how conflicts change and evolve Drawing upon extensive multidisciplinary evidence this book is the first in the literature on civil war and insurgency to analyse the impact of blood revenge and its modern remnants on irregular warfare Even when blood revenge undergoes erosion its unregulated version still shapes the social fabric of insurgency although in different ways than its institutionalised counterpart At times of political instability the presence of a culture of retaliation weighs heavily on the dynamics of violent mobilisation target selection recruitment and disengagement This book brings in evidence from dozens of conflicts providing unprecedented insights into how a better understanding of blood revenge can improve military blueprints for irregular warfare This book will be of much interest to students of insurgency terrorism military and strategic studies anthropology and sociology as well as to decision makers and irregular warfare professionals **The Legal Ideology of Removal** Tim Alan Garrison,2002-12-01 This study is the first to show how state courts enabled the mass expulsion of Native Americans from their southern homelands in the 1830s Our understanding of that infamous period argues Tim Alan Garrison is too often molded around the towering personalities of the Indian removal debate including President Andrew Jackson Cherokee leader John Ross and United States Supreme Court Justice John Marshall This common view minimizes the impact on Indian sovereignty of some little known legal cases at the state level Because the federal government upheld Native American self dominion southerners bent on expropriating Indian land sought a legal toehold through state supreme court decisions As Garrison discusses Georgia v Tassels 1830 Caldwell v Alabama 1831 Tennessee v Forman 1835 and other cases he shows how proremoval partisans exploited regional sympathies By casting removal as a states rights rather than a moral issue they won the wide support of a land hungry southern populace The disastrous consequences to Cherokees Creeks Choctaws Chickasaws and Seminoles are still unfolding Important in its own right jurisprudence on Indian matters in the antebellum South also complements the legal corpus on slavery Readers will gain a broader perspective on the racial views of the southern legal elite and on the logical inconsistencies of southern law and politics in the conceptual period of the anti Indian and proslavery ideologies **Should Blood Blend with Milk** Dena Fakhro,2025-05-22 In Should Blood Blend with Milk Dena Fakhro offers an account of Middle Eastern conflicts told from the perspective of Arabic poetry and the blood feud Far from being confined to antiquity verse promoting bloody retribution continues to be generated by armed groups whereas among moderates there are lampoons which instead serve as protest and warning Traditionally blood vengeance is a requirement for settling scores and restoring honour to injured parties By making wide use of poems ranging from pre Islamic Arabia the medieval caliphates and the modern map of the Middle East Fakhro proves these texts belong to an epic continuum employing recurrent language while contextualising revenge as an aspect of sectarianism border conflict between empires anti colonial resistance and militant jihadism The Cult of Dismembered Limbs Gideon Aran,2023 When a suicide terrorist strikes in Israel the usual contingent of first responders that one might see anywhere in the world police medics firefighters are accompanied by another group one found only in Israel

They wear yarmulkes white coveralls rubber gloves and dayglo yellow vests These are the men of ZAKA an Israeli religious organization dedicated to dealing with the mutilated and scorched bodies and the severed limbs of the victims of violent death mainly those killed by Palestinian terrorism ZAKA arose reached its peak and gained fame during the two waves of suicide terrorism that characterized the intensification of the Israeli Palestinian conflict in the last decade of the 20th century and the first five years of the twenty first century ZAKA has a few hundred all male activists typically volunteers exclusively Haredi ultra orthodox Jews Well trained and equipped they are among the first to arrive at the sites of unnatural death especially the arenas of mass mortality where they perform a scrupulous procedure laden with symbolism This involves collecting the corpses and body parts sorting them identifying them and reassembling them while diligently preserving respect for the dead and for body parts and preparing them for burial according to the rigid strictures of Jewish law Gideon Aran has spent years embedded with the men of ZAKA and in this gripping ethnography he takes readers inside the organization and on the ground with these men as they do their gruesome but in their view holy work

State-Building as Lawfare

Egor Lazarev,2023-02-09 State Building as Lawfare explores the use of state and non state legal systems by both politicians and ordinary people in postwar Chechnya The book addresses two interrelated puzzles why do local rulers tolerate and even promote non state legal systems at the expense of state law and why do some members of repressed ethnic minorities choose to resolve their everyday disputes using state legal systems instead of non state alternatives The book documents how the rulers of Chechnya promote and
