**Deciphering Sun Tzu** Derek M. C. Yuen, 2014. A revealing insight into the hidden contours of Chinese strategic thought.

**Military Strategy** Amelia Khatri, AI, 2025-02-17. *Military Strategy* explores how timeless principles of warfare have shaped history and continue to influence modern conflict. The book examines the evolution of strategic thought from ancient wisdom to contemporary doctrines, highlighting how understanding the adversary and concentrating force remain vital. It also shows how the application of these principles has determined military success and failure across different eras. This book delves into the core tenets of strategic thinking, their historical application, and the impact of technological innovation. Examining historical case studies from the Roman Empire to the World Wars, it reveals how strategic concepts were applied and adapted. The study connects military history to political science and economics, emphasizing how successful military strategy requires a convergence of multiple areas. The book is structured in three parts, beginning with the fundamental concepts of military strategy, then moving to key historical case studies, and finally exploring modern military strategy. By synthesizing classical theories with modern strategic thought, *Military Strategy* provides a comprehensive understanding of military history for students, military professionals, and anyone interested in the dynamics of conflict.

**Chinese Business** Hong Liu, 2017-07-14. It is difficult to overstate the importance of China to the world economy, and yet the majority of books either look at Chinese business by applying Western frameworks or models to the context of China, or focus on a particular aspect of business in China. Authored by an academic expert on China, this new completely revised edition of *Chinese Business* offers its readers a comprehensive and systematic body of knowledge of Chinese business. It has taken a holistic perspective, intending to achieve a balance between the academic and practical, between theory and practice, and between traditional and current Internet-based industry. The framework of this book subsumes all the major factors that should be taken into consideration when Western companies contemplate a China strategy, including history, philosophy, ancient military classics, strategy, and marketing innovation, Internet business, and human resources. The discussion of these factors is supplemented with insightful

case studies Chinese Business Second Edition can be used as a textbook for undergraduates and postgraduates at business schools and as a useful reference for researchers senior executives consultants and government officials involved in Chinese business
