through the contemporary marketization of black women's bodies from popular music and pornography to advertising. A brand new chapter explores how historical echoes from previous eras map onto highly visible bodies in the twenty-first century. It analyzes fetishistic spectacles of the black booty with particular emphasis on the role of Beyoncé Knowles in the popularization of the bootylicious body and the counter-aesthetic the singer has gone on to advance for black women's bodies and beauty politics. By studying the imagery of the Hottentot Venus from the nineteenth century to now, readers are invited to confront the racial and sexual objectification and embodied resistance that make up a significant part of black women's experience.

**Audience, Agency and Identity in Black Popular Culture** Shawan M. Worsley, 2009-09-10. Audience Agency and Identity in Black Popular Culture analyses black cultural representations that appropriate anti-black stereotypes. Using examples from literature, media and art, Worsley examines how these cultural products do not rework anti-black stereotypes into seemingly positive images. Rather, they present anti-black stereotypes in their original forms and encourage audiences not to ignore but to explore them. Shifting critical commentary from a need to censor these questionable images, Worsley offers a complex consideration of the value of and problems with these alternative anti-racist strategies in light of stereotypes' persistence. This book furthers our understanding of the historical circumstances that are influencing contemporary representations of black subjects that are purposefully derogatory and documents the consequences of these images.

**Rethinking Race and Ethnicity in Research Methods** John H. Stanfield II, 2016-06-03. This collection of original work demonstrates the new ways in which particular research methodologies are used, valued and critiqued in the field of race and ethnic studies. Contributing authors discuss the ways in which their personal and professional histories and experiences lead them to select and use particular methodologies over the course of their careers. They then provide the intellectual histories, strengths and weaknesses of these methods as applied to issues of race and ethnicity and discuss the ethical, practical and epistemological issues that have influenced and challenged their methodological principles and applications. Through these rigorous self-examinations, this text presents a dynamic example of how scholars engage both research methodologies and issues of social justice and ethics. This volume is a successor to Stanfield's landmark *Race and Ethnicity in Research Methods*.

**The Feminism and Visual Culture Reader** Amelia Jones, 2003. Challenging the notion of feminism as a unified discourse, this book assembles writings that address art, film, architecture, popular culture, new media and other visual fields from a feminist perspective. The book combines classic texts with six newly commissioned pieces. Articles are grouped into thematic sections, each introduced by the editor. Providing a framework within which to understand the shifts in feminist thinking in visual studies as well as an overview of major feminist theories of the visual, this reader also explores how issues of race, class, nationality and sexuality enter into debates about feminism in the field of the visual.

Women and Religion in the African Diaspora R.
