress and cancer life is devoted to the presentation of the possible root of cancer namely stress which dominates human life Although the term cancer refers to undisciplined and uncontrollable cellular growth a basal cell carcinoma of the skin is quite different from adenocarcinoma of the lung the prostate the breast or even of brain tumors lymphomas leukaemias and other malignancies These all differ markedly with respect to growth rates metastatic tendencies and sensitivity to neuroendocrine or immune system influences particularly those that might be modulated by stress There are critical concerns in determining exactly how long a cancer has been present If a lump in the breast is found to be malignant when did the cancer start Was it there a month six months or years before clinical detection Such information would be crucial in establishing any temporal relationship with antecedent The remaining three chapters

have a more technical character and are devoted to the presentation of new results from the investigation of the nature of cancer Chapter 4 The electrical properties of cancer tumor cells presents results concerning the physical properties of tumor cells Chapter 5 Classical description of tumor life Boltzmann equation for tumor cancer evolution presents the approach that treats cancer as a physical object The new Boltzmann transport equation for tumor cell movement in the host body is formulated and solved In this way light is shed and inroads are made into answering the questions posed in Chapter 3 and beyond Chapter 6 Quantum mechanics and cancer presents the quantum theory of brain waves and their possible influence on cancer proliferation Electroencephalogram EEG waves may reflect more than the noise of the machinery of the brain they may possibly represent signals being sent to other parts of the body Since it is possible to move a cursor on a computer screen solely through deep concentration it does not seem unreasonable to postulate that mental activities could also affect activities in the body that are sensitive to the chemical molecular concept of communication at a physical atomic model Such a paradigm might explain not only regression or spontaneous remission of cancer in patients with a strong level of natural determination but also the placebo effect faith healing therapeutic touch psychokinesis telepathy and other widely acknowledged but poorly understood concepts How can one explain the numerous well documented cases of spontaneous remission of cancer Careful studies of such patients suggest that a firm faith and a strong positive belief system are the most common themes There are numerous reports of cancer regression through the use of various stress reducing or mind altering techniques including intense meditation visual imagery and hypnosis Yet like spontaneous remission all of these cures are extremely rare and the benefits are entirely unpredictable in any given patient Here again having a strong faith in something would provide a sense of control and might offer the best explanation But how are the salutary rewards of faith healing therapeutic touch and the placebo effect mediated Is there such a thing as psychic healing How can one explain the well documented benefits associated with the development of strong social support in patients with cancer and other illnesses Conversely what are the mechanisms involved in the numerous reports of reactivation of dormant cancer following an extremely stressful event particularly sudden loss No consistent immune neuroendocrine or central nervous system CNS changes have been demonstrated in connection with such effects Could the answer lie in some latent energy force Adey 1992 reported that certain frequency bands between 15 and 60 Hz have been found to alter cell protein synthesis mRNA functions immune responses and intercellular communication Is it possible to learn how to harness this energy force Chicken Soup for the Cat Lover's Soul Jack Canfield, Mark Victor Hansen, 2012-08-07 From playful and hilarious accounts of life with cats to heartwarming tales of cat courage healing and learning each touching story in Chicken Soup for the Cat Lover's Soul celebrates the special bond we share with our cats *Every Cat's Survival Guide to Living with a Neurotic Owner* Beth Adelman, 2003 Meow Some kitties have a few catty things to say about their owners And when they do they talk to Dear Tabby She's got the answers so cats can understand why the people in their life act so strangely But felines aren't the only

ones who will benefit from Tabby's smarts concerned humans who want to know what's going on with their furry friends will find invaluable insights in her responses Plus these letters are fun See why Miss Puff won't play why Priscilla wants the scoop on your sudden obsession with her figure and why the food bowl's no longer full all the time and why Belle a dignified older cat has some problems with litter box etiquette **The Living Church**, 1999 Persian Pursuit Iris

Leigh, 2022-06-15 A vacant home A new neighbor A desperate cat A one time job I'm Kat Jones and no matter what anyone tells you I don't work for cats unless it's the only option The vacant home in my neighborhood has been vandalized But that's not the worst of it If the new neighbors don't move in the cat they adopted has to go back to the shelter I can't let that happen Someone is out to get them It's my job to find out who and why Then that's the last time I let myself get hired by cats

Finding Myself Walter T. Yurt, 2015-12-20 Walter T Yurt is an American who moved to Malaysia to teach English after years of working in corporate America for such companies as Ford and JP Morgan Chase Arriving in Kuala Lumpur in 2008 he fulfilled a lifelong dream of becoming a teacher while inadvertently falling in love with a nation and its people The past seven years and counting have been a non stop adventure as he has witnessed and experienced things he never dreamt of seeing or doing More importantly he has met some of the nicest Malaysian people who from total strangers to his closest Malaysian friends have enveloped him with their love and care and have sustained him in his brave new world in Southeast Asia Within his first full length book *Finding Myself The Adventures of An American in Malaysia* are the stories of his adventures in this adopted nation **The Dollar Lunch** Marion Gage Levy, 2003 The Dollar Lunch is an eloquent description of the elderly and their struggle to have a life as told through the eyes of a middle aged woman who works at a Senior Center Through her detailed description of her interaction with these people and others with little money she gives us access to the universal battle of survival This is a compelling story of existence of struggles won and lost by those survivors who have not yet given up *A Cat's Eye View of the World - Theology According to Puderd* Craig Childress

Johnson, 2017-02-24 In the Old Testament God used Balaam's donkey to speak to him and protect him from great difficulty I think in the Atomic Age God has used a small cat to speak to me many times I don't hear a voice like Balaam but the messages are just as loud In a complex age fraught with distractions and dangers we are in need of reminders of those times when we are about to stray into the abyss I hear Puderd telling me spiritual life is found in simplicity and knowledge of God is

found in quietness Contentment is found in good friends not good products Trust and safety are really beyond our control and we can only have these if we trust in the One who is in control **Stumbling Through Life With A Kinky Tail N.**

BEETHAM STARK,2023-09-23 Often children do not have an opportunity or guidance that gives them a good understanding of animals The author has used the real adventures of these two cats Tander and Jinder to show young people how real are the feelings of animals and how closely they mirror our feelings They hurt they worry they cry they grieve they fight they bleed and they show sorrow just as we do By being kind to animals we can make a better world for ourselves and those around us That is why the animals speak in what the author feels would be their own voices telling the reader how they are most likely feeling in any situation Imagine how scary it would be if you were a small helpless animal that was put in a cage and shoved into a car and driven who knows where Would you not want someone to tell you where you were going and what was going to happen to you Would you not experience severe anxiety and want to cry out for help We can make their lives happier if we understand them Happy People Live Here C. Sean McGee,2014-08-14 On the ninth floor of an upscale apartment a young couple will come to terms with the loss of their son and the impending release of their daughter from a psychiatric clinic on her fourth birthday In the three days leading to Korine being released from the clinic The Mother The Father and Linda will each in their escapism deal with their own demons And each will captain their negation and ridicule before eventually on the third day falling into some kind of teary and blissful acceptance This is a story of happiness regardless of the hurt and suffering of which it is sometimes garbed **In Praise of Unsuitable Lovers** Ann Sullivan McDougal,2011-04-19 Dramatic humorous and satirical In Praise of Unsuitable Lovers follows the amatory adventures of a New England Preachers kid from her first sexual liaison as a twenty year old College Senior through an arc of sexual evolution revealed within the tapestry of social and political change Stand alone chapters include life with a Paranoid Physicist acting in Hollywood exotic dancing in San Francisco and LA and a traumatic abortion in Mexico City before relocation to New York City and further adventures In Manhattan a role in an Off Broadway interracial play is followed by a brief marriage to a Seminole C W singer attendance at the Woodstock Festival a march on Washington an LSD experience sex on an oil tanker with a Welsh ships Officer and involvement with the Womens Movement before a gradual return to academic pursuits Chapters include memories of such well known individuals as physicist Eugene Wigner of the Manhattan Project actors Jeff Corey and Leonard Nimoy LSD entrepreneur Owsley Stanley III stripper Jennie Lee Black actor director DUrville Martin and Psychedelic artist Peter Max **Chaos Ethics** Chris Bateman,2014-09-26 Balance has no meaning for a politics that is merely the continuation of war by other means Both religious zealots and defenders of scientific fact declare a monopoly on truth and the moral law while radicals are powerless to resist since they have lost faith that ethics can be anything but arbitrary Meanwhile insane bureaucracy devastates life while nations fall into dishonor as they abandon their promises of justice If the moral law cannot save us perhaps it is time to try moral chaos Chaos Ethics collides philosophers

such as Kant Nietzsche Levinas Mary Midgley Alasdair MacIntyre Alain Badiou Isabelle Stengers and Bruno Latour with everything from cyberpunk science fiction and the fantasy novels of Michael Moorcock to Google gay marriage drone assassinations and the ethics of cats and dogs A strange and wondrous journey through morality viewed as a facet of imagination that offers a new perspective in which the diversity of ethics is a strength not a weakness hesitation is more noble than certainty and virtue can be expressed in both law and chaos
