## **Art Of Sacrifice In Chess:**

**The Art of Sacrifice in Chess** Rudolf Spielmann, Fred Reinfeld, I. A. Horowitz, 1995-01-01 The beauty of a game of chess is usually appraised and with good reason according to the sacrifices it contains On principle we incline to rate a sacrificial game more highly than a positional game Instinctively we place the moral value above the scientific We honor Capablanca but our hearts beat higher when Morphy's name is mentioned Introduction Perhaps the strongest Austrian born grandmaster of the 20th century Rudolf Spielmann 1883 1942 defeated such world class opponents as Nimzovich Tartakower Bogoljubov and even the great Capablanca Among the reasons for his success was his mastery of the art of sacrifice In this groundbreaking classic distilled from 40 years of tournament play he outlines the hard won lessons that enable a player to win games by giving up pieces Drawing on dozens of his own games against such topflight players as Schlechter Tartakower Bogoljubov Reti Rubinstein and Tarrasch Spielmann describes and analysis various type of sacrifices positional for gain mating and real sacrifices for development obstructive preventive line clearance vacating deflecting and more The result was the first systematic attempt to explain and exploit the theory of chess sacrifice it remains an extremely helpful and useful weapon in the arsenal of chess players at every level

**The Art of Sacrifice in Chess** Rudolf Spielmann, 1951 **Sacrifice and Initiative in Chess** Ivan Sokolov, 2014-05-28 The sacrifice is one of the most beautiful rewarding and complex aspects of chess During a game the decision to give up material in order to get an advantage is probably the most difficult one a player has to take Often you have to burn your bridges without being able to fully calculate the consequences Risks and rewards are racing through your mind fighting for precedence while the clock keeps ticking Now is the moment because after the next move the window for this opportunity may be closed In this book Ivan Sokolov presents a set of practical tools that will help you to master the art of sacrifice By concentrating on the aim you are trying to achieve rather than on the opening you are playing or the piece you might be going to sack he teaches you how to come to a reasonable risk assessment and how to trust your intuition There is a separate part on seizing the initiative without actually giving up material Ivan Sokolov has written an entertaining and instructive guide packed with useful advice and lots of practical examples
