Comics, Activism, Feminisms Anna Nordenstam, Kristy Beers, Fägersten, Margareta Wallin, Wictorin, 2024-09-30

Comics, Activism, Feminisms Anna Nordenstam, Kristy Beers, Fägersten, Margareta Wallin, Wictorin, 2024-09-30 Comics Activism Feminisms explores from both historical and contemporary perspectives how comic art activism and feminisms are intertwined and how comic art itself can be a form of activism. Feminist comic art emerged with the second wave feminist movements. Today, there are comics connected to social activist movements working for change in a variety of areas. Comics artists often respond quickly to political events, making comics on topical issues that take a critical or satirical stance and highlighting the need for change. Comic art can point to problems, present alternatives, and give hope. Comics artists from all parts of the world engage issues pertaining to feminisms and LGBTQIA issues, war and political conflict, climate crisis, the global migrant and refugee situation, and other societal problems. The chapters of this anthology illuminate the aesthetic and thematic aspects of comics activism and feminisms globally. Particular attention is given to the work of comics collectives where *Do it Ourselves* is a strategy among activism-oriented artists which use a great variety of media such as fanzines, albums, webcomics, and exhibitions to communicate and disseminate activist comic art. **Comics Activism Feminisms** is an essential anthology for scholars and students of comics studies, literary studies, art history, media studies, and gender studies.

Fostering Pluralism through Solidarity Activism in Europe Feyzi Baban, Kim Rygiel, 2020-11-04 This edited collection brings together academics, artists, and members of civil society organizations to engage in a discussion about the ideas of living with others through concepts such as cosmopolitanism, solidarity, and conviviality, and the practices of doing so. In recent years, right-wing and populist movements have emerged and strengthened across Europe and North America, rejecting the value of cultural, ethnic, and religious plurality. Governments in Europe and North America are weakening their

commitment to the international refugee regime erecting new barriers to entry Even as governments fail to accommodate growing pluralism however civil society initiatives have emerged with the aim of welcoming newcomers such as migrants and refugees and finding alternative ways of living together in diverse societies Motivated by a desire to show solidarity these initiatives demonstrate enormous creativity in fostering pluralism in an environment that has largely become hostile to the arrival of newcomers The contributions gathered here seek to explore such initiatives and the important work that they do in fostering ways of living together with others from diverse cultural and religious backgrounds In focusing conceptually and empirically on discussions and examples of civil society initiatives this book interrogates why how and under what circumstances are some communities more welcoming than others

Globalization Development and Social Justice Ann El Khoury, 2015-03-27 Are there existing alternatives to corporate globalization What are the prospects for and commonalities between communities and movements such as Occupy the World Social Forum and alternative economies Globalization Development and Social Justice advances the proposition that another globalization is not only possible but already exists It demonstrates that there are multiple pathways towards development with social justice and argues that enabling propositional agency rather than oppositional agency such as resistance is a more effective alternative to neoliberal globalization El Khoury develops a theory of infraglobalization that emphasizes creative constitution not just contestation of global and local processes The book features case studies and examples of diverse economic practice and innovative emergent political forms from the Global South and North These case studies are located in the informal social economy and community development as well as everyday practices from prefigurative politics to community cooperatives and participatory planning This book makes an important contribution to debates about the prospects for and practices of a transformative grassroots globalization and to critical debates about globalization and development strategies It will be of interest to students and scholars of international relations globalization social movement studies political and economic geography sociology
