Art Of Creation Turn On The Power Of Your Inner Creative Force:

Art of Creation Pejman Aghasi,2005-10 The question Who am I has always been asked throughout the history of mankind Art of Creation helps you to get to know yourself and realize that what we call our character or I is a mixture of many different and often conflicting personalities and psychological centers In a way there is a crowd living within our psyche Each of these centers have their own beliefs needs desires emotions and goals which are often contradictory to one another Therefore we are constantly being uncontrollably pushed and pulled by these subconscious forces It is as if a constant inner war is going on within our subconscious psyche By becoming aware of these hidden and subconscious centers and personalities and by learning about their negative influences on our lives we can systematically work toward achieving inner peace balance and harmony by dropping and eliminating them and creating one unified center Uncovering the mystery of the human mind is very essential if we were to live a more fulfilling and enriched life Bringing spirituality and psychology together enables us to understand what our mind is And also know what may be wrong with it and then correct and balance the existing problems Art of Creation brings psychology NLP biology and mysticism together by creating and presenting a systematic method for self realization and self transformation It uncovers that the reason behind the success health and happiness of some people which is caused and created by their certain positive mind management which they have intentionally or subconsciously picked up and applied Thus it teaches us to model and install the same positive mental patterns and therefore create the same desired state of beings and results

Conversations With the Void Richard Parr, What happens when we dare to speak into silence knowing there may be no reply In *Conversations With the Void* Richard Parr turns his attention to the most unsettling of companions the absence at the heart of existence With wit clarity and a surprising warmth Parr explores what it means to live love and think in a universe that offers no easy answers Through meditations on nothingness loss creativity and the strange solace of stillness he invites us to see that the void is not only a space of despair but also one of possibility In its quiet we may uncover new ways of listening to ourselves to each other and to the fragile threads of meaning we weave into our days This is not a book of conclusions but of openings A gentle guide for those willing to face the emptiness and perhaps find within it a different kind of fullness
