Douwe Wessel Fokkema, Johannes Willem Bertens, 1986 Most of the essays collected in this volume deal with theoretical issues that dominate the international debate on Postmodernism issues such as the shifting nature of the concept the problem of periodization and the problem of historicity Other essays offer readings of Postmodernist texts and relate practical criticism to a theoretical framework Hans Bertens Utrecht sketches the historical development of the concept Postmodernism in American criticism distinguishing between the various definitions that have been proposed over the last twenty five years in an attempt to bring some order to the field and to facilitate future discussion Brian McHale Tel Aviv and Douwe Fokkema Utrecht offer models for the description of Postmodernist texts Richard Todd Amsterdam argues convincingly that Postmodernism is much more of a presence in contemporary British fiction than has so far been assumed and Herta Schmid Munich presents a similar argument with respect to Russian avant garde theater Elrud Ibsch Amsterdam presents a contrastive analysis of Thomas Bernhard and Robert Musil Ulla Musarra Nijmegen writes on Italo Calvino The

Photography after Postmodernism David Bate,2022-08-19 In life after postmodernism our conception of photography is not the same as before Photography After

Postmodernism starts with this conception and explores what changes have affected photography its relation to social life and our image centred culture Engaging with the visual environment and issues that have emerged in the postmodern world David Bate introduces fresh approaches and analysis of photographs and their place within the aftermath of postmodernist thought The book shows how photographs circulate in an image world beyond their art or media origins that deeply affects our sense of time and relation to memory The role of archives dreams memories and time are deployed to develop and resituate arguments about photography made by Roland Barthes in *Camera Lucida* to further engage and understand our contemporary condition By considering how afterwordness is invoked in the developments of modern and contemporary photography Bate demonstrates the complex ways in which photographic images resonate across public and private spaces while carrying a slippage of meaning that is never quite fixed yet always contingent and social The approach shows how modernist photography was already invested in values that its discourse could not enunciate which resonates with much contemporary photography today Featuring a range of historical and contemporary images the book offers detailed and innovative readings of specific photographs which open new avenues of thought for those studying and researching visual culture and photography Aesthetics and contemporary discourse Herbert Grabes,1994 **Postmodernism and the Contemporary Novel** Bran Nicol,2002 Collects together the most important contributions to the theory of the postmodern novel over the last 40 years guiding readers through the complex questions and wide ranging debates *The Wake of Imagination* Richard Kearney,2002-11 With his remarkable range of vision the author takes us on a voyage of discovery that leads from Eden to Fellini from paradise to parody plotting the various models of the imagination as Hebraic Greek medieval Romantic existential and post modern **The Postmodernist Turn** J. David Hoeveler, Jr.,2004-10-05 During the 1970s the United States became the world s preeminent postindustrial society The new conditions changed the way Americans lived and worked and even their perceptions of reality Americans struggled to find their place in a world where symbol became more important than fact appearance more important than reality where image supplanted essence In this reassessment of a little studied decade J David Hoeveler Jr finds that the sense of detachment and dislocation that characterizes the postindustrial society serves as a paradigm for American thought and culture in the 1970s The book examines major developments in literary theory philosophy architecture and painting as expressions of a 1970s consciousness Hoeveler also explores the rival political readings of these subjects and considers the postmodernist phenomenon as it became an ideological battleground in the decade Clear and engaging the work will be of great interest to historians theorists and everyone who wants to further explore the 1970s
