Blinded by Starlight Frank McGillion, 2003-02-05 For centuries notions such as the transformation of base into precious metals an accord between humans and planets the existence of an elixir of life or prediction of the date of death have been on the outermost fringes of science So too have aspects of an art critical to western thought what the Greeks termed astronomia an amalgam of astronomy and astrology In **Blinded By Starlight** Dr Frank McGillion demonstrates how by reference to modern scientific studies into the pineal gland such assertions are perilously close to being shown to be to a greater or lesser extent true

Blinded By The Sun Seamus Guyver, 2013-10 A passage between the stars the moon and the thoughts caught within all of us The different emotions we hide sometimes when left staring at the sun feeling the moon within your mind For all the people and chances that have gone before Of all the times we felt so much alive and the regrets we hold like the dark side of the moon Knowing the journey will lead us within the sun changing our views Feeling a step within life is just a change within our minds Now feel the journey within one mind take the time to ponder all the thoughts and feelings felt within one sun and the mood of this life and how it can lift you higher and take you down when you lose the focus of the road that lies ahead and people who move like ghosts within your trail Knowing one day you will unite the Sun and the Moon and find a distant peace within your heart This may take time and Journey will have many falls But the road is just a reflection within the memories of our minds

Blinded by Sight Osagie Obasogie, 2013-12-11 Colorblindness has become an integral

part of the national conversation on race in America Given the assumptions behind this influential metaphor that being blind to race will lead to racial equality it is curious that until now we have not considered if or how the blind see race Most sighted people assume that the answer is obvious they don't and are therefore incapable of racial bias an example that the sighted community should presumably follow In *Blinded by Sight* Osagie K Obasogie shares a startling observation made during discussions with people from all walks of life who have been blind since birth even the blind aren't colorblind blind people understand race visually just like everyone else Ask a blind person what race is and they will more than likely refer to visual cues such as skin color Obasogie finds that because blind people think about race visually they orient their lives around these understandings in terms of who they are friends with who they date and much more In *Blinded by Sight* Obasogie argues that rather than being visually obvious both blind and sighted people are socialized to see race in particular ways even to a point where blind people see race So what does this mean for how we live and the laws that govern our society Obasogie delves into these questions and uncovers how color blindness in law public policy and culture will not lead us to any imagined racial utopia
