The Oberammergau Passion Play Kevin J. Wetmore, Jr.,2017-02-06 Every ten years since 1634 the Bavarian village of Oberammergau has performed the world s most famous Passion Play recounting the last days of Jesus Christ In 2010 presenting the play for the 41st time the village broke with tradition to offer a new interpretation for a post millennial international audience Drawing on interviews with villagers and international responses this collection of new essays

provides an analysis of the play by scholars who attended Topics include changes in response to charges of anti-Semitism how the play defines the village how the performance changes the audience and a comparison of Oberammergau 2010 with American Passion Plays Indian pilgrimage drama and other German Passion Plays *Staging Christ's Passion in Eighteenth-Century Nahua Mexico* Louise M. Burkhart, 2023-06-15 *Staging Christ's Passion in Eighteenth-Century Nahua Mexico* explores the Passion plays performed in Nahuatl Aztec by Indigenous Mexicans living under Spanish colonial occupation Though sourced from European writings and devotional practices that emphasized the suffering of Christ and his mother this Nahuatl theatrical tradition grounded the Passion story in the Indigenous corporate community Passion plays had courted controversy in Europe since their twelfth century origin but in New Spain they faced Catholic authorities who questioned the spiritual and intellectual capacity of Indigenous people and in the eighteenth century sought to suppress these performances Six surviving eighteenth century scripts variants of an original play possibly composed early in the seventeenth century reveal how Nahuas passed along this model text while modifying it with new dialogue characters and stage techniques Louise M Burkhart explores the way Nahuas merged the Passion story with their language cultural constructs social norms and religious practices while also responding to surveillance by Catholic churchmen Analytical chapters trace significant themes through the six plays and key these to a composite play in English included in the volume A cast with over fifty distinct roles acted out events extending from Palm Sunday to Christ's death on the cross One actor became a localized embodiment of Jesus through a process of investiture and mimesis that carried aspects of pre-Columbian materialized divinity into the later colonial period The play told a far richer version of the Passion story than what later colonial Nahuas typically learned from their priests or catechists And by assimilating Jesus to an Indigenous or macehualli identity the players enacted a protest against colonial rule The situation in eighteenth century New Spain presents both a unique confrontation between Indigenous communities and Enlightenment era religious reformers and a new chapter in an age-old power game between popular practice and religious orthodoxy By focusing on how Nahuas localized the universalizing narrative of Christ's Passion *Staging Christ's Passion in Eighteenth-Century Nahua Mexico* offers an unusually in-depth view of religious life under colonial rule Burkhart's accompanying website also makes available transcriptions and translations of the six Nahuatl language plays four Spanish language plays composed in response to the suppression of the Nahuatl practice and related documentation providing a valuable resource for anyone interested in consulting the original material Comments restricted to single page plays composed in response to the suppression of the Nahuatl practice and related documentation providing a valuable resource for anyone interested in consulting the original material *Denys Arcand's Le Déclin de L'empire Américain and Les Invasions Barbares* André Loiselle, 2008-01-01 André Loiselle presents the first in-depth analysis of both Arcand films within the context of Quebec culture *The Latin Passion Play* Sandro Sticca, 1970-06-30 In this first comprehensive study of the Latin Passion play Professor Sticca examines the medieval

liturgical ceremonies commemorating the events in Christ's Passion and traces their gradual change in character from the contemplative to the dramatic. The author shows that while Christ's Passion became increasingly popular as one of the sacred mysteries beginning in the tenth century, new forces that allowed a more eloquent and humane visualization and description of Christ's anguish first appeared in the eleventh and twelfth centuries. Professor Sticca analyzes the earliest extant Latin Passion play, the twelfth-century Montecassino codex, and compares it with other Latin and vernacular Passion plays. He refutes the traditional view that the *Planctus Mariae* is the germinal point of the Latin Passion play and then offers a new theory of its inception. As a literary form, the Latin Passion play appears to Professor Sticca as a creation of the Montecassino monastic circle, which was inspired by the liturgical services of Good Friday and the Gospel accounts. Particularly influential also were three themes that developed in the eleventh century: in liturgy, a concentration on Christocentric piety; in art, a more humanistic treatment of Christ; and in literature, a consideration of the scenes of the Passion as dramatic and human episodes. In the course of this investigation, Professor Sticca also reappraises traditional views of the origin of the medieval liturgical drama, indicating that it should not be traced exclusively to the tropes from the schools of St Gall and St Martial of Limoges but rather to a number of sources.

Christ Killers Jeremy Cohen, 2007. Art and Drama on a Late Medieval Rood Screen Michael Calder, 2024-12-02. With little scholarly attention having been given to the late medieval iconography that features on rood screens in the southwest of England, the significance of the figures painted at Berry Pomeroy has long been underappreciated. The unlocking of their meaning by the author has led to the discovery of a unique iconographic program. The gestures adopted by many of these figures belong to a common visual culture in the art and drama of the medieval church. The iconography, which reflects a Gothic Mannerist style of the early sixteenth century, displays a marked theatricality, giving expression to the mysteries of the faith in the form of a drama. The narrative recorded has notable similarities to that found in a dramatic trilogy which was once performed in Cornwall, called the *Ordinalia*. This book makes an important contribution to scholarship in the genre of mysticism in art and to our understanding of popular devotional practices on the eve of the Reformation.

Bible and Cinema Adele Reinhartz, 2022-03-30. *Bible and Cinema: An Introduction* is a comprehensive examination of how the Bible has been used and represented in mainstream cinema to develop its plots, characters, and themes. The book considers two general types of films: Bible movies that retell biblical stories such as the Exodus and the life of Jesus, and Bible-related movies that make use of biblical books, stories, verses, and figures and Bibles themselves to tell non-biblical, often fictional narratives. Topics covered include the contribution of Bible and Bible-related movies to the history of the Bible's reception, the ways in which filmmakers make use of scripture to address and reflect their own time, and place the Bible as a vehicle through which films can address

social and political issues reflect human experiences and emotions explore existential issues such as evil and death and express themes such as destruction and redemption the role of the Bible as a source of ethics and morality and how this role is both perpetuated and undermined in a range of contemporary Hollywood films and film as a medium for experiences of transcendence and the role of the Bible in creating such experiences This thoroughly updated second edition includes insightful analysis of films such as Noah Gods and Men Mary Magdalene and The Shawshank Redemption paying attention to visual and aural elements as well as plot character and dialogue The book also includes pedagogical resources including discussions of film theory as well as key words and discussion questions Teachers students and anyone interested in the intersection of Bible and cinema will find this an invaluable guide to a growing field

Hindu Thought William A. Leonard, 2023-11-20 Reprint of the original first published in 1875 **Religion and the Arts: History and Method** Diane Apostolos-Cappadona, 2017-11-06 In Religion and the Arts History and Method Diane Apostolos Cappadona presents an overview of the 19th century origins of this discrete field of study and its methodological journey to the present day through issues of repatriation museum exhibitions and globalization Apostolos Cappadona suggests that the

fluidity and flexibility of the study of religion and the arts has expanded like an umbrella since the 1970s and the understanding that art was simply a visual exegesis of texts to now support the study of material popular and visual culture as well as gender. She also delivers a careful analysis of the evolution of thought from traditional iconographies to the transformations once scholars were influenced by response theory and challenged by globalization and technology. Religion and the Arts: History and Method offers an indispensable introduction to the questions and perspectives essential to the study of this field.

Public Art (Now) Claire Doherty, 2015-03-09. Public Art Now: Out of Time, Out of Place is the first survey of progressive public art from around the world. It presents some of the most significant artworks in the public realm from the last decade, challenging preconceptions about where, when, and how public art takes place. The face of public art is changing. For decades, art in the public realm has been characterized by the landmark sculpture or spectacular outdoor event that helps to define or brand a place's identity, disrupt rather than embellish a particular location, and contest rather than validate the design and function of public space. Performed interactions, collaborative social movements, and small-scale subversive acts are just some of the unorthodox approaches taken by these artists. Their works challenge preconceived ideas about the role of art in place-making as they seek to remake places through radical forms and practices. Public Art Now: Out of Time, Out of Place presents the artists who have been redefining the practice of public art over the past decade. They directly address the most pressing issues of our time, including the encroachment of corporate concerns on public space, the implications of global migration, and the isolation of the individual and the potential of collective action to share the future of our towns and cities. Some forty key works from around the world are organized into five sections: Displacement, Intervention, Disorientation, Occupation, and Perpetuation, with detailed descriptions and dozens of installation and process shots. Interviews and quotes from practitioners, commissioners, and commentators reveal the impetus and context for the projects, while the editor's introduction sets out the conceptual, practical, and ethical issues raised by the works. Bringing together the most significant artworks in the public realm of the last ten years, from ephemeral interventions to long-term ongoing projects, this dynamic survey is an essential reference for anyone interested in the ideas, issues, and impulses behind progressive public art and an accessible introduction to one of the most vibrant areas of contemporary art.

Signs of Grace Kristin Schwain, 2008. Religious imagery was ubiquitous in late nineteenth-century American life: department stores, schoolbooks, postcards, and popular magazines all featured elements of Christian visual culture. Such imagery was not limited to commercial and religious artifacts; however, for it also found its way into contemporary fine art. In *Signs of Grace*, Kristin Schwain looks anew at the explicitly religious work of four prominent artists in this period: Thomas Eakins, F. Holland Day, Abbott Handerson Thayer, and Henry Ossawa Tanner, and argues that art and religion performed analogous functions within

American culture Fully expressing the concerns and values of turn of the century Americans this artwork depicted religious figures and encouraged the beholders communion with them Describing how these artists drew on their religious beliefs and practices as well as how beholders looked to art to provide a transcendent experience Schwain explores how a modern conception of faith as an individual relationship with the divine facilitated this sanctified relationship between art and viewer This stress on the interior and subjective experience of religion accentuated the artist s efforts to engage beholders personally with works of art how better to fix the viewer s attention than to hold out the promise of salvation Schwain shows that while these new visual practices emphasized individual encounters with art objects they also carried profound social implications By negotiating changes in religious belief by aestheticizing faith in a new particularly American manner these practices contributed to evolving debates about art ethnicity sexuality and gender *Catalog of Copyright Entries.
