the public in two ways as a commodity and as a tool of political propaganda In the contemporary art scene very little attention is paid to the latter function Arguing for the inclusion of politically motivated art in contemporary art discourse Groys considers art produced under totalitarianism Socialism and post Communism He also considers today s mainstream Western art which he finds behaving more and more according the norms of ideological propaganda produced and exhibited for the masses at international exhibitions biennials and festivals Contemporary art Groys argues demonstrates its power by appropriating the iconoclastic gestures directed against itself by positioning itself simultaneously as an image and as a critique of the image In *Art Power* Groys examines this fundamental appropriation that produces the paradoxical object of the modern artwork North American Women Artists of the Twentieth Century Jules Heller,Nancy G. *Women Art Critics in Nineteenth-Century France* Wendelin Guentner,2013-03-14 Over the past years studies have begun not only to identify the factors that impeded the full participation of women artists in French cultural life such as women s limited access to professional art education but also to bring to light the considerable artistic accomplishments of women occluded by historians for over a century A similar effort at historical revision has been under way for French women writers Works of fiction that enjoyed many editions in the nineteenth century receded from our field of vision for almost a century before being rediscovered and reissued during the last decades of the twentieth century Such efforts have resulted in scholarship that has helped revise the history of both artistic and literary expression in nineteenth century France Similarly many women in nineteenth century France had their art criticism published both in journal reviews and in book form often for decades in a number of the most influential venues of their day However it is perplexing that they remain almost totally invisible in histories of French culture *Women Art Critics in Nineteenth Century France Vanishing Acts* is the first sustained effort to bring these prolific and influential critics out from the shadows Although each of the chapters in this volume results from an interdisciplinary approach the fact that they are written by scholars in art history and in literature means that there will be inevitable differences in approach and methodology Thus we study the women s reception of specific artworks and aesthetic movements discuss intersections of aesthetics and politics in their essays and the literary styles and rhetorical

strategies of individual critics explore the social conditions that allowed or impeded their successes and suggest reasons for their all but disappearance in the twentieth century In bringing to light for twenty first century readers the vanished writings of heretofore unrecognized or underrecognized women art critics the authors hope to contribute to the ongoing revision of women s role in cultural history The multifaceted approaches to word image studies modeled in this book and the many avenues for further research it identifies will inspire scholars in a number of disciplines to continue the work of reinscribing women in the history of cultural life
