Ugly as Sin M. Rose, 2009 How Catholic churches are being sapped of their spiritual vitality and what you can do about it The problem

with new style churches isn't just that they're ugly; they actually distort the Faith and lead Catholics away from Catholicism. So argues Michel S. Rose in these eye-opening pages which banish forever the notion that lovers of traditional style churches are motivated simply by taste or nostalgia. In terms that non-architects can understand and modern architects can't dismiss, Rose shows that far more is at stake: modern churches actually violate the three natural laws of church architecture and lead Catholics to worship quite simply a false god.
