Shakespeare as a Dramatic Artist... Richard Green Moulton, 1893 **ReVisioning** James Romaine, Linda

Stratford, 2014-05-20 *ReVisioning Critical Methods of Seeing Christianity in the History of Art* examines the application of art historical methods to the history of Christianity and art. As methods of art history have become more interdisciplinary there has been a notable emergence of discussions of religion in art history as well as related fields such as visual culture and theology. This book represents the first critical examination of scholarly methodologies applied to the study of Christian subjects, themes and contexts in art. *ReVisioning* contains original work from a range of scholars each of whom has addressed the question in regard to a well known work of art or body of work. How have particular methods of art history been applied and with what effect? The study moves from the third century to the present providing extensive treatment and analysis of art historical methods applied to the history of Christianity and art.

Investment Treaty Law and Climate Change Tomás Restrepo Rodríguez, 2023-01-01 The book deals with the question whether the investment treaty law system could be harmonized with the climate change international legal framework and the climate interest that lies beyond. The answer to this research question is divided into three parts. The first examines the relevance of the climate change international legal framework in investment treaty disputes as a natural pre-logical interpretative stage. The second focuses on the BIT's content interpretation which is the orthodox approach to solve the fragmentation between the system of investment treaty law and the system of international climate change law. Finally the third part tackles this fragmentation through a heterodox approach that is grounded in the direct application of climate change principles through law ascertainment. Apart from concluding that harmonization between investment treaty law and international climate change law is possible through the orthodox approach to the expropriation and the FET standards as well as through the direct application of the climate change precautionary principle and the CBRRC principle heterodox approach the book suggests that tribunals are expected soon to openly address climate change disputes in their rulings.

Mittelalterliche Zukunftsgestaltung im Angesicht des Weltendes Felicitas Schmieder, 2015-11-09 Gab es im europäischen Mittelalter eine Zukunft? Gestalteten die Menschen ihre eigene Zukunft und die ihrer Gesellschaft oder ergaben sie sich angesichts der Unausweichlichkeit des kommenden Weltuntergangs in ihr Schicksal? Zweifellos bedeutete Zukunft im Mittelalter etwas anderes als in unserer modernen Welt, doch zeigt dieser Band wie stark und in welcher Weise ber die vor dem Ende noch verbleibende Zeit und ihre Nutzung nachgedacht wurde. Die Beiträge bewegen sich zwischen dem frühmittelalterlichen Irland und dem spätmittelalterlichen Hussitentum und besch ftigen sich mit Gegenwartsanalysen, Historiographie, Prophetie, Dichtungen, Bildwerken und Bibelkommentaren.
