Me Teach art I don't even know how to draw Many of us started there We felt a total lack of confidence about teaching art We wanted to give our children all the benefits of art in their education but didn't know how Some of us did a few colorful hands on projects with our children but we could see they weren't really learning the basics of art We had never learned the basics of art ourselves But then after a few years of teaching art with the classical model of education we realized that teaching art can be as simple as teaching any other subject and we can learn it alongside our children Now we've condensed our knowledge here for you Instead of a how to draw book *Anyone Can Teach Art* presents the scope and sequence of a classical Christian art curriculum for K-12 students In this book we break it all down for you By the end of this book you'll know Why art should be included in everyone's education What are the basics of art creation and art appreciation How to use the ancient amazingly effective classical model of education to teach art Which simple drills and exercises to include in art projects to help students advance their skills How to proceed in art education once your students have mastered the basics What's stopping you from including art in your child's education Learn the basics and follow the plan in this book and you'll realize how easy it really is to teach art
