Art Practice As Research Inquiry In The Visual Arts:

Art Practice as Research Graeme Sullivan, 2010 Art Practice as Research Second Edition continues to present a compelling argument that the creative and cultural inquiry undertaken by artists is a form of research. The text explores themes, practices, and contexts of artistic inquiry and positions them within the discourse of research. Sullivan argues that legitimate research goals can be achieved by choosing different methods than those offered by the social sciences. The common denominator in both approaches is the attention given to rigor and systematic inquiry. Artists emphasize the role of the imaginative intellect in creating, criticizing, and constructing knowledge that is not only new but also has the capacity to transform human understanding.

Art Practice as Research Graeme Sullivan, 2005 This book will publish in a new edition on December 1, 2009. We are no longer supplying instructors with complimentary review copies of this edition. If you need an urgent desk copy of the existing edition for a class this semester, please call 1 800 818 7243 and we will be pleased to process your request.

In this rich and layered reflection on visual arts practice as research, Graeme Sullivan launches a passionate and convincing case that rewrites the definitions of art and research as it unapologetically claims for the visual arts the respect and admiration of the academy.

Jessica Hoffman Davis, Harvard University

Art Practice as Research Inquiry in the Visual Arts presents a compelling argument that the creative and cultural inquiry undertaken by artists is a form of research. The text explores themes, practices, and contexts of artistic inquiry and positions them within the discourse of research. Author Graeme Sullivan argues that legitimate research goals can be achieved by choosing different methods than those offered by the social sciences. The common denominator in both approaches is the attention given to rigor and systematic inquiry. Artists emphasize the role of the imaginative intellect in creating, criticizing, and constructing knowledge that is not only new but also has the capacity to transform human understanding. The book is divided into three content areas that provide a unique framework for carrying out inquiry in the visual arts.

Contexts for Visual Arts Research is a historical review that positions the visual arts as a culturally grounded and institutionally bound area of artistic and educational inquiry.

Theorizing Visual Arts Practice presents the thesis that visual arts practice is a theoretically robust area of inquiry and a transformative approach to creating and critiquing knowledge.

Visual Arts Research Practices describes a range of strategies and approaches to planning and carrying out visual arts research.

is a historical review that positions the visual arts as a culturally grounded and institutionally bound area of artistic and educational inquiry.

Art Practice as Research is perfectly suited as a text for courses in art education, the visual arts, as well as general research methods courses in education and the humanities. This will also be an invaluable reference for anyone with an interest in interdisciplinary research in the social sciences and the role of imaginative inquiry in human understanding.

A blog by Graeme Sullivan welcoming contributors interested in discussing ideas and sharing information about art as a form of research.

Praise for this text: Sullivan challenges our assumptions about what constitutes research practices and in doing so presents a ground-breaking analysis for visual arts practice as research.

COMMUNICATION RESEARCH TRENDS Art Practice in a Digital Culture Hazel Gardiner,Charlie Gere,2016-04-15 Much as art history is in the process of being transformed by new information communication technologies often in ways that are either disavowed or resisted art practice is also being changed by those same technologies One of the most obvious symptoms of this change is the increasing numbers of artists working in universities and having their work facilitated and supported by the funding and infrastructural resources that such institutions offer This new paradigm of art as research is likely to have a profound effect on how we understand the role of the artist and of art practice in society In this unique book artists art historians art theorists and curators of new media reflect on the idea of art as research and how it has changed practice Intrinsic to the volume is an investigation of the advances in creative practice made possible via artists engaging directly with technology or via collaborative partnerships between practitioners and technological experts ranging through a broad spectrum of advanced methods from robotics through rapid prototyping to the biological sciences

International Handbook of Research in Arts Education Liora Bresler,2007-03-05 Providing a distillation of knowledge in the various disciplines of arts education dance drama music literature and poetry and visual arts this essential handbook synthesizes existing research literature reflects on the past and contributes to shaping the future of the respective and integrated disciplines of arts education While research can at times seem distant from practice the Handbook aims to maintain connection with the live practice of art and of education capturing the vibrancy and best thinking in the field of theory and practice The Handbook is organized into 13 sections each focusing on a major area or issue in arts education research

A Practical Guide to Arts-related Research Maggi Savin Baden,Katherine Wimpenny,2014-11-27 This book outlines the principles and practices of arts related inquiry and provides both suggestions about conducting research in the field as well as case study examples The ideas presented here have emerged from the authors own experiences of undertaking arts related research and the challenges of implementing these approaches The book therefore draws on personal research practice and experience to address the concerns academics increasingly appear to be voicing about developing the scholarship and practice of arts

related research There is a need for greater attention to and clarity on issues of theoretical positioning methodology and methods when conducting robust and reputable arts related research which this book provides *An Introduction to Art Therapy Research* Lynn Kapitan,2011-01-11 This book fulfills the need for a pragmatic text that is grounded in art therapy research literature and surrounding contexts providing guidance to students and practitioners in research design via a broad survey of appropriate questions methods and ethical values **Art, Research, Philosophy** Clive Cazeaux,2017-04-11 Art Research Philosophy explores the emergent field of artistic research art produced as a contribution to knowledge As a new subject it raises several questions What is art as research Don t the requirements of research amount to an imposition on the artistic process that dilutes the power of art How can something subjective become objective What is the relationship between art and writing Doesn t description always miss the particularity of the artwork This is the first book length study to show how ideas in philosophy can be applied to artistic research to answer its questions and to make proposals for its future Clive Cazeaux argues that artistic research is an exciting development in the historical debate between aesthetics and the theory of knowledge The book draws upon Kant phenomenology and critical theory to show how the immediacies of art and experience are enmeshed in the structures that create knowledge The power of art to act on these structures is illustrated through a series of studies that look closely at a number of contemporary artworks This book will be ideal for postgraduate students and scholars of the visual and creative arts aesthetics and art theory The Open Access version of this book available at www.taylorandfrancis.com has been made available under a Creative Commons Attribution NonCommercial No Derivatives 4.0 license <https://www.taylorfrancis.com/books/9781315764610> Arts-Based Educational Research Trajectories Barbara Bickel,Rita L. Art-Centered Learning Across the Curriculum Julia Marshall, David M. Donahue, 2015-04-28 This handbook provides teachers with a framework for implementing inquiry based substantive art integration across the curriculum along with the background knowledge and models needed to do this Drawing on ideas from Harvard Project Zero the authors make a clear and compelling argument for how contemporary art supports student learning The text features subject specific chapters co written by teaching scholars from that discipline Each chapter includes examples of contemporary art with explanations of how these works explore the fundamental concepts of the academic discipline The book concludes with a chapter on an integrated inquiry based curriculum inspired by contemporary art including guidelines for developing art projects teachers can adapt to their students interests and needs This resource is appropriate for art teachers as well as subject area teachers who are not familiar with using contemporary art in the classroom I am so excited about this book The visuals alone are enough to clue teachers in on ways that Contemporary Art can blow their curriculums open to become engaging relevant vehicles for their students to ride across the 21st century From the first scan readers cannot help but see the power of Contemporary Art in transforming classrooms and learning From the Foreword by Lois Hetland professor and chair of art education at Massachusetts College of Art and Design and co author of Studio Thinking 2 Art Centered Learning Across the Curriculum well surpasses its goal to demystify contemporary art for K 12 teachers In this important text the authors present a direct challenge to educators and public education reformers of all stripes to embrace the arts and design practices across disciplines as a potent means for building beautiful minds not merely as a tool for beautifying dingy school corridors This new book serves as a primer for fashioning the kinds of integrated curriculum frameworks required for success in today s global knowledge economy James Haywood Rolling Jr chair of art education and a dual professor in art education and teaching and leadership Syracuse University

The Imagination in Education Sean Blenkinsop, 2009-01-14 This collection of essays from scholars in eleven countries centres upon the theory and practice of the use of imagination in education By bringing together studies covering a wide range of subject

matter we trust that the reader will have the opportunity to appreciate both the diversity within the field and the significance of the topics discussed We hope too that readers will find connections to their own areas of study The 13 essays present distinct yet converging points of view whether it be a discussion of the imagination as a virtue the use of imagination as a means to improve aboriginal education in Northern Canada or the description of a museum in Brazil in which the imagination of the child is central to the project Separately each of the papers identifies and explores a distinct aspect of Imaginative Education together they begin to define the breadth and richness of the field These essays have been selected from papers presented over a period of several years to research symposiums in imagination and education held every summer in Vancouver Canada under the auspices of the Imaginative Education Research Group in the Faculty of Education at Simon Fraser University

Engaging the Senses: Object-Based Learning in Higher Education Helen J. Chatterjee, Leonie Hannan, 2016-03-09 The use of museum collections as a path to learning for university students is fast becoming a new pedagogy for higher education Despite a strong tradition of using lectures as a way of delivering the curriculum the positive benefits of active and experiential learning are being recognised in universities at both a strategic level and in daily teaching practice As museum artefacts specimens and art works are used to evoke provoke and challenge students engagement with their subject so transformational learning can take place This unique book presents the first comprehensive exploration of object based learning as a pedagogy for higher education in a broad context An international group of authors offer a spectrum of approaches at work in higher education today They explore contemporary principles and practice of object based learning in higher education demonstrating the value of using collections in this context and considering the relationship between academic discipline and object based learning as a teaching strategy
