The Sister Chapel 1974-78 was an important collaborative installation that materialized at the height of the women's art movement. Conceived as a nonhierarchical secular commemoration of female role models, The Sister Chapel consisted of an eighteen-foot abstract ceiling that hung above a circular arrangement of eleven monumental canvases, each depicting the standing figure of a heroic woman. The choice of subject was left entirely to the creator of each work. As a result, the paintings formed a visually cohesive group without compromising the individuality of the artists. Contemporary and historical women deities and conceptual figures were portrayed by distinguished New York painters Alice Neel, May Stevens, and Sylvia Sleigh, as well as their accomplished but less prominent colleagues. Among the role models depicted were Artemisia Gentileschi, Frida Kahlo, Betty Friedan, Joan of Arc, and a female incarnation of God. Although last exhibited in 1980, The Sister Chapel has lingered in the minds of art historians who continue to note its significance as an exemplar of feminist collaboration. Based on previously unpublished archival materials and featuring dozens of rarely seen works of art, this comprehensive study details the fascinating history of The Sister Chapel, its constituent paintings, and its ambitious creators. The Art Collector's Handbook Ms Mary Rozell, 2014-06-28

With the rapid and unprecedented global expansion of the art market, new collectors are emerging every day. When buying art, whether for pure enjoyment, for investment, or some other motive, few art collectors consider the practical and financial implications of owning and maintaining art, and many do not have a plan for how they might eventually dispose of it. This book, probing a number of resources and incorporating advice from top experts in the field, offers guidance on collection management and care and serves as an important reference guide for collectors and those charged with managing collections. , *The Anime Art of Hayao Miyazaki* Dani Cavallaro, 2015-05-12

This critical study of Miyazaki's work begins with an analysis of the visual conventions of manga, Japanese comic books, and anime; an overview of Japanese animated films; and a consideration of the techniques deployed by both traditional cel and computer animation. This section also details Miyazaki's early forays into comic books and animation and his output prior to his founding of Studio Ghibli. Part Two concentrates on the Studio Ghibli era, outlining the company's development and analyzing the director's productions between 1984 and 2004, including *Castle in the Sky*, *My Neighbor Totoro*, and his newest film *Howl's Moving Castle*. The second section also discusses
