Art Of David Ireland The Way Things Are:

The Art of David Ireland Karen Tsujimoto, David Ireland, Jennifer R. Gross, 2003 A critically acclaimed practitioner of conceptual and installation art David Ireland has taken the concept of art itself as one of his subjects This book accompanies a full scale retrospective of his work and offers an overview of more than 30 years of his accomplishments **The Art of David Ireland** Karen Tsujimoto, Jennifer R. Gross, 2003-12-15 Widely recognized as one of the West Coast's most important and critically acclaimed practitioners of conceptual and installation art David Ireland born 1930 has taken the concept of art itself as one of his subjects A self-described post-discipline artist guided by Zen thought and postmodern aesthetics Ireland moves fluidly from making small drawings to creating sculptures as large as houses Freely incorporating anything within his conceptual or physical reach dirt concrete wire and other everyday materials his work is subtle puzzling and witty and consistently challenges traditional definitions of art In this book accompanying the first full scale retrospective of Ireland's work curator and author Karen Tsujimoto provides an insightful overview of more than thirty years of the artist's accomplishments from his drawings sculptures and site-specific installations to his remarkable series of architectural transformations including his well-known house at 500 Capp Street in San Francisco Chronicling Ireland's circuitous route to his calling Tsujimoto explores how key life experiences have influenced his artistic perspective from his early art student days through his years as an African importer and safari guide to his long-standing interest in Eastern and particularly Zen philosophy and his deep connections with the San Francisco Bay Area conceptual art community An illuminating essay by art historian and curator Jennifer R. Gross also considers Ireland's art in terms of historical materialism assessing his use of neglected materials and artifacts as a process of cultural preservation 500 Capp Street Constance Lewallen, 2015-04-24 500 Capp Street tells the story of David Ireland's house a rundown Victorian in the Mission District of San Francisco that the artist transformed into an environmental artwork taking the detritus of his restoration labors as well as objects left behind by previous owners and refashioning them into sculptures Constance M. Lewallen begins by recounting the history of the house from 1886 when it was built until Ireland acquired it in 1975 She then details Ireland's renovation and continuing engagement with the site that served simultaneously as his residence studio and evolving artwork the house's influence on his own work and that of artists who followed him and its relationship to other house museums An introduction by Jock Reynolds who was close to the artist for many years chronicles the social scene that developed around 500 Capp Street in the 1980s The book also includes a 1983 article on the house by renowned poet John Ashbery Illustrated with a generous selection of photographs taken over the years by the artist and his many visitors this is an invaluable and intimate record of Ireland's best-known work 500 Capp Street is essential reading for anyone interested in the artistic and cultural history of the San Francisco Bay Area and the California conceptual art movement **Conceptual Performance** Nick Kaye, 2023-12-22 Conceptual Performance explores how the radical visual art that challenged material aesthetics in the

1960s and 1970s tested and extended the limits character and concept of performance Conceptual Performance sets out the history theoretical basis and character of this genre of work through a wide range of case studies The volume considers how and why principal modes and agendas in Conceptual art in the 1960s and 1970s necessitated new engagements with performance as well as expanded notions of theatricality In doing so this book reviews and challenges prevailing histories of Conceptual art through critical frameworks of performativity and performance It also considers how Conceptual art adopted and redefined terms and tropes of theatre and performance including score document embodiment documentation relic remains and the narrative recuperation of ephemeral work While showing how performance has been integral to Conceptual art s critiques of prevailing assumptions about art s form purpose and meaning this volume also considers the reach and influence of Conceptual performance into recent thinking and practice This book will be of interest to scholars and students of theatre performance contemporary art and art history

Dwell ,2003-11 At Dwell we re staging a minor revolution We think that it s possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well designed and still be a regular human being We think that good design is an integral part of real life And that real life has been conspicuous by its absence in most design and architecture magazines

Art After the Bomb Darrell D. Davisson,2008 This book is requisite reading material for any person claiming to be an educated and informed member of the global community Our understanding in the West of the Eastern cultures specially the different cultures involving the Muslims is alarmingly low The book strives to offer a view from the ground a keyhole perspective that offers the readers a close and personal peek into some of the ethical underpinnings and the philosophical guiding parameters that inform the Muslim and the Eastern mind There are over 1 3 billion Muslims in the world It would be a serious intellectual fallacy to assume that they are all homogenous or to be more preposterous assume they are all terrorists It is extremely tragic that it took the Iranian hostage crisis to teach us about Shia Islam and 9 11 to teach us about Wahabi Islam Properly acquired knowledge not just what we learn from the media will allow us to be anticipatory and rational rather than being reactive and emotional For the Muslim reader specially the children and the youth the book strives to offer a deeper understanding of Islam beyond the boundaries of ritual Islam into the wide open space of spiritual and intellectual Islam To inspire them to appreciate and live up to the wonderful legacy of Islam and not to be mired down into some deviant interpretations of people with questionable motives The book is designed to encourage the process of tearing down walls and building bridges We share common dreams aspirations and challenges We share a common globe and a common destiny The author believes that there are no clashes of civilizations just clashes of ignorance and misunderstanding
