Spectacles of Authenticity Hsuan Tsen, 2011 In the late nineteenth and early twentieth centuries America and Japan were in the process of establishing their positions as powers in a world dominated by Western Europe The two nations with unconnected histories and cultures found themselves in momentary sympathy as they embarked on their first forays into military imperialism expanded their trade and constructed civic institutions intended to compete with those of Europe It was during this period that mass entertainments developed and began circulating across national borders and drawing on tourist practices helped create a universal visual culture which coexisted with local particularities This dissertation undertakes a study of Japanese and American shared visual culture and modern entertainments with the goal of nuancing current scholarship on East West exchanges and expanding the definition of modernity Three modern phenomena panoramas World's Fairs and film form the core of my three main chapters and describe a process of appropriation assimilation and collaboration through their movements from Europe across America to Japan and ending with a return to America Many scholars have observed that Americans viewed Japan as a confusing cultural other with a baffling skill at appearing modern This dissertation begins with the premise that Japan was modern and re-examines American and Japanese cultural exchanges

Coffee Life in Japan Merry White, 2012-05 This fascinating book, part ethnography, part memoir, traces Japan's vibrant café society over one hundred and thirty years. Merry White traces Japan's coffee craze from the turn of the twentieth century when Japan helped to launch the Brazilian coffee industry to the present day as uniquely Japanese ways with coffee surfaced in Europe and America. White's book takes up themes as diverse as gender, privacy, perfectionism, and urbanism. She shows how coffee and coffee spaces have been central to the formation of Japanese notions about the uses of public space, social change, modernity, and pleasure. White describes how the café in Japan, from its start in 1888, has been a place to encounter new ideas and experiments in thought, behavior, sexuality, dress, and taste. It is where a person can be socially, artistically, or philosophically engaged or politically vocal. It is also importantly an urban oasis where one can be private in public.

Mutual Perceptions and Images in Japanese-German Relations, 1860-2010, 2017-06-06 Mutual Perceptions and Images in Japanese-German Relations 1860-2010 examines the mutual images formed between Japan and Germany from the mid-nineteenth to twenty-first centuries and the influence of these images on the development of bilateral relations. Unlike earlier research on Japanese-German relations which focused on the similarity of these countries' historical trajectories, this publication presents a more nuanced picture. It relativizes perceptions of a special spiritual relationship between Japan and Germany as well as their commonalities of national character through an exploration of previously untapped historical visual and textual sources. With essays by sixteen leading scholars in the field, this collection is an invaluable contribution to the historiography of modern Japan and Germany and to the field of international relations. Contributors are Hans Joachim Bieber, Fukuoka Mariko, Hakoishi Hiroshi, Iwasa Takur, Kat Y ko Kawakita, Atsuko Gerhard, Krebs Kud, Akira Heinrich, Menkhaus, Danny Orbach, Peter Pantzer, Sven Saaler, Sat Takumi, Volker Stanzel, Suzuki Naoko, Tajima Nobuo, Tano Daisuke, and Rolf Harald Wippich.

Anarchist Modernity Sho Konishi, 2020-05-11 Mid nineteenth century Russian radicals who witnessed the Meiji

Restoration saw it as the most sweeping revolution in recent history and the impetus for future global progress Acting outside imperial encounters they initiated underground transnational networks with Japan Prominent intellectuals and cultural figures from Peter Kropotkin and Lev Tolstoy to Saigo Takamori and Tokutomi Roka pursued these unofficial relationships through correspondence travel and networking despite diplomatic and military conflicts between their respective nations Tracing these non state networks Anarchist Modernity uncovers a major current in Japanese intellectual and cultural life between 1860 and 1930 that might be described as cooperatist anarchist modernity a commitment to realizing a modern society through mutual aid and voluntary activity without the intervention of state governance These efforts later crystallized into such movements as the Nonwar Movement Esperantism and the popularization of the natural sciences Examining cooperatist anarchism as an intellectual foundation of modern Japan Sho Konishi offers a new approach to Japanese history that fundamentally challenges the logic of Western modernity It looks beyond this foundational construct of modern history writing to understand people practices and cultural expressions that have been forgotten or dismissed as products of anti modern nativist counter urges against the West

Provincial Life and the Military in Imperial Japan Stewart Lone, 2009-10-23 In contrast to the enduring stereotype of a nation of samurai this book uses provincial newspapers and local records to hear the voices of ordinary people living in imperial Japan through several decades of war and peace These voices reveal the authentic experiences opinions and emotions of men women and children They show that the impression of a uniquely disciplined regimented militaristic society which took root in the Western imagination from the 1890s and which helped bring about the Pacific war of 1941 is a gross illusion Stewart Lone challenges the long standing view of prewar Japan as a militaristic society Instead of relying on the usual accounts about senior commanders and politics at the heart of government he shows the realities of provincial society's relations with the military in Japan at ground level Working from the perspective

of civil society and both rural and urban life in the provinces Lone investigates broader civil contacts with the military including schools local businesses leisure and entertainment civic ceremonies and monuments as well as public attitudes towards the military and its values This book will be of interest to upper undergraduates postgraduates and academics interested in military history and Japanese history
