Contemporary Art Martha Buskirk, 2005-02-18 An exploration of transformations in the nature of the art object and artistic authorship in the last four decades In this book Martha Buskirk addresses the interesting fact that since the early 1960s almost anything can and has been called art Among other practices contemporary artists have employed mass produced elements impermanent materials and appropriated imagery have incorporated performance and video and have created works through instructions carried out by others Furthermore works of art that lack traditional signs of authenticity or permanence have been embraced by institutions long devoted to the original and the permanent Buskirk begins with questions of authorship raised by minimalists use of industrial materials and methods including competing claims of ownership and artistic authorship evident in conflicts over the right to fabricate artists works Examining recent examples of appropriation she finds precedents in pop art and the early twentieth century readymade and explores the intersection of contemporary artistic copying and the system of copyrights trademarks and brand names characteristic of other forms of commodity production She also investigates the ways that connections between work and context have transformed art and institutional conventions the impact of new materials on definitions of medium the role of the document as both primary and secondary object and the significance of conceptually oriented performance work for the intersection of photography and the human body in contemporary art Buskirk explores how artists active in the 1980s and 1990s have recombined strategies of the art of the 1960s and 1970s She also shows how the mechanisms through which art is presented shape not only readings of the work but the work itself She uses her discussion of the readymade and conceptual art to explore broader issues of authorship reproduction context and temporality

Art of the Deal Noah Horowitz, 2014-08-31 Art today is defined by its relationship to money as never before Prices of living artists works have been driven to unprecedented heights conventional boundaries within the art world have collapsed and artists now think ever more strategically about how to advance their careers Artists no longer simply make art but package sell and brand it Noah Horowitz exposes the inner workings of the contemporary art market explaining how this unique economy came to be how it works and where it s headed He takes a unique look at the globalization of the art world and the changing face of the business offering the clearest analysis yet of

how investors speculate in the market and how emerging art forms such as video and installation have been drawn into the commercial sphere By carefully examining these developments against the backdrop of the deflation of the contemporary art bubble in 2008 *Art of the Deal* is a must read book that demystifies collecting and investing in today's art market *Inside the White Cube* Brian O'Doherty, 1999 These essays explicitly confront a particular crisis in postwar art seeking to examine the assumptions on which the modern commercial and museum gallery was based **New York Magazine**, 1997-09-29 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea *Aesthetics at Large* Thierry de Duve, 2019-05-02 Immanuel Kant's Critique of Judgment Thierry de Duve argues in the first volume of *Aesthetics at Large* is as relevant to the appreciation of art today as it was to the enjoyment of beautiful nature in 1790 Going against the grain of all aesthetic theories situated in the Hegelian tradition this provocative thesis which already guided de Duve's groundbreaking book *Kant After Duchamp* 1996 is here pursued in order to demonstrate that far from confining aesthetics to a stifling formalism isolated from all worldly concerns Kant's guidance urgently opens the understanding of art onto ethics and politics Central to de Duve's re-reading of the Critique of Judgment is Kant's idea of *sensus communis* ultimately interpreted as the mere yet necessary idea that human beings are capable of living in peace with one another De Duve pushes Kant's skepticism to its limits by submitting the idea of *sensus communis* to various tests leading to questions such as Do artists speak on behalf of all of us Is art the transcendental ground of democracy Or Was Adorno right when he claimed that no poetry could be written after Auschwitz Loaded with de Duve's trademark blend of wit and erudition and written without jargon these essays radically renew current approaches to some of the most burning issues raised by modern and contemporary art They are indispensable reading for anyone with a deep interest in art art history or philosophical aesthetics **Aging, Creativity and Art** Martin S. Lindauer, 2012-12-06 *Aging Creativity and Art A Positive Perspective on Late Life Development* explores the strengths and opportunities of old age as these are manifested by the accomplishments of aging artists late artistic works and elderly arts audiences The book draws on scholarship in the humanities primarily in art history examines mainly paintings and painters both historical and contemporary reviews empirical research on creativity and cognition predominantly from psychology and gerontology and presents the author's original studies including surveys of art historians questionnaires completed by aging artists and arts audiences and experiments involving judgments of art by laypersons The research presented in *Aging Creativity and Art A Positive Perspective on Late Life Development* suggests that creativity continues into the later years higher order mental abilities related to creativity like imagination and problem solving persist until late in life and the elderly's physical sensory mental and interpersonal competencies may be enhanced by
