**Centuries)**, 2015-05-26 Natural hazards punctuate the history of European towns moulding their shape and identity this book is devoted to the artistic representation of those calamities from the late Middle Ages to the 20th century It contains nine case studies which discuss among others the relationship between biblical imagery and the realistic depiction of urban disasters the religious political and ritual meanings of destruction subjects in early modern painting the image of fire in

Renaissance treatises on architecture the first photographic campaigns documenting earthquakes damages the role of contemporary art in the elaboration of a cultural memory of urban destructions Thus this book intends to address one of the main issues of Western civilization the relationship of European towns with their own past and its discontinuities Contributors are Alessandro Del Puppo Isabella di Lenardo Marco Folin Sophie Goetzmann Emanuela Guidoboni Philippe Malgouyres Olga Medvedkova Fabrizio Nevola Monica Preti and Tiziana Serena *The World of Art and Diaghilev's Painters* Vsevolod Petrov, 2022-07-31 When almost twenty years ago we founded the World of Art we had a burning desire to liberate Russian artistic activity from the tutelage of literature to instil in the society around us a love of the very essence of art and that was the aim we had when we took the field We considered enemies all those who fail to respect art as such those who either fasten wings to an old nag or harness Pegasus to the cart of social ideals or reject the idea of Pegasus altogether For that reason we addressed ourselves to the artistic world with the slogan Talents of all directions unite And that is how in our ranks Vrubel immediately appeared alongside Levitan Bakst alongside Serov Somov alongside Maliavin Alexander Benois

Colonized Through Art Marinella Lentis, 2017 Colonized through Art explores how the federal government used art education for American Indian children as an instrument for the colonization of consciousness hoping to instill the values and ideals of Western society while simultaneously maintaining a political social economic and racial hierarchy Focusing on the Albuquerque Indian School in New Mexico the Sherman Institute in Riverside California and the world's fairs and local community exhibitions Marinella Lentis examines how the U S government's solution to the Indian problem at the end of the nineteenth century emphasized education and assimilation Educational theories at the time viewed art as the foundation of morality and as a way to promote virtues and personal improvement These theories made the subject of art a natural tool for policy makers and educators to use in achieving their assimilationist goals of turning student savages into civilized men and women Despite such educational regimes for students however indigenous ideas about art oftentimes emerged from below particularly from well known art teachers such as Arizona Swayney and Angel DeCora Colonized through Art explores how American Indian schools taught children to abandon their cultural heritage and produce artificially native crafts that were exhibited at local and international fairs The purchase of these crafts by the general public turned students work into commodities and schools into factories *Modernism after the Ballets Russes* Gabriela Minden, 2025-07-14 Serge Diaghilev's Ballets Russes holds a renowned position in the history of modernism across various arts The company's daring productions brought together leading artists working in diverse fields from Igor Stravinsky to Pablo Picasso from Bronislava Nijinska to Coco Chanel redefining the possibilities of artistic collaboration and shaping the trajectories of dance music fashion and the visual arts But what of the Ballets Russes's role in the text based theatre Despite the intrinsic link between dance and theatre as performance arts the company's contributions to dramatic literature and dramaturgy have remained surprisingly elusive This book establishes the Ballets Russes as a powerful force in the development of modernist theatre in Britain revealing how

the company's avant garde repertoire inspired the creation of new composition strategies and performance techniques that privileged the immediacy of expression offered by the moving dancing body Modernism after the Ballets Russes examines the philosophical conditions of early twentieth century Britain's theatrical landscape marked by growing interest in Nietzschean interpretations of classical drama and Wagnerian notions of the Gesamtkunstwerk to illuminate the allure of the Ballets Russes's re-centring of dance as the foundation of theatre art It shows that Diaghilev ballets provided new ways of thinking about the relationship between the literary and embodied aspects of dramatic performance fueling collaborations between eminent dramatists and theatre practitioners Harley Granville Barker J M Barrie Terence Gray and W H Auden and lesser known choreographers Cecil Sharp Tamara Karsavina Ninette de Valois and Rupert Doone Through the prism of the Ballets Russes this group of artists crafted distinctive new theatrical forms including a whimsical terpsichorean fantasia and a politically subversive poetic dramatic satire as well as new methods of staging Shakespearean comedy and Attic tragedy Together this book contends these literary and dramaturgical innovations represent a previously neglected strand of modernism one that saw the dramatic power of the moving body expand the expressive resources of the period's theatrical arts

**Modern Food, Moral Food** Helen Zoe Veit, 2013-08-01 American eating changed dramatically in the early twentieth century As food production became more industrialized nutritionists home economists and so called racial scientists were all pointing Americans toward a newly scientific approach to diet Food faddists were rewriting the most basic rules surrounding eating while reformers were working to reshape the diets of immigrants and the poor And by the time of World War I the country's first international aid program was bringing moral advice about food conservation into kitchens around the country In *Modern Food, Moral Food* Helen Zoe Veit argues that the twentieth century food revolution was fueled by a powerful conviction that Americans had a moral obligation to use self discipline and reason rather than taste and tradition in choosing what to eat Veit weaves together cultural history and the history of science to bring readers into the strange and complex world of the American Progressive Era The era's emphasis on science and self control left a profound mark on American eating one that remains today in everything from the ubiquity of science based dietary advice to the tenacious idealization of thinness
