J. Lowe, 2000-06-01 From Homer to Hollywood the western storytelling tradition has canonised a distinctive set of narrative values characterised by tight economy and closure This book traces the formation of that classical paradigm in the development of ancient storytelling from Homer to Heliodorus To tell this story the book sets out to rehabilitate the idea of plot notoriously disconnected from any recognised system of terminology in literary theory The first part of the book draws on developments in narratology and cognitive science to propose a way of formally describing the way stories are structured and understood

This model is then used to write a history of the emergence of the classical plot type in the four ancient genres that shaped it: Homeric epic, fifth century tragedy, New Comedy, and the Greek novel, with insights into the fundamental narrative poetics of each. **Homer's *The Odyssey*** Harold Bloom, 2007. The second of the two great epic poems attributed to Homer, *The Odyssey* takes place after the Trojan War and tells the story of Odysseus's voyage home to Ithaca and his wife Penelope. Odysseus's journey is a perilous one filled with precarious adventures and strange mythical creatures. Supported by numerous full-length essays, this updated volume offers various critical approaches to exploring this powerful tale of magic and heroism.

Emotions and Narrative in Ancient Literature and Beyond, 2022-04-25. Emotions are at the core of much ancient literature, from Achilles' heartfelt anger in Homer's *Iliad* to the pangs of love of Virgil's Dido. This volume applies a narratological approach to emotions in a wide range of texts and genres. It seeks to analyze ways in which emotions such as anger, fear, pity, joy, love, and sadness are portrayed. Furthermore, using recent insights from affective narratology, it studies ways in which ancient narratives evoke emotions in their readers. The volume is dedicated to Irene de Jong for her groundbreaking research into the narratology of ancient literature. **Warriors' Wives** Emma Bridges, 2023-08-22. This is an open access title available under the terms of a CC BY-NC-ND 4.0 International license. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. Epic poetry and tragic drama provide us with some of the richest ancient Greek depictions of women who are married to soldiers. In tales of the Trojan War, as told by Homer, Aeschylus, Sophocles, and Euripides, we encounter these mythical warriors' wives: Penelope, isolated but resourceful as she awaits the return of Odysseus after his lengthy absence; the war widow Andromache, enslaved and displaced from her homeland after the fall of Troy; the unfaithful and murderous Clytemnestra; and Tecmessa, a war captive who witnesses her partner's breakdown and suicide in the aftermath of battle. *Warriors' Wives* compares the experiences of these mythical characters with those of contemporary military spouses. Emma Bridges traces aspects of the lives of warriors' wives, mythical and real, ancient and modern, from the moment of farewell through periods of separation and reunion to the often traumatic aftermath of war, to consider the emotional, psychological, and social impacts of life as a military spouse. By unearthing a wealth of contemporary evidence for the lives of the often silenced and unacknowledged partners of those who serve in the military and by examining this alongside the ancient stories of warriors' wives, *Warriors' Wives* sheds fresh light on the experience of being married to the military. **On the Origin of Stories** Brian Boyd, 2010-11-15. A century and a half after the publication of *Origin of Species*, evolutionary thinking has expanded beyond the field of biology to include virtually all human-related subjects: anthropology, archeology, psychology, economics, religion, morality, politics, culture, and art. Now a distinguished scholar offers the first comprehensive account of the evolutionary origins of art and storytelling. Brian Boyd explains why we tell stories, how our minds are shaped to understand them, and what difference an evolutionary understanding of human nature makes to stories we love. Art is a specifically human adaptation, Boyd argues. It

offers tangible advantages for human survival and it derives from play itself an adaptation widespread among more intelligent animals More particularly our fondness for storytelling has sharpened social cognition encouraged cooperation and fostered creativity After considering art as adaptation Boyd examines Homer's *Odyssey* and Dr Seuss's *Horton Hears a Who* demonstrating how an evolutionary lens can offer new understanding and appreciation of specific works What triggers our emotional engagement with these works What patterns facilitate our responses The need to hold an audience's attention Boyd underscores is the fundamental problem facing all storytellers Enduring artists arrive at solutions that appeal to cognitive universals an insight out of step with contemporary criticism which obscures both the individual and universal

Published for the bicentenary of Darwin's birth and the 150th anniversary of the publication of *Origin of Species* Boyd's study embraces a Darwinian view of human nature and art and offers a credo for a new humanism **A Penelopean Poetics**

Barbara Clayton, 2004-01-29 *A Penelopean Poetics* looks at the relationship between gender ideology and the self-referential poetics of the *Odyssey* through the figure of Penelope She is a cunning story teller her repeated reweavings of Laertes shroud a figurative replication of the process of oral poetic composition itself Penelope's web is thus a discourse and it can be construed specifically as feminine Her gendered poetics celebrates process multiplicity and ambiguity and it resists phallogocentric discourse by undermining stable and fixed meanings Penelope's poetics become a discursive thread through which different feminine voices can realize their resistant capacities Author Barbara Clayton's work contributes to discussions in the classics as well as literary criticism sex and gender studies and women's studies **Homer's People**

Johannes Haubold, 2000-04-06 The first study to examine the role and character of Homer's people in Homeric story telling

Epea and Grammata. Oral and Written Communication in Ancient Greece Ian Worthington, John Foley, 2017-09-18 This volume deals with aspects of orality and oral traditions in ancient Greece and is a selection of refereed papers from the fourth biennial *Orality and Literacy in Ancient Greece* conference held at the University of Missouri Columbia in 2000 The book is divided into three parts literature rhetoric and society and philosophy The papers focus on genres such as epic poetry drama poetry and art public oratory legislative procedure and Simplicius philosophy All papers present new approaches to their topics or ask new and provocative questions **Orality, Textuality, and the Homeric Epics**

Jonathan L. Ready, 2019 Written texts of the *Iliad* and the *Odyssey* achieved an unprecedented degree of standardization after 150 BCE but what of the earlier history of Homeric texts This volume draws on scholarship from outside the discipline of classical studies to offer a comprehensive study of Homeric texts from the Archaic to the Hellenistic period **Greek Literature and the Ideal**

Alexander Kirichenko, 2022-08-18 *Greek Literature and the Ideal* contends that the development of Greek literature was motivated by the need to endow political geography with a sense of purposeful structure Alexander Kirichenko argues that Greek literature was a crucial factor in the cultural production of space and Greek geography a crucial factor in the production of literary meaning The book focuses on the idealizing images that Greek literature created of three spatial

patterns of power distribution a decentralized network of aristocratically governed communities Archaic Greece a democratic city controlling an empire Classical Athens and a microcosm of Greek culture located on foreign soil ruled by quasi divine royals and populated by immigrants Ptolemaic Alexandria Kirichenko draws connections between the formation of these idealizing images and the emergence of such literary modes of meaning making as the authoritative communication of the truth the dialogic encouragement to search for the truth on one's own and the abandonment of transcendental goals for the sake of cultural memory and/or aesthetic pleasure Readings of such canonical Greek authors as Homer Hesiod the tragedians Thucydides Plato Callimachus and Theocritus show that the pragmatics of Greek literature the sum total of the ideological cognitive and emotional effects that it seeks to produce is in essence always a pragmatics of space there is a strong correlation between the historically conditioned patterns of political geography and the changing mechanisms whereby Greek literature enabled its recipients to make sense of their world

Ovid's Homer Barbara Weiden Boyd, 2017 Ovid's Homer examines the Latin poet's engagement with the Homeric poems throughout his career Boyd offers detailed analysis of Ovid's reading and reinterpretation of a range of Homeric episodes and characters from both epics and demonstrates the pervasive presence of Homer in Ovid's work The resulting intertextuality articulated as a poetics of paternity or a poetics of desire is particularly marked in scenes that have a history of scholiastic interest or critical intervention Ovid repeatedly asserts his mastery as Homeric reader and critic through his creative response to alternative readings and in the process renews Homeric narrative for a sophisticated Roman readership Boyd offers new insight into the dynamics of a literary tradition illuminating a previously underappreciated aspect of Ovidian intertextuality

Homer and the Good Ruler in Antiquity and Beyond Jacqueline Klooster, Baukje van den Berg, 2018-05-01 Homer and the Good Ruler in Antiquity and Beyond focuses on the important question of how and why later authors employ Homeric poetry to reflect on various types and aspects of leadership In a range of essays discussing generically diverse receptions of the epics of Homer in historically diverse contexts this question is answered in various ways Rather than considering Homer's works as literary products then this volume discusses the pedagogic dimension of the Iliad and the Odyssey as perceived by later thinkers and writers interested in the parameters of good rule such as Plato Philodemus Polybius Vergil and Eustathios

Poetics before Plato Grace M. Ledbetter, 2009-01-10 Combining literary and philosophical analysis this study defends an utterly innovative reading of the early history of poetics It is the first to argue that there is a distinctively Socratic view of poetry and the first to connect the Socratic view of poetry with earlier literary tradition Literary theory is usually said to begin with Plato's famous critique of poetry in the Republic Grace Ledbetter challenges this entrenched assumption by arguing that Plato's earlier dialogues Ion Protagoras and Apology introduce a distinctively Socratic theory of poetry that responds polemically to traditional poets as rival theorists Ledbetter tracks the sources of this Socratic response by introducing separate readings of the poetics implicit in the poetry of Homer Hesiod and Pindar Examining these poets' theories from a new angle that uncovers

their literary rhetorical and political aims she demonstrates their decisive influence on Socratic thinking about poetry The Socratic poetics Ledbetter elucidates focuses not on censorship but on the interpretation of poetry as a source of moral wisdom This philosophical approach to interpreting poetry stands at odds with the poets own theories and with the Sophists treatment of poetry Unlike the Republic s focus on exposing and banishing poetry s irrational and unavoidably corrupting influence Socrates theory includes poetry as subject matter for philosophical inquiry within an examined life Reaching back into what has too long been considered literary theory s prehistory Ledbetter advances arguments that will redefine how classicists philosophers and literary theorists think about Plato s poetics **Homeric Responses** Gregory Nagy,2010-01-01 The Homeric Iliad and Odyssey are among the world s foremost epics Yet millennia after their composition basic questions remain about them Who was Homer a real or an ideal poet When were the poems composed at a single point in time or over centuries of composition and performance And how were the poems committed to writing These uncertainties have been known as The Homeric Question and many scholars including Gregory Nagy have sought to solve it In Homeric Responses Nagy presents a series of essays that further elaborate his theories regarding the oral composition and evolution of the Homeric epics Building on his previous work in Homeric Questions and Poetry as Performance Homer and Beyond and responding to some of his critics he examines such issues as the importance of performance and the interaction between audience and poet in shaping the poetry the role of the rhapsode the performer of the poems in the composition and transmission of the poetry the irreversible mistakes and cross references in the Iliad and Odyssey as evidences of artistic creativity and the Iliadic description of the shield of Achilles as a pointer to the world outside the poem the polis of the audience *Homeric Megathemes* D. N. Marōnitēs,2004-01-01 In this book war intercourse and homecoming are put forward as central themes in the two Homeric epics All three themes have their own semiotics and operate in different ways in the Iliad and the Odyssey thereby determining their myth and plot their narrative syntax and more generally their poetic and humanistic character *Self-same Songs* Roger J. Porter,2002-01-01 Self Same Songs constitutes a major contribution to the growing literary study of autobiography Using a range of authors including Homer Edward Gibbon Benjamin Franklin Somerset Maugham Franz Kafka and Eugène Delacroix Roger J Porter offers a broad based examination of the autobiography and the varied techniques used by its practitioners over time In a style that is both graceful and erudite Porter focuses on the diverse motivations and rhetorical functions that the act of self writing serves for particular writers He reflects on the texts not only as an exploration of self identity but also as the writers attempts to modify the life in the act of writing about it Then stepping out of his critical role Porter ends each chapter with an autobiographical discussion of his professional and personal engagement with the autobiographer under discussion creating an intriguing and absorbing literary autobiography within the critical text
