The Writers Directory ,2013 **THE INTERNATIONAL WHO'S WHO** 56 1992-93,1992 Britain B.C. Francis Pryor,2003 Based on new archaeological finds this book introduces a novel rethinking of the whole of British history before the coming of the Romans So many extraordinary archaeological discoveries many of them involving the author have been made since the early 1970s that our whole understanding of British prehistory needs to be updated So far only the specialists have twigged on to these developments now Francis Pryor broadcasts them to a much wider general audience Aided by aerial photography coastal erosion which has helped expose such coastal sites as Seahenge and new planning legislation which requires developers to excavate the land they build on archaeologists have unearthed a far more sophisticated life among the Ancient Britons than has been previously supposed Far from being the woaded barbarians of Roman propaganda we Brits had our own religion laws crafts arts trade farms priesthood and royalty And the Scots English and Welsh were fundamentally one and the same people Enlarging the Past John M. Coles,Bryony Coles,1996 Seeufersiedlung Moorsiedlung **Current Archaeology** ,1992 **Celtic Culture** John T. Koch,2005-12-16 This encyclopedia covers the entirety of the Celtic world both through time and across geography Although emphasizing the areas where Celtic languages and traditions survive into the present the work does not slight the reaches of the Celtic empire which was the largest language and cultural group on earth prior to the rise of Rome In some 1 500 articles many representing original research by the finest Celtic scholars the work covers the Celts from prehistory to the present giving comprehensive treatment to all topics from myth to music religion to rulers literature to language government to games and all topics in between British Archaeological Bibliography ,1992 *Europe's Lost World* Vincent L. Gaffney,Simon Fitch,David N. Smith,2009 This excellent book which deserves a wide readership reports on the work of the North Sea Palaeolandscapes Project which has been researching the fascinating lost landscape of Doggerland which until the end of the last Ice Age connected Britain to the continent in the North Sea area It aims to make the findings available to a general readership and show just how impressive they have been with nearly 23 000km² mapped The techniques used to reconstruct the landscape are explained and conclusions and speculation about the climate and vegetation of the area in the Mesolithic offered It also tells the story of the rediscovery of Doggerland and the Mesolithic landscape more generally from the pioneering work of Clement Reid in the nineteenth century to the research of Grahame Clark and Bryony Coles in the twentieth It s also worth pointing out just how well produced and illustrated the book is and one can only hope that it can spark public interest in a comparatively little known phase of our prehistory
