Decolonising Indigenous Child Welfare Terri Libesman,2013-12-04 During the past decade a remarkable transference of responsibility to Indigenous children s organisation has taken place in many parts of Australia Canada the USA and New Zealand It has been influenced by Indigenous peoples human rights advocacy at national and international levels by claims to self determination and by the globalisation of Indigenous children s organisations Thus far this reform has taken place with little attention from academic and non Indigenous communities now *Decolonising Indigenous Child Welfare Comparative Perspectives* considers these developments and evaluating law reform with respect to Indigenous child welfare

asks whether the pluralisation of responses to their welfare and well being within a cross cultural post colonial context can improve the lives of Indigenous children The legislative frameworks for the delivery of child welfare services to Indigenous children are assessed in terms of the degree of self determination which they afford Indigenous communities The book draws upon interdisciplinary research and the author s experience collaborating with the peak Australian Indigenous children s organisation for over a decade to provide a thorough examination of this international issue Dr Terri Libesman is a Senior Lecturer in the Law Faculty at the University of Technology Sydney She has collaborated researched and published for over a decade with the peak Australian Indigenous children s organisation

Aboriginal Child Welfare, Self-Government and the Rights of Indigenous Children Sonia Harris-Short,2016-03-16 This volume addresses the contentious and topical issue of aboriginal self government over child welfare Using case studies from Australia and Canada it discusses aboriginal child welfare in historical and comparative perspectives and critically examines recent legal reforms and changes in the design management and delivery of child welfare services aimed at securing the decolonization of aboriginal children and families Within this context the author identifies the limitations of reconciling the conflicting demands of self determination and sovereignty and suggests that international law can provide more nuanced and culturally sensitive solutions Referring to the UN Declaration on the Rights of Indigenous Peoples and the UN Convention on the Rights of the Child it is argued that the effective decolonization of aboriginal child welfare requires a journey well beyond the single issue of child welfare to the heart of the debate over self government self determination and sovereignty in both national and international law
