Asian Migrants in Europe Sylvia Hahn, Stanley Nadel, 2014 This volume explores the renewal of Asian migration to Europe that began in the late 18th century while still in the frame of the colonial regime It counters the construction of an unchanging East versus a dynamic West developed in the 19th century of static rooted populations versus adventurous young men seeking opportunities afar the producers of this cliché overlooked migrating women These essays provide analyses of some of the migrants from the different societies of Asia in Europe They focus on migrants from East and South Asia and explore their different experiences in Europe from the 18th century to the present *Art Deco and Modernist Carpets* Susan Day, 2002-10 In 1927 the critic Rene Chavance identified carpet production as the most successful of the decorative arts in achieving the more visionary aims of the times Susan Day's book a work of original scholarship accompanied throughout by illustrations both of the carpets themselves and of contemporary interiors demonstrates that these Art Deco carpets have lost none of their decorative power A significant number of the carpets are shown precisely as they were meant to be seen within the rooms for which they were made The fruits of the remarkable Art Deco efflorescence throughout Europe form the first part of the book In the second the focus turns to the reaction against the artistes decorateurs by the champions of modernism In France the designs of Sonia Delaunay Eileen Gray and Jean Lurcat evoked collage and Cubism the Bauhaus and Scandinavia provided different influences The fashion for abstract and modernist rugs was further stimulated by limited editions of rugs woven from works by such artists as Picasso Klee and Miro while in the USA designers developed a style that was distinctly American This visual feast of appeal not only to carpet collectors and textile specialists but to anyone with an interest in 20th century design ranges from the supremely imaginative achievements of Paul Poiret's unique weaving studio the Ecole Martine to the Scandinavian folk traditions of Marta Maas Fjetterstrom the innovations of Frank Lloyd Wright and Donald Deskey in the USA and Gunta Stolzl's handwoven carpets in Germany The book's invaluable reference section includes detailed information on artists manufacturers and retailers their signatures and monograms and a glossary and bibliography Book Jacket **Essential Art Deco** Ghislaine Wood, 2003 Essential Art Deco captures the essence of the style which swept across the globe in the 1920s and 1930s altering the skyline of cities from Shanghai to Rio and adding an exotic vibrant edge to everything from cinema and fashion to ocean lines and automobiles Beautifully illustrated throughout the book explores the extraordinary visual language of the style Skilful juxtaposition of source material and iconic Deco pieces

shows how designers borrowed from the exotic cultures of Ancient Egypt Meso America the oriental East and Africa and from the man made world of skyscrapers and machines developing in the process a new and highly distinctive iconography Images inspired by the natural world of plants and animals sunbursts and fountains contrast with the geometric forms of avant garde painting and design culminating eventually in the symbolic idiom of streamlining Deeply eclectic and highly decorative Art Deco was all about fantasy fun and glamour themes that are celebrated in this attractive book and which still strike a popular chord today

Designing Modern America Christopher Innes,2008-10-01 From the 1920s through the 1950s two individuals Joseph Urban and Norman Bel Geddes did more by far to create the image of America and make it synonymous with modernity than any of their contemporaries Urban and Bel Geddes were leading Broadway stage designers and directors who turned their prodigious talents to other projects becoming mavericks first in industrial design and then in commercial design fashion architecture and more The two men gave shape to the most quintessential symbols of the modern American lifestyle including movies cars department stores and nightclubs along with private homes kitchens stoves fridges magazines and numerous household furnishings Illustrated with more than 130 photographs of their influential designs this book tells the engrossing story of Urban and Bel Geddes Christopher Innes shows how these two men with a background in theater lent dramatic flair to everything they designed and how this theatricality gave the distinctive modernity they created such wide appeal If the American lifestyle has been much imitated across the globe over the past fifty years says Innes it is due in large measure to the designs of Urban and Bel Geddes Together they were responsible for creating what has been called the Golden Age of American culture
