Petrarch and the Textual Origins of Interpretation Teodolinda Barolini,H. Wayne Storey,2007-01-01 This volume addresses a far reaching aspects of Petrarch research and interpretation the essential interplay between Petrarch's texts and their material preparation and reception To read and interpret Petrarch we must come to grips with the fundamentals of Petrarchan philology 2015 Günter Berghaus,2015-07-01 The special issue of International Yearbook of Futurism Studies for 2015 will investigate the role of Futurism in the work of a number of Women artists and writers These include a number of women actively supporting Futurism e.g. Rena Z tkov Edyth von Haynau Olga Rozanova Eva K hn others periodically involved with the movement e.g. Valentine de Saint Point Aleksandra Ekster Mary Swanzy others again inspired only by certain aspects of the movement e.g. Natalia Goncharova Alice Bailly Giovanna Klien Several artists operated on the margins of a Futurist inspired aesthetics but they felt attracted to Futurism because of its support for women artists or because of its innovatory roles in the social and intellectual spheres Most of the artists covered in Volume 5 2015 are far from straightforward cases but exactly because of this they can offer genuinely new insights into a still largely under researched

domain of twentieth century art and literature Guiding questions for these investigations are How did these women come into contact with Futurist ideas Was it first hand knowledge poems paintings manifestos etc or second hand knowledge usually newspaper reports or personal conversions with artists who had been in contact with Futurism How did the women respond to the positive or negative reports How did this show up in their uvre How did it influence their subsequent often non Futurist career

Searching for Japan Michele Monserrati, 2020-03-27 This book pursues the specific case of Italian travel narratives in the Far East through a focus on the experience of Japan in works by writers who visited the Land of the Rising Sun beginning in the Meiji period 1868 1912 and during the concomitant opening of Japan s relations with the West Drawing from the fields of Postcolonial and Transnational Studies analysis of these texts explores one central question what does it mean to imagine Japanese culture as contributing to Italian culture Each author shares in common an attempt to disrupt ideas about dichotomies and unbalanced power relationships between East and West Proposing the notion of relational Orientalism this book suggests that Italian travelogues to Japan in many cases pursued the goal of building imaginary transnational communities predicated on commonalities and integration by claiming what they perceived as Oriental as their own In contrast with a long history of Western representations of Japan as inferior and irrational *Searching for Japan* identifies a positive overarching attitude toward the Far East country in modern Italian culture Expanding the horizon of Italian transnational networks normally situated within the Southern European region this book reinstates the existence of an alternative Euro Asian axis operating across Italian history
