volume study of New York's native birds was issued as part of the State Museum's annual report. A vast catalog of hundreds of species the survey was illustrated by Louis Agassiz Fuertes 1874-1927 a rising star in scientific bird studies. Fuertes was highly influenced by John James Audubon's *The Birds of America* and today he ranks second only to Audubon in terms of output and recognition for ornithological illustration. A frequent lecturer at Cornell University he honed his expertise during numerous scientific expeditions throughout the United States and abroad collaborating with Frank Chapman of the American Museum of Natural History on field research, museum dioramas and book illustrations. This reproduction of all 106 of Fuertes's stunning full color images spotlights more than 300 birds. It marks the first time that the artwork from *Birds of New York* has been available in decades and the volume has never been so affordable. The captions have been reset for easy identification and a complete Index offers a quick reference. Noted Fuertes expert Robert McCracken Peck provides an informative Foreword. Bird watchers at all levels of experience as well as illustrators, artists and naturalists will find this book an excellent resource.

*The Abyssinian Art of Louis Agassiz Fuertes in the Field Museum* Paul Johnsgard, 2020. This book documents the paintings and drawings executed by Louis Agassiz Fuertes during the Field Museum of Natural History's seven month expedition to Ethiopia Abyssinia in 1926-27. During that time Fuertes completed 70 field watercolors that illustrate 55 species of birds and four species of mammals. He also executed 34 pencil drawings which illustrate 13 species of mammals and 11 species of birds plus numerous miscellaneous sketches and small watercolors. This book identifies and describes the biology of all 69 species of birds and mammals illustrated by Fuertes and includes 32 color reproductions of Fuertes's watercolors that were published as a limited edition album in 1930 by the Field Museum. The 60,000 word text provides brief summaries of all these species' ecology, behavior and reproductive biology as well as information about their current populations and conservation status. A review of Fuertes's life, his influence on modern bird and wildlife art and his participation in and artistic contributions to the Field Museum's Abyssinian Expedition is also included as well as more than 250 bibliographic citations.

**The Art of the Bird** Roger J. Lederer, 2019-09-25. The human history of depicting birds dates to as many as 40,000 years ago when Paleolithic artists took to cave walls to capture winged and other beasts. But the art form has reached its peak in the last four hundred years. In *The Art of the Bird* devout birder and ornithologist Roger J. Lederer celebrates this heyday of avian illustration in forty artists' profiles beginning with the work of Flemish painter Frans Snyders in the early 1600s and continuing through to contemporary artists like Elizabeth Butterworth famed for her portraits of macaws. Stretching its wings across time, taxa, geography and artistic style from the celebrated realism of American conservation icon John James Audubon to Elizabeth Gould's nineteenth century renderings of museum specimens from the Himalayas to Swedish artist and

ornithologist Lars Jonsson's ethereal watercolors this book is feathered with art and artists as diverse and beautiful as their subjects A soaring exploration of our fascination with the avian form *The Art of the Bird* is a testament to the ways in which the intense observation inherent in both art and science reveals the mysteries of the natural world Chambers's Journal of Popular Literature, Science and Arts ,1869      **The Oxford Dictionary of American Art and Artists** Ann Lee Morgan,2007 In this dictionary of American art 945 alphabetically arranged entries cover painters sculptors graphic artists photographers printmakers and contemporary hybrid artists along with important aspects of the cultural infrastructure      *A Biographical History of the Fine Arts* Shearjashub Spooner,1873      The Bulletin of the Massachusetts Audubon Society Massachusetts Audubon Society,1956      Of Birds and Texas Stuart Gentling,Scott Gentling,2001-11-15 As Audubon's *Birds of America* was the most magnificent ornithological publication of the 19th century *Of Birds and Texas* may rightfully claim that honor for the 20th A C Greene praised it as the most stunning and prodigious book in Texas history and possibly forever 50 color plates **Bird Observer** ,1999      The works of eminent masters in painting, sculpture, architecture and decorative art ,1854
