## **Art For Children Hermensz Van Rijn Rembrandt:**

Harmensz van Rijn Rembrandt Vladimir Loewinson-Lessing, Irena Linnik, Youri Kouznetsov, Xenia Egorova, 2019-12-09 A painting by Rembrandt is a living entity that exists according to its own laws which reflects the multiplicity of the thoughts and emotions in the painter's mind. Men and their mental condition that is the fundamental issue the artist tries to solve throughout his life. Tormented by family problems he took shelter in painting which became even better as things got worse as if depicted by a visionary. Hiding his anxiety in the optimism of his themes and in the strength of dark colours he was ultimately victorious.

**Harmensz. Van Rijn Rembrandt** Ernest Lloyd Raboff, 1970 A brief biography of the seventeenth century Dutch artist accompanies a discussion of thirteen of his works.

Harmensz van Rijn Rembrandt Emile Michel, 2011-07-01 Rembrandt is completely mysterious in his spirit, his character, his life, his work and his method of painting. What we can divine of his essential nature comes through his painting and the trivial or tragic incidents of his unfortunate life. His penchant for ostentatious living forced him to declare bankruptcy. His misfortunes are not entirely explicable and his oeuvre reflects disturbing notions and contradictory impulses emerging from the depths of his being like the light and shade of his pictures. In spite of this, nothing perhaps in the history of art gives a more profound impression of unity than his paintings composed though they are of such different elements full of complex significations. One feels as if his intellect that genial, great, free mind, bold and ignorant of all servitude and which led him to the loftiest meditations and the most sublime reveries derived from the same source as his emotions. From this comes the tragic element he imprinted on everything he painted irrespective of subject. There was inequality in his work as well as the sublime which may be seen as the inevitable consequence of such a tumultuous existence. It seems as though this singular, strange, attractive and almost enigmatic personality was slow in developing or at least in attaining its complete expansion. Rembrandt showed talent and an original vision of the world early as evidenced in his youthful etchings and his first self-portraits of about 1630. In painting, however, he did not immediately find the method he needed to express the still incomprehensible things he had to say. That audacious, broad and personal method which we admire in the masterpieces of his maturity and old age. In spite of its subtlety it was adjudged brutal in his day and certainly contributed to alienate his public. From the time of his beginnings and of his successes, however, lighting played a major part in his conception of painting and he made it the principal instrument of his investigations into the arcana of interior life. It already revealed to him the poetry of human physiognomy when he painted *The Philosopher in Meditation* or *the Holy Family* so deliciously absorbed in its modest intimacy or for example in *The Angel Raphael leaving Tobias*. Soon he asked for something more. *The Night Watch* marks at once the apotheosis of his reputation. He had a universal curiosity and he lived, meditated, dreamed and painted, thrown back on himself. He thought of the great Venetians borrowing their subjects and making of them an art out of the inner life of profound emotion. Mythological and religious subjects were treated as he treated his portraits. For all that he took from reality and even from the works of others.

he transmuted it instantly into his own substance

**Drawings by Rembrandt and His Pupils** Rembrandt Harmenszoon van Rijn, Holm Bevers, 2009 Rembrandt was the most famous painter of the Dutch Golden Age and the opportunity to work in his studio attracted young artists for nearly four decades until the artist's death in 1669 This catalogue explores the workings of

Rembrandt's studio in the form of drawings made by the master himself and fifteen of his pupils. Rembrandt and his students would often depict the same subject matter as an exercise and make drawings of the same nude models. In his later years, Rembrandt also made sketching trips outside Amsterdam to create his innovative landscapes of the Dutch countryside. His students followed this example, sometimes depicting the same sites. Organized chronologically, *Drawings by Rembrandt and His Pupils: Telling the Difference* is a groundbreaking study that presents more than forty works by Rembrandt and related works by his pupils. It explores the scholarship of recent decades that has brought new and more systematic criteria to bear on determining the authenticity of Rembrandt drawings and defines the styles of his pupils and followers with ever greater precision. In so doing, this volume demystifies the sometimes baffling exercise known as connoisseurship and seeks to re-enact the daily practices that Rembrandt used to teach his students and bring them to artistic maturity. This is an essential book for anyone interested in the Dutch Golden Age or the lives and careers of Rembrandt and the artists in his immediate circle. A major exhibition of these drawings will be on view at the J. Paul Getty Museum from December 8, 2009, to February 28, 2010.

**Book Jacket     A Corpus of Rembrandt Paintings IV** Ernst van de Wetering, 2010-07-19. Volume IV of *A Corpus of Rembrandt Paintings* deals uniquely with the self-portraits of Rembrandt. In a clearly written explanatory style, the head of the Rembrandt Research Project and Editor of this Volume, Ernst van de Wetering, discusses the full body of work of paintings and etchings portraying Rembrandt. He sets the different parameters for accepting or rejecting a Rembrandt self-portrait as such, whilst also discussing the exact working environment of Rembrandt and his apprentices. This workshop setting created a surroundings where apprentices could be involved in working on Rembrandt paintings, making it more difficult to determine the hand of the master. Van de Wetering, who is one of the Rembrandt experts of our day and age, goes down to great detail to explain how the different self-portraits are made and what techniques Rembrandt uses, also giving an overview of which paintings are to be attributed to the Dutch Master and which not. In the additional catalogue, the self-portraits are examined in detail. In clear and accessible explanatory text, the different paintings are discussed, larded with immaculate images of each painting. Details are shown where possible, as well as the results of modern-day technical imaging like X-radiography. This work of art history and art research should be part of every serious art historical institute, university, or museum. Nowhere in the art history have all Rembrandt's self-portraits been discussed in such a detailed and comparative manner by an authority such as Ernst van de Wetering. This is a standard work for decades to come.     Rembrandt, 1606-1669 Michael
