Princes, Dervishes and Dragons Lisa Golombek and Robert B. Mason, [Persian Cultures of Power and the Entanglement of the AfroEurasian World](#) Matthew P. Canepa, 2024-01-02 A cutting edge analysis of 2 500 years of Persian visual architectural and material cultures of power and their role in connecting the world With the rise of the Achaemenid Empire 550 330 BCE Persian institutions of kingship became the model for legitimacy authority and prestige across three continents Despite enormous upheavals Iranian visual and political cultures connected an ever wider swath of Afro Eurasia over the next two millennia exerting influence at key historical junctures This book provides the first critical exploration of the role Persian cultures played in articulating the myriad ways power was expressed across Afro Eurasia between the sixth century BCE and the

nineteenth century CE Exploring topics such as royal cosmologies fashion banqueting manuscript cultures sacred landscapes and inscriptions the volume s essays analyze the intellectual and political exchanges of art architecture ritual and luxury material within and beyond the Persian world They show how Perso Iranian cultures offered neighbors and competitors raw material with which to formulate their own imperial aspirations Unique among studies of Persia and Iran this volume explores issues of change renovation and interconnectivity in these cultures over the longue dur e *Images of Thought* Celina Jeffery,2009-03-26 With many illustrations and diagrams *Images of Thought* provides easy to follow ways in which to read Indian Persian and European paintings in terms of composition proportion colour symbolism and references to myth Yet it also provides the intellectual contexts of Islamic cultures which inform our perceptions of how this visual language works The author uses salient aspects of critical theory anthropology and theology to sensitise viewers to the diversity and difference of cultural readings but never loses sight of the primacy of the visual and formal characteristics gestures geometrical structures and their cooperation with myths and theologemes The book provides access to one of the world s major visual traditions whose characteristics continue to inform and elucidate Indian and Islamic contemporary thought today *Images of Thought* is a major scholarly and provocative contribution not only to our understanding of cultural individuality but it offers important examples of how to engage in transcultural understanding and ways of seeing **The Art and Architecture of Islam 1250-1800** Sheila S. Blair,Jonathan M. Bloom,1996-09-25 They discuss for example how the universal caliphs of the first six centuries gave way to regional rulers and how in this new world order Iranian forms techniques and motifs played a dominant role in the artistic life of most of the Muslim world the one exception was the Maghrib an area protected from the full brunt of the Mongol invasions where traditional models continued to inspire artists and patrons By the sixteenth century say the authors the eastern Mediterranean under the Ottomans and the area of northern India under the Mughals had become more powerful and the Iranian models of early Ottoman and Mughal art gradually gave way to distinct regional and imperial styles *Newsletter, East Asian Art and Archaeology* ,1994 **History of Civilizations of Central Asia** Clifford Edmund Bosworth,1992 *History of civilizations of Central Asia* Adle, Chahryar,Baipakov, Karl M.,Habib, Irfan,UNESCO,2003-12-31 The period treated in this volume is highlighted by the slow retreat of nomadism and the progressive increase of sedentary polities owing to a fundamental change in military technology Furthermore this period certainly saw a growing contrast in the pace of economic and cultural progress between Central Asia and Europe The internal growth of the European economies and the influx of silver from the New World gave Atlantic Europe an increasingly important position in world trade and caused a major shift in inland Asian trade Thus 1850 marks the end of the total sway of pre modern culture as the extension of colonial dominance was accompanied by the influx of modern ideas *Sultans of Deccan India, 1500-1700* Navina Najat Haidar,Marika Sardar,2015-04-13 The vast Deccan plateau of south central India stretches from the Arabian Sea to the Bay of Bengal In the sixteenth and seventeenth centuries the region

was home to several major Muslim kingdoms and became a nexus of international trade most notably in diamonds and textiles through which the sultanates attained remarkable wealth The opulent art of the Deccan courts invigorated by cultural connections to the Middle East Africa and Europe developed an otherworldly character distinct from that of the contemporary Mughal north in painting a poetic lyricism and audacious use of color in the decorative arts lively creations of inlaid metalware and painted and dyed textiles and in architecture a somber grandeur still visible today in breathtaking monuments throughout the plateau The first book to fully explore the history and legacy of these kingdoms Sultans of Deccan India elucidates the predominant themes in Deccani art the region s diverse spiritual traditions its exchanges with the outside world and the powerful styles of expression that evolved under court patronage with fresh insights and new scholarship Alongside the discussion of the art lively engaging essays by some of the field s leading scholars offer perspectives on the cycles of victory and conquest as dynasties competed with one another vied with Vijayanagara a great empire to the south and finally succumbed to the Mughals from the north Featuring some 200 of the finest works from the Deccan sultanates as well as spectacular site photographs and informative maps this magnificently illustrated catalogue provides the most comprehensive examination of this world to date and constitutes a pioneering resource for specialists and general readers alike
