Art Of Translating Poetry:

The Art of Translating Poetry Burton Raffel, 1988-01-01 This book by a well known translator and critic is divided into two parts the first dealing with the linguistic and other more technical aspects of translating poetry the second involved with more practice oriented matters The chapters in Part One examine the specific constraints of language and the unavoidable linguistic bases of translation the constraints of specific languages forms and genres and prosody and comparative prosody Part Two looks at the subjective element in translation collaborative translation the translation of oral poetry and the translator's responsibility Languages discussed include Indonesian Japanese Chinese Old and Middle English French German Spanish Italian Persian Russian Latin and Greek The book argues inter alia that literal translation is impossible that no translation can fully create the original but that good literary translation can create a usable approximation that translation is secondary not only to the original work being translated but also to the linguistic and literary nature of the language being translated into that the literary translator's primary responsibility is to the work he is translating that there is nothing ever definitive about any translation that the poetry translator must be a poet and poems should not be translated into prose and that there must be a subjective identification between translator and translated work This is the first attempt to systematize linguistic information about the translation of poetry It is also the first book to range widely over the languages and literatures of the past and the present and European and Asian languages and literatures as well Raffel is the first author to combine in one study linguistic and scholarly knowledge and extensive experience of translation The Art of Translating Poetry Paul Selver, 1966
