Blood On The Plains:

A Geography of Blood Candace Savage, 2013-11-12 When Candace Savage and her partner buy a house in the romantic little town of Eastend she has no idea what awaits her At first she enjoys exploring the area around their new home including the boyhood haunts of the celebrated American writer Wallace Stegner the backroads of the Cypress Hills the dinosaur skeletons at the T Rex Discovery Centre the fossils to be found in the dust dry hills She also revels in her encounters with the wild inhabitants of this mysterious land two coyotes in a ditch at night their eyes glinting in the dark a deer at the window a cougar pussy footing it through a gully a few minutes walk from town But as Savage explores further she uncovers a darker reality a story of cruelty and survival set in the still recent past and finds that she must reassess the story she grew up with as the daughter granddaughter and great granddaughter of prairie homesteaders *Blood and Water* David

Katz, 2005-06-30 When Valleys Turned Blood Red tells the story of colonial policies and their tragic impact on local communities The Ta pa ni Incident of 1915 was the largest single act of Han Chinese armed resistance during the fifty years of Taiwan's colonial era More than a thousand villagers and Japanese were killed during the fierce fighting and

thousands more were later arrested and made to stand trial Based on detailed archival research interviews with survivors painstaking demographic analysis and a thorough reading of secondary scholarship in all of the relevant languages Paul Katz examines the significance of the Ta pa ni Incident by focusing on what Paul Cohen terms history s three keys event experience and myth Katz provides a vivid description of events surrounding the uprising as well as the ways in which it has been mythologized over time His primary emphasis however is on the experiences of the men and women who were caught up in the flow of history *Wild Horses in My Blood* Eva Pendleton Henderson,2011-11-15 Eva Pendleton Henderson a member of the historical Chisum family recounts her life on the windy border country of southern New Mexico in the 1890s when it was still a territory Growing up in a time of legends Pancho Villa afoot the rumblings of the first automobile terrifying horses as well as men drought and fate walking hand in hand the end of the old West and the beginning of the new An oft told tale Yes but rarely told by a girl and woman who truly saw what was there and wrote of it in a clear strong sensible voice Her story shines as brightly as her unmistakable wit For all ages a book for all seasons now in a new edition Big Game Hunting in the Rockies and on the Great Plains Theodore Roosevelt,1899 **A Line of Blood and Dirt** Benjamin Hoy,2021 A Line of Blood and Dirt examines the creation and enforcement of the border between Canada and the United States from 1775 until 1939 **Blood in the Borderlands** David C. Blain,2001 This dissertation reports the results of a sociological analysis of the narrative form and functions of revolutionary discourse Chapter I poses two questions How do representations of death function in political processes How do signifiers of violent death function in the structure of revolutionary statements Chapter II reviews relevant sociological concepts and articulates a dramatic political sociology of death concepts mainly derived from Emile Durkheim Robert Hertz and Arnold van Gennep on death and the sacred Max Weber on violence and politics and Burke Duncan and Edelman s view of politics as symbolic action Chapter III presents the results of a formal narrative and semiotic analysis of a large sample of revolutionary statements Saussure

Levi Strauss Foucault Two symbolic complexes were clearly evident First revolutionaries employ a tragic narrative form employing the blood of innocent victims and heroic martyrs to construct the villainy of their enemies to provoke moral outrage and to legitimate acts of righteous retaliation against established authority Second metaphors of fire storm explosion and eruption are used to infuse revolutionary acts with powerful impersonal forces Chapter IV validates these results through an exploratory study of political meanings employing Osgood s semantic differential technique Chapter V concludes that in revolutionary discourse at least revolutionary action is a form of tragic drama an violent appeal to a public audience made on behalf of powerless people a statement that one is willing to kill and die in the name of the ultimate principles of social order The results of the semantic differential analysis show that these meanings can be studied empirically employing this technique They also illustrate the validity and usefulness of the analytic framework suggesting future avenues of research

Blood on the Plains Thomas Albert Curry,1949 **Bonds of Blood?** Ekaterina Sokirianskaia,2023-03-09 The North Caucasus specifically Chechnya and Ingushetia is a region that has experienced some of the deadliest and most protracted conflicts in Europe Chechnya is currently a totalitarian enclave within the increasingly

authoritarian Russian Federation while Ingushetia still suffers from lingering political conflicts and chronic problems with the quality of governance By examining the relationship between state and society this book considers how state building has unfolded in a region with highly complex social structures a history of colonialism Soviet authoritarianism and later post Soviet wars and trauma Focusing on a systematic analysis of subnational state building in post Soviet Chechnya and Ingushetia and the role of teips clans in this process this study responds to the widely accepted academic claim that governance and ethnic consolidation in the North Caucasus are shaped by the politics of teips and the belief that late and uneven modernization and the survival of tribal structures have been accountable for systematic failures in state building in the region The research is based on over 200 interviews which the author carried out in Ingushetia and Chechnya as well as interviews with Chechen exiled politicians in Europe The book also features never before seen access to the archives of the Chechen Parliament during the period of de facto independence Through research into the socio anthropological analysis of the clans and how they function towards political systems Sokirianskaia shows how the teips lost their traditional organizational structure and roles becoming incapable of mobilizing for political action She argues that while teip symbolism has remained politically relevant and the bonds of kinship are highly important they do not form the basis of politics and subnational state building in Chechnya and Ingushetia Consequently subnational authoritarianism is not the result of the pre existing social composition of the society but a reflection of institutional rules imposed by Moscow
