Art Movement In Australia Design Taste And Society 1875 19:

The Art Movement in Australia Andrew William Montana, 2000 A comprehensive study of the dynamic impact of ornament and decorative arts design on Australian interior decoration furnishings advertising fashion architecture and painting It presents a wide range of documentary and visual material revealing the importance of the ornamental arts *Surface and Deep Histories* Anuradha Chatterjee, 2014-06-26 Surface in architecture has had a deeper and a more pervasive presence in the practice and theory of the discipline than is commonly supposed Orientations to the surface emerge collapse and reappear sustaining it as a legitimate theoretical and artefactual entity despite the twentieth century disciplinary definition of architecture as space structure and function Even though surface is defended for its pervasiveness Kurt Forster its function as a theoretical motif with generative power Andrew Benjamin and in constituting the operative principles of modern architecture as a visual phenomenon Mark Wigley it occupies the interstice or the space of the unconscious within architectural discourse from where it defends its legitimacy as architecturally valuable or functional as opposed to merely visually pleasurable *Surface and Deep Histories* positions surface within the scholarship of critical theory and design based approaches and invites academics and designers and art and architectural historians based in Australia to consider the uses figurations scales and typologies of surfaces The collection choreographs contributions that focus on a variety of topics such as montage and construction of colonial modernity and visual culture Molly Duggins wallpaper rational space and femininity Anna Daly the inter constituted nature of bodies clothes and cities Stella North the reconstruction of the urban surface through a true integration of information and topology M Hank Hauesler James Fergusson's theory of ornament Peter Kohane traditional and new verandahs in Australia Chris Brisbin contradictory effects of surface in Green architecture debates Flavia Marcello and Ian Woodcock and the thickness of thin curtain walls in contemporary Australian architecture Anuradha Chatterjee *Surface and Deep Histories* shows that surface is not thin spatially or conceptually It demonstrates that the practice of surface is simultaneously superficial and pervasive symbol and space meaningful and functional static and transitory and object and envelope **Rethinking Australia's Art History** Susan Lowish, 2018-05-30 This book aims to redefine Australia's earliest art history by chronicling for the first time the birth of the category Aboriginal art tracing the term's use through published literature in the late eighteenth nineteenth and early twentieth centuries Susan Lowish reveals how the idea of Aboriginal art developed in the European imagination manifested in early literature and became a distinct classification with its own criteria and form Part of the larger story of Aboriginal European engagement this book provides a new vision for an Australian art history reconciled with its colonial origins and in recognition of what came before the contemporary phenomena of Aboriginal art Genteel women Dianne Lawrence, 2017-02-01 During the latter half of the nineteenth century and the first decades of the twentieth colonial expansion prompted increasing numbers of genteel women to establish their family homes in far flung corners of the world This work explores ways in which the women's values as

expressed through their personal and household possessions specifically their dress living rooms gardens and food were instrumental in constructing various forms of genteel society in alien settings Lawrence examines the transfer and adaptation of British female gentility in various locations across the British Empire including Africa New Zealand and India In so doing she offers a revised reading of the behaviour motivations and practices of female elites thereby calling into doubt the oft stated notion that such women were a constraining element in new societies

Pioneers of Modernism Harriet Edquist,2008 Remedying a neglected part of architectural history this volume presents the work of four of Australia s most innovative arts and crafts architects Walter Butler Harold Desbrowe Annear Walter Liberty Vernon and Robin Dods The influence of the arts and crafts movement in Australia has long been lost between the far better known Gothic and classical revivals and the modernist movement and obscured by the chronological construction of federation architecture but this study along with the accompanying photographs and plans brings to life the simple lines of their design and illustrates why it is so deserving of further recognition
