Lee, 2015-01-12 This is the first general monograph on ancient Greek dress in English to be published in more than a century By applying modern dress theory to the ancient evidence this book reconstructs the social meanings attached to the dressed body in ancient Greece Whereas many scholars have focused on individual aspects of ancient Greek dress from the perspectives of literary visual and archaeological sources this volume synthesizes the diverse evidence and offers fresh insights into this essential aspect of ancient society *Divine Images and Human Imaginations in Ancient Greece and Rome*, 2015-08-27 The polytheistic religious systems of ancient Greece and Rome reveal an imaginative attitude towards the construction of the divine One of the most important instruments in this process was certainly the visualisation Images of the gods transformed the divine world into a visually experienceable entity comprehensible even without a theoretical or theological superstructure For the illiterates images were together with oral traditions and rituals the only possibility to approach the idea of the divine for the intellectuals images of the gods could be allegorically transcended symbols to reflect upon Based on the art historical and textual evidence this volume offers a fresh view on the historical literary and artistic significance of divine images as powerful visual media of religious and intellectual communication *The Imagination of the Mind in Classical Athens* Emily Clifford, Xavier Buxton, 2023-07-14 This book explores the imaginative processes at work in the artefacts of Classical Athens When ancient Athenians strove to grasp justice or war or death when they dreamt or deliberated how did they do it Did they think about what they were doing Did they imagine an imagining mind European histories of the imagination have often begun with thinkers like Plato and Aristotle By contrast this volume is premised upon the idea that imaginative activity and especially efforts to articulate it can take place in the absence of technical terminology In exploring an ancient culture of imagination mediated by art and literature the book scopes out the roots of later more explicit theoretical enquiry Chapters

hone in on a range of visual and verbal artefacts from the Classical period Approaching the topic from different angles philosophical historical philological literary and art historical they also investigate how these artefacts stimulate affective sensory meditative in short imaginative encounters between imagining bodies and their world The Imagination of the Mind in Classical Athens offers a ground breaking reassessment of imagination in ancient Greek culture and thought it will be essential reading for those interested in not only philosophies of mind but also ancient Greek image text and culture more broadly

**The Geographical Unconscious** Argyro Loukaki, 2016-03-09 This ambitious and innovative volume stretches over time and space over the history of modernity in relation to antiquity between East and West to offer insights into what the author terms the geographical unconscious She argues that by tapping into this we can contribute towards the reinstatement of some kind of morality and justice in today's troubled world Approaching selected moments from ancient times to the present of Greek cultural and aesthetic geographies on the basis of a wide range of sources the book examines diachronic spatiotemporal flows some of which are mainly cultural

others urban or landscape related in conjunction with parallel currents of change and key issues of our time in the West more generally but also in the East In doing so The Geographical Unconscious reflects on visual and spatial perceptions through the ages it re considers selective affinities plus differences and identifies enduring age old themes while stressing the deep ancient wisdom the disregarded relevance of the aesthetic and the unity between human senses nature and space The analysis provides new insights towards the spatial complexities of the current age the idea of Europe of the East the West and their interrelations as well as the notion of modernity      *Dream, Fantasy, and Visual Art in Roman Elegy* Emma Scioli,2015-06-29 The elegists ancient Rome s most introspective poets filled their works with vivid first person accounts of dreams Emma Scioli examines these varied and visually striking textual dreamscapes arguing that the poets exploited dynamics of visual representation to share with readers the intensely personal experience of dreaming      **The Colors of Clay** Beth Cohen,2006 The catalogue is truly excellent and makes an important contribution to the study of Greek Art Bryn Mawr Classical Review An overwhelming volume The subject matter is described in great detail in nine chapters Essential Choice This catalogue documents a major exhibition at the Getty Villa that was the first ever to focus on ancient Athenian terracotta vases made by techniques other than the well known black and red figure styles The exhibition comprised vases executed in bilingual coral red gloss outline Kerch style white ground and Six s technique as well as examples with added clay and gilding and plastic vases and additions The Colors of Clay opens with an introductory essay that integrates the diverse themes of the exhibition and sets them within the context of vase making in general a second essay discusses conservation issues related to several of the techniques A detailed discussion of the techniques featured in the exhibition precedes each section of the catalogue More than a hundred vases from museums in the United States and Europe are described in depth      **Seeing Color in Classical Art** Jennifer M. S. Stager,2022-12-15 The remains of ancient Mediterranean art and architecture that have survived over the centuries present the modern viewer with images of white the color of the stone often used for sculpture Antiquarian debates and recent scholarship however have challenged this aspect of ancient sculpture There is now a consensus that sculpture produced in the ancient Mediterranean world as well as art objects in other media were in fact polychromatic Color has consequently become one of the most important issues in the study of classical art Jennifer Stager s landmark book makes a vital contribution to this discussion Analyzing the dyes pigments stones earth and metals found in ancient art works along with the language that writers in antiquity used to describe color she examines the traces of color in a variety of media Stager also discusses the significance of a reception history that has emphasized whiteness revealing how ancient artistic practice and ancient philosophies of color significantly influenced one another      *Becoming Female* Katrina Cawthorn,2013-11-01 *Becoming Female* the first book length examination of the body in classical Athenian tragedy reconsiders the figure of the male tragic hero making use of both feminist and body theory The male hero becomes female in the space of tragedy through the experience of suffering and

seems unable to return to any secure expression of masculinity Katrina Cawthorn concentrates initially on the figure of Heracles in Sophocles The Women of Trachis an exemplary specimen of the tragic process of becoming female who exhibits many of the central issues considered in the book The male hero is in the course of the play undone and feminised while the instability of masculine identity is revealed This theme of becoming female and the resulting failure to circumscribe the feminine and return to any secure and triumphant concept of masculinity is argued to be a discernible feature of the genre of tragedy The inconclusive and disconcerting nature of tragic endings contribute to the dislocation of the tragic male and emphasise the Dionysian disturbance of the male hero Moreover this state of the dissolute male hero has textual and theatrical consequences extending to affect the audience so that it too becomes feminised by the processes of tragedy

Becoming Female is an important work for scholars and students of Classical Studies Ancient History Drama and Theatre Studies Women s Studies and Cultural Studies
