Preserving the Dharma brings much needed attention to an overlooked period of Japanese Buddhist art *Early Buddhist Art of China and Central Asia* Marilyn M. Rhie, 1999 Volume two of Marilyn Rhie's widely acclaimed and formative multi-volume work presents a comprehensive scholarly and detailed study of the Buddhist art of China and Central Asia from 316-439 A.D. during the formative early periods of Buddhism in the Eastern Chin and Sixteen Kingdoms Period. Using texts translated from the Chinese together with stylistic and technical analyses, the chronology and sources of the art are more clearly defined than in previous studies for the regions of South and North China other than Kansu and the important sites of Tumshuk Kucha and Karashahr on the Northern Silk Route in eastern Central Asia. Furthermore, by incorporating extensive religious and historical materials, this work not only contributes to clarifying the regional characteristics of the art but also offers new insights into the broader interregional relationships of this politically fragmented period.

Buddhist Art in Its Relation to Buddhist Ideals Masaharu Anesaki, 1916 *The Buddha Image* Yuvraj Krishan, 1996 Illustrations 247 b/w

Description This book deals with crucial though controversial questions in Buddhist art: the origin of the Buddha image and the iconography of the Buddha images. The earliest Buddhist art of Sanchi and Bharhut is aniconic. The Buddha is represented in symbols only. In the later Buddhist art of Gandhara and Mathura, the Buddha is represented in human form; he is the principal subject of sculptural art. The book seeks to explore the geographical area in which the image of the Buddha first emerged and whether the Buddhist doctrines Hinayana or Mahayana had anything to do with this transformation. The Buddha image as developed eventually at Sarnath became the model for the Buddha images in whole of Asia south-east, central and eastern Asia. The iconographic features of the Buddha image are superficially an aberration, being in apparent conflict with the doctrine. The Buddha had cut off his hair at the time of his renunciation; the rules of the order enjoin that a monk must be tonsured and must discard and eschew all riches. However, in his images, the Buddha has hair on his head; later, he is also endowed with a crown and jewels. After an exhaustive examination of the views of various scholars, the book answers these questions and resolves the controversies on the basis of literary, numismatic and epigraphic sources. More importantly, it makes use of the valuable evidence from the contemporaneous Jaina art. Aniconism of early Jaina art and the iconographic features of Jaina images. The implications of this study are also important: Does India owe idolatry to Buddhism? Was this of foreign inspiration? Was the Buddha image fashioned after the Vedic Brahma, and whether the Buddha's usnisa and Buddhist art motifs are rooted in the Vedic tradition? The book is profusely illustrated and provides rich and stimulating fare to students of Indian art in general and of Buddhist art in particular.
