

Blood & Bone

Until recently, many in the Western world regarded medicine as a wholly scientific pursuit, separate from and even antithetical to spiritual and artistic concerns. Yet every physician who acknowledges uncertainty as a recurring factor in medical practice understands the fallibility of science and technology. *Blood and Bone: Poems by Physicians* explores the profound connections between medicine and poetry through the eyes of contemporary physician-poets. These one hundred poems record instances of pain and recovery, joy and grief, humor and irony within the restricted society of caregivers and their patients.

The editors of this anthology have divided the poems into four sections to reflect the depth and diversity of the physician experience. Throughout, it is evident that medicine and poetry draw from the same deep well. At the heart of the medical encounter is the poetic act of witnessing, simply standing in the presence of suffering—an experience that cannot be fully expressed in scientific terms. Doctors and patients alike experience meaning in suffering and illness. In medicine and in poetry they find a network of healing symbols.

Angela Belli is professor of English at St. John's University in New York. She has written many articles and speaks widely on issues related to the medical humanities. Jack Coulehan is director of the Institute for Medicine in Contemporary Society and is professor of medicine and preventive medicine at the State University of New York at Stony Brook. He is the author of two collections of poetry, *The Knitted Glove* and *First Photographs of Heaven*.

"I admire this brave and accessible anthology. The writing of these physician-poets has content to burn. The authors have life-and-death work to do. Hence, the drama is immediate. The effects are visceral. There are stories and facts in this collection that will knock you off your pins. Other poems sing in the boneyard. It is a poetry by and for grown-ups. Worthy of the classroom, but worthy too of a private chair by a window. *Blood and Bone* has a strength that can't be faked."—Marvin Bell

Pilgrims in Medicine: Conscience, Legalism and Human Rights Thomas Faunce, 2005-02-01 This arrestingly novel work develops a normative synthesis of medical humanities virtue ethics medical ethics health law and human rights It presents an ambitious complex and coherent argument for the reconceptualisation of the doctor patient relationship and its regulation utilising approaches often thought of as being separate if not opposed virtue based ethics and universal human rights The case is argued gracefully with moderation but also with respect for opposing positions The book s analysis of the foundational professional virtue of therapeutic loyalty is an original departure from the traditional discourse of patient autonomy and the ethical and legal duties of the medical practitioner The central argument is not merely presented as bookends in the introduction and conclusion It is cogently represented in each chapter and section and measured against the material considered A remarkable feature is the use of aptly selected canonical literature to inform the argument These references run from Hesse s *The Glass Bead Game* in the abstract to Joyce s *Ulysses* in the conclusion They include excerpts from and discussion about Bergman Borges Boswell Tolstoy de Beauvoir Chekhov Dostoevsky Samuel Johnson Aristotle Orwell Osler Chaucer Schweitzer Shakespeare Thorwalds Kafka and William Carlos Williams Such references are used not merely as an artistic and decorative leitmotif but become a critical narrative element and another complex and rich layer to this work The breadth and quality of the references are testimony to the author s clear understanding of the modern law and literature movement This work provides the basis of a medical school course As many medical educators as possible should also be encouraged to read this work for the insights it will give them into using their own personal life narratives and those of their patients to inform their decision making process This thesis will also be of value to the judiciary whose members are often called upon to make normatively difficult judgments about medical care and medical rules The human rights material leads to a hopeful view of an international movement toward a universal synthesis between medical ethics and human rights in all doctor patient relationships

Petrushkin! Ron Charach, 1999 In *Petrushkin* Ron Charach walks a circus tightrope between the absurd and the absurdly real the extraordinary and the quotidian *Petrushkin* features a parade of figures from the Human Comedy both benevolent and malign that grace and haunt our daily

lives *Humanity in Medicine* Kerry Breen,2022-04-29 In 1940 soon after graduating Dr Stanley Goulston joined the Australian Army As the sole doctor to 1500 soldiers he was sent to the Middle East where the Allied forces were fighting the Germans and Italians His battalion was part of the iconic Rats of Tobruk during the famous siege At Tobruk he was awarded a Military Cross In 1947 he was appointed honorary physician to the Royal Prince Alfred Hospital in Sydney He became one of Australia s first gastroenterologists and advanced this speciality at his hospital and beyond In senior roles with the Royal Australasian College of Physicians he headed a long lasting redesign of physician training Stanley Goulston was universally admired for his humility empathy and commitment to teaching and research For most of his life he wrote poetry At 79 he completed a Master of Philosophy degree at Sydney University and then taught narrative and poetry to doctors and medical students with the aim of fostering a more humane and compassionate version of modern scientific medicine **Teaching Literature and Medicine** Anne Hunsaker Hawkins,Marilyn Chandler McEntyre,2016-01-01 Both the actualities and the metaphorical possibilities of illness and medicine abound in literature from the presence of tuberculosis in Franz Kafka s fiction or childbed fever in Mary Shelley s *Frankenstein* to disease in Thomas Mann s *Death in Venice* or in Harold Pinter s *A Kind of Alaska* from the stories of Anton Chekhov and of William Carlos Williams both doctors to the poetry of nurses derived from their contrasting experiences These are just a few examples of the cross pollination between literature and medicine It is no surprise then that courses in literature and medicine flourish in undergraduate curricula medical schools and continuing education programs throughout the United States and Canada This volume in the MLA series *Options for Teaching* presents a variety of approaches to the subject It is intended both for literary scholars and for physicians who teach literature and medicine or who are interested in enriching their courses in either discipline by introducing interdisciplinary dimensions The thirty four essays in *Teaching Literature and Medicine* describe model courses deal with specific texts authors and genres list readings widely taught in literature and medicine courses discuss the value of texts in both medical education and the practice of medicine and provide bibliographic resources including works in the history of medicine from classical antiquity [Empathy in Mental Illness](#) Tom F.
