President (2001-2009 : Bush),2005 **Elmendorf Air Force Base (AFB), Alaska Military Operations Area (MOA)** ,1995 Missio Politica Johannes Reimer,2017-11-14 Evangelical Christians in many countries shy away from politics And yet especially with the rise of the Pentecostal and charismatic movements the interest and involvement in political activity is becoming a daily reality in evangelical circles At the same time evangelical politicians are not exempt from scandals of corruption and complaints of ineffectiveness Are Christians unable to do better politics than others Are they less prepared Is even the whole political involvement of Christians under question In this book Dr Johannes Reimer explores the answers to these questions by articulating a theology of the church s political mission The church is not a political party but as God s ecclesia it has a prophetic voice and is called out of the world to take responsibility for the world *Church and Politics in a Secular Age* Kenneth Medhurst,George Moyser,1988 This book arises from a general preoccupation with the relationship between religion and politics and from a particular interest in the changing political stance of England s established Church With the aid of surveys interviews and documentary evidence the authors have assembled an uniquely detailed picture of how the Church governs itself of its leaders attitudes and of the institution s consequent impact upon public debate Equally they scrutinize the structural and ideological factors which limit the Church s capacity for influencing public discussion Recent and wellpublicized shifts in the Church s official positions are explained by reference to the complex interaction of long term social political and theological developments The result is a volume which not only adds to our understanding of a significant yet little charted area of English political life but which is also intended to enhance the Church s own self understanding

Creating Community Health Simon Lennane,2023-05-05 This important book explores how community based interventions can bridge the gap between health services and the voluntary sector to create more sustainable healthy

communities Moving beyond a technologically driven medicalised approach to healthcare the book shows how social prescribing can provide a direct pathway to improving community health embracing connection and challenging inequality Written by a practicing GP and illustrated through practical guidance it demonstrates how this can offer a cost effective preventative means to improving health outcomes enabling communities to be more resilient when confronting major issues such as climate change or pandemics Building to a case study of how these methods were used in one town Ross on Wye the book will be invaluable reading for those working in healthcare public health local authorities and the voluntary sector as well as students and researchers interested in these areas Federal Probation ,1975 Witness Is Presence Miika Tolonen,2014-01-07 In a postsecular cultural situation the conditions for understanding and communicating a Christian tradition have changed None of the established religions can any longer claim monopoly in the marketplace of religions A claim of this study is that a postsecular situation characterized among other things by dwindling memberships in established churches as well as a new visibility of alternative religious expressions opens up a need to reflect on alternative ways of understanding Christianity in its context This study focuses on the question how can a Christian tradition be communicated understandably in a postsecular context In traditional terms how can Christian witness be understood in our situation It is to this need according to this study that the ecclesiology of Stanley Hauerwas provides a meaningful perspective This perspective becomes relevant because in a postsecular context a Christian church even a folk church cannot assume to be in a position of majority or power There is therefore a need to ask how to understand Christianity as a community of witness that is neither in power nor a majority The study suggests that embodiment of Christian convictions becomes a central factor in a meaningful postsecular notion of witness *Community Schools in Africa* Deborah Glassman,Jordan Naidoo,Fred Wood,2007-04-24 Over the past decade community schools similar to those supported by Save the Children have been established in many developing countries and especially in sub Saharan Africa As large numbers of children attend schools started and managed by their own communities and or by nongovernmental organizations questions have come up about the impact of such schools at large scale Can village based or community schools have a national impact on access to education spur improved long term development strategies and education policy or achieve or influence Education for All This book explores these and related questions drawing on Save the Children s experience with community based schooling in four countries Ethiopia Malawi Mali and Uganda The literature on community schools in Africa tends to be sparse repetitive and highly descriptive with little or no sustained critique of practice This book fills a substantial gap in the education literature and is particularly timely given the current emphasis on decentralization and community involvement in education

Commodity Tax Harmonization in the European Community Andreas Haufler,2012-12-06 The book is concerned with the main issues that arise for general commodity taxation in the internal market the choice of a new international tax principle and the question of tax rate harmonization The book provides a thorough discussion of these issues and evaluates

the choices made by the European Community from a welfare theoretic perspective by comparing them to feasible alternatives The discussion integrates a large number of recent theoretical and policy oriented contributions which have so far not been collected and summarized in a single volume Special features of the book are that a the analysis combines elements of international trade theory and public finance two economic disciplines which are rarely integrated b a dual general equilibrium framework is used throughout the analysis c a second best setting is consistently employed incorporating relevant policy constraints and integrating conflicting arguments in a single analytical framework d part of the theoretical analysis is supplemented by a computable general equilibrium approach The book shows that well known international trademodels can be extended to model alternative principles for taxing international trade but also international differences in preferences for public goods and different views of government behavior issues which are directly relevant for the discussion of tax rateharmonization but are rarely treated in an analytical way
