Blood On The Coal The Story Of The Springhill Mining Disasters:

Blood on the Coal Roger David Brown, 1976-01-01 **Danger, Death and Disaster in the Crowsnest Pass Mines, 1902-1928** Karen Lynne Buckley, 2004 The Crowsnest Pass is famous for the tragic rock slide at Frank in 1903 but almost as famous are the many coal mining tragedies that afflicted the region in the early twentieth century With the discovery of a rich coal deposit in the region the area underwent an economic boom and a spike in population that is still evidenced today Unfortunately with this type of mining in rugged and often dangerous conditions comes the threat of disaster and occasionally death This book examines carefully the various calamities that have afflicted the area and considers the impact on the inhabitants and victims of these numerous tragedies Using original source material such as grave markers folk songs and oral histories the author portrays vividly the psychological and sociological features of both the individual and collective responses to death and danger giving the reader a unique picture of mining communities that is as true today as it was a century ago **Last Man Out** Melissa Fay Greene, 2015-09-24 The deepest coal mine in North America was notoriously unpredictable One late October evening in 1958 it bumped its rock floors heaving up and smashing into rock ceilings A few miners staggered out most of the 174 on shift did not Nineteen men were trapped plunged into darkness hunger thirst and hallucination As days and nights passed the survivors began to hope for death by gas rather than from thirst Above ground journalists and families stood in despairing vigil as rescuers brought out scores of the dead The hope of finding life underground faded and families made funeral preparations Then a miracle Rescuers stumbled across a broken pipe leading to a cave of survivors then a second group was discovered A media circus followed Ed Sullivan then the state of Georgia invited survivors to visit Publicity politics and segregation sorted the men differently than they had ordered themselves Underground the one black survivor nursed a dying man in Atlanta Governor Marvin Griffin said I will not shake hands with a Negro If every great writer has one tale of peril heroism and survival Last Man Out is Melissa Fay Greene s Using long lost stories and interviews with survivors Greene has reconstructed the drama of their struggle to stay alive **Disaster Songs as Intangible Memorials in Atlantic Canada** Heather Sparling, 2022-12-30 Disaster Songs as Intangible Memorials in Atlantic Canada draws on a collection of over 600 songs relating to Atlantic Canadian disasters from 1891 up until the present and describes the characteristics that define them as intangible memorials The book demonstrates the relationship between vernacular memorials informal memorials collectively and spontaneously created from a variety of objects by the general public and disaster songs The author identifies the features that define vernacular memorials and applies them to disaster songs spontaneity ephemerality importance of place motivations and meaning making content as well as the role of media in inspiring and disseminating memorials and songs Visit the companion website www.disastersongs.ca *Story of the Springhill Disaster* Robert A. H. Morrow, 1891 Schooling in Transition Sara Z. Burke, Patrice Milewski, 2011-12-13 An exploration of two centuries of formal education in Canada in which the accommodation of minority needs and local versus

central control are recurring themes Blood on the Coal Ken Cuthbertson,2023-09-12 The riveting true story of one of Canada's worst mining disasters told in the voices of the men who survived it Foreword by Anne Murray They said it was the world's deepest and most dangerous coal mine That claim was probably correct What is certain is that in October 1958 the Dominion Steel and Coal Corporation's No 2 colliery at Springhill Nova Scotia was a leading candidate for both those dubious distinctions The mine was the proverbial disaster waiting to happen And it did Springhill was the quintessential one industry town Its existence depended on coal and in 1958 the market for that commodity was dying And yet something far worse was to come On the night of October 23 a bump in the mine actually a small earthquake shook the ground beneath the town Seventy five miners died and scores more were injured in what remains one of Canada's worst underground disasters The lives of the survivors were shattered and Springhill would never be the same again In compelling detail Ken Cuthbertson tells the stories of three of the miners and one of the doctors who cared for them following the disaster This remarkable book is based on historical documents and interviews as well as new interviews with the last of the surviving miners and their loved ones It is a story of heroism sacrifice and the indomitable strength of the human spirit Governing Environment Sanjay Sharma,2016 This book comparatively analyses the federal policies and financing of India and Canada It examines whether federalism as a system of governance is better suited to deal with environmental questions It operates from the assumption that federalism can provide an effective solution to the emerging concerns of the environment because it essentially provides a model of disaggregated governance without any extensive and intrusive mark of hierarchy It presents a uniquely exploration of environmental governance from this hitherto under researched perspective and simultaneously in order to provide a better conceptual understanding examines the different theories of federalism and modes of distribution of powers authorities and functions Given their symmetrical federal experiences India and Canada naturally qualify as the domain of study with both being known as twin federal nations Issues of environment have been factorised and classified according to their critical significance in terms of policy choices The combinatorial structure has been evaluated in terms of better federal management of environment In the process many new dimensions of federalism and environment have emerged which may contribute to the critical mass of knowledge on the subject This book makes a departure from the general mono construction of the environment as a restricted unit of knowledge available only to a specialist Broadly following an interdisciplinary logic of formation of idea this study is highly relevant in generating a new perspective on environmental research It defines environment as a system which requires careful redrafting and reworking of three structures of relationships namely between man and environment between resource community and the state and between inter governmental contestations Working Disasters Eric Tucker,2016-12-05 Every day workers are injured made ill or killed on the job Most often workers experience these harms individually and in isolation Particular occurrences rarely attract much public attention beyond perhaps a small paragraph in the local newspaper Instead these events are normalized This membrane of normalcy however

is ruptured from time to time especially after a disaster This edited collection draws together original case studies written by leading researchers in Australia Canada Great Britain Sweden and the United States that examine the politics of working disasters The essays address two fundamental questions what gets recognized as a work disaster And how does the state respond to one In some instances it seems self evident that a disaster has occurred For example when a mine explodes killing tens or hundreds of workers simultaneously the media and politicians recognize that this is not just a personal tragedy for the families of the victims and that more troubling questions need to be asked about how this could happen In other circumstances however the process that determines what gets recognized as a disaster is much more complicated Working Disasters addresses the politics of recognition in case studies of the long haul trucking industry repetitive strain injuries and lung disease in miners Once it has recognized that a working disaster has occurred the state typically goes beyond its routine responses to the daily toll of work related deaths and injuries Inquiries may be initiated to review the adequacy of regulatory systems and laws may be amended Sometimes disasters produce meaningful change but often they do not In this text the politics of response is considered in studies of a factory fire the loss of an offshore oilrig lung disease among miners a mine explosion and the prosecution of health and safety offences This book will be of use to occupational health and safety activists and professionals academics and upper year students in industrial relations labour studies labour history law political science and sociology **Canadian Book Review Annual** ,1992

Blood and Shadows: Canada's Darkest Crimes and Tragedies Robert J Dornan,2025-02-16 History remembers the victories the heroes and the milestones But beneath every nation s triumphs lies a shadowy undercurrent of tragedy crime and loss stories that shaped the past just as much as progress did Blood and Shadows Canada s Darkest Crimes and Tragedies dares to explore these forgotten chapters unveiling the chilling heartbreaking and often overlooked events that have left an indelible mark on the country s history From the deadly wreck of the RMS Atlantic in 1873 to the horror of Cole Polytechnique this collection delves into sixty of Canada s most harrowing moments These are not just distant echoes of the past they are stories of real people real suffering and the resilience that emerged from darkness For readers who crave the hidden truths behind a nation s history this is the first in a groundbreaking series that exposes the tragedies and crimes that have shaped societies around the world For Canadians this book serves as a powerful reckoning a reminder that the country s polite reputation masks a past as complex and tumultuous as any other Uncover the crimes and catastrophes that history books avoid See Canada s past through a lens of truth not myth Understand how tragedy has shaped national identity This is not just a book about the past it s an invitation to look deeper to question and to remember History is more than victories It s time to shine a light into the shadows **Mining Country** John Sandlos,Arn Keeling,2021-09-07 Mining has had a significant presence in every part of Canada from the east to west coasts to the far north This book tells the stories of those who built Canada s mining industry It highlights the experiences of the people who lived and worked in mining towns across the country the rise of major mining companies and

the emergence of Toronto and Vancouver as centres of global mining finance It also addresses the devastating effects mining has had on Indigenous communities and their land and documents several high profile resistance efforts Mining Country presents fascinating snapshots of Canadian mining past and present from pre contact Indigenous copper mining and trading networks to the famous Cariboo and Klondike Gold Rushes Generously illustrated with more than 150 visuals drawn from every period of mining history this book offers a thorough account of the story behind the industry Histories of Canadian Children and Youth Joy Parr, Nancy Janoviček, 2003 Histories of Canadian Children and Youth is a survey of the history of children youth and Canadian families from New France and the fur trade to immigrant children in the last half of the 20th century It covers topics from growing up Metis to sex education to literacy work and school race and ethnicity including some important articles on residential schools Each section is carefully arranged by time period and theme and includes both primary and secondary sources **American Book Publishing Record Cumulative, 1950-1977** R.R.
