The Chinese Economy in the 21st Century Barbara Krug,Hans J. Hendrischke,2007-01-01 The authors discuss the role of local institutions in coordinating business activities and unleashing entrepreneurship arguing that the sudden growth of new firms and industries is facilitated by changes in business behaviour and institutions Initial private exchange and investment in an environment of ill functioning markets are shown to depend on local networks and local business culture which in turn rely on local tax regimes setting incentives for inherited bureaucracies to engage in economic transformation Finally the book establishes local institutions and local governance as crucial dimensions of China s emerging business system

Management in Transitional Economies Vincent Edwards,Gennadij Polonsky,Danijel Pucko,Malcolm

Warner, Ying Zhu, 2005-02-25 Based on extensive research this comparative study examines the past present and future of management in the transitional economies of East and Central Europe Russia the People s Republic of China and Vietnam It discusses the nature of the transition process identifying different transition paths highlighting common features and outlining useful theoretical approaches Each chapter covers a wide range of aspects of management in the countries covered including details of the historical and cultural background the transition process and both external and internal factors and the macro and micro situation Its multidisciplinary approach makes this book suitable for both a practitioner and an academic readership *Business Leadership Development in China* Shuang Ren, Robert Wood, Ying Zhu, 2015-03-24 This book argues that China s businesses and hence China s future economic development face a huge crisis in that there is a considerable leadership gap in China with a shortage of competent business leaders at a time when new leadership skills are required urgently as China s businesses evolve rapidly and engage ever more with the global economy Moreover the book argues training is an undervalued and often marginalised activity in Chinese companies The book outlines the nature of this problem and goes on to demonstrate that there is a new breed of manager emerging in China aware of the need to upgrade management skills moving away from skills appropriate in traditional industrial firms and emphasising more flexibility positive engagement with workers and competence in the market economy The book includes an evaluation of different management approaches in China reports on extensive original research including interviews with practising managers and sets out how self development in widespread deep and important Challenges for China's Development David Brown, Alasdair MacBean, 2005-06-23 High profile contributors explore the challenges of self determination from the perspective of China s enterprises in social and welfare changes *Leadership in the Asia Pacific* Chris Rowley, David Ulrich, 2016-05-06 This book examines the vital nature of the subject of leadership in Asia and looks in particular at the processes and practices within the Asia Pacific region It describes how leadership processes differ across various regions and teaches managers how to better employ these processes in order to improve the success of their organisations The work moves beyond looking only at Western ideas and explores further leadership perspectives based on differing cultural foundations It considers the influences of Confucianism Daoism Mohism and Legalism and also reflects the character of different leadership styles such as paternalistic benevolent transactional and transformational styles as well as authentic and entrepreneurial approaches Throughout the text a wide range of international contributors adopt an array of leadership and other theories cases sectors and methods to discuss leadership in Asia This book was originally published as a special issue of the Asia Pacific Business Review *Large Chinese State-Owned Enterprises* Y. Zhang, 2007-12-04 Based upon empirical research this book explores the process of China s corporatization reform and investigates whether the reform has altered the process of strategy formulation and implementation of large Chinese SOEs What processes of ownership restructuring are taking place in the large SOEs and what impact do these changes have *The Meta-Analytic Organization* Lex

Donaldson,2015-03-26 The Meta Analytic Organization Introducing Statistico Organizational Theory develops new organizational theory based upon ideas from statistics and methodology There have been previous organizational theories based on academic disciplines such as biology economics and sociology Statistico organizational theory uniquely constructs a new organizational theory derived from ideas in statistics and psychometrics The core idea is that errors known to occur in social science research must also occur when managers look at their data and seek to make inferences about cause and effect Statistico organizational theory uses methodological principles to predict when errors will occur and how great they will be The book offers new theoretical propositions about organizational strategy and structure human resource management international business and franchising
